There was a scene of desolation and unparalleled in the history of the city as a result of the fearful riot here. One child was lying cold in death and nearly a score of people were suffering from the wounds of pistol balls, buckshot and missiles.

The city building was a heap of the water-soaked ashes of Columbia hall.

The police force of the city was disorganized and scattered, the chief fleeing in desperation from the bloodshed, riot and burning, crazed by what his men had done.

Electric wires, deadly to the touch lay across the streets in the vicinity of the burned buildings and debris of all kinds was senttered far and near. The downtown streets were just as the mob left them, and although nothing was being done by the rioters, crowds of spectators, hundreds in number, hung around "waiting for something

to turn up." The crowds began to increase as the curious spectators hurried to the scene leuce was offered. There was no evidence of ill-will or disquiet on the part of the crowds at the lines. There was no talk of violence. The turbulent element had slunk away and order was once more fully restored. As the troops marched J. F. The rioters refused to be satisfied, and with the cry. "To the courthouse," "To the county jail," they started up the hill to High street and across the commons to the courthouse and jail.

First they attacked the jail and were met by Deputy Sheriff Stone. On his request a committee was hurriedly appointed and every nook and corner of the jail was searched. IRON TRADE IMPROVED.

Dun's Review Said It Was More Solid and Better Balanced Market Than For Two Months.

New York, Aug. 25,-R. G. Dun & Co's Weekly Review of Trade said in part: The sky is not standless, but there has been no backward movement of business this week. The chief drawback of the week has been the intense heat in some sections of the west, which was more efficient in retarding business than the lower temperature east was in stimulating it. Crop advices continue as cheerful as at any time lately, and the labor situation shows The latery, and the later strates shows no important changes in working forces. Trices are steady, but there is talk of a decline, perhaps \$10 per ton, in steel rails shortly to a basis at which it is believed the railroads will be willing to place or ders for the ensuing year's supplies. More good news comes from the great iron centers, where bridge and boat builders and makers of agricultural implements, stoves and cast from pipe, are all eager to secure raw or partially finished material. Prices are sustained and in a few cases more upward. Iron generally is a more solid and better bulanced market than for two months past. Reduction in output of pig is having the desired effect at most northern points, though at the south stocks are still heavy, and complaint is heard of prohibi-tive freight rates to the seaboard. Large export lousiness is waiting, and foreign in favor of the friars, but nothing defbuying of finished material continues

Production of coke has been reduced to 143,080 tons weekly in the Connelistille region. Another sharp decline has taken the price of the 15 30%c, but copper is firm. Whent declined still further on Saturday, touching the lowest price since early in June, and making the fall 15%c from the top point of the season about two months ago. Vigorous marketing by farmers shows their willingness to sell at current prices, receipts at primary markets during three weeks amounting to 15,880,990 bushels. Production of coke has been reduced to receipts at primary markets during three weeks amounting to 10,000,000 bushels, against 10,000,001 last year. Pally figures of exports continue light, although there is much talk of purchases for foreign account. Prices recovered from the lowest point, traders on the short side taking profits freely. Corn is steady, but a drop last year makes the present price only 4c above that of 1800. Sales of wood at the three chief eastern markets have increased to 5,062,500 pounds, against 4,231,800 in the reck previous. Texas wool was active in loston, and territory grades are all firmly held, though prices are nominally un-changed. There is no pressure to sell, some dealers shipping east with definite instructions to hold until after election. Failures for the week were 171 in the United States, against 163 last year, and 29 in Canada, against 16 last year.
