ROOSEVELT'S LETTER.

Formally Accepts Vice Presidential Nomination.

DEALS WITH IMPERIALISM.

McKinley's Policy in the Philippines Is Compared to the Expansion Acts of Other Presidents, and the Matter is Thoroughly Reviewed.

WASHINGTON, Sept. 17.—The letter of Governor Roosevelt formally accepting the nomination for vice president, was made public last night. In substance it is as follows: OYSTER BAY, N. Y., Sept. 18. To Hon. Edward O. Wolcott, Chairman Committee on Notification of Vice President.

I feel that this contest is by no means one merely between Republicans and Democrats. We have a right to appeal to all good citizens who are far-sighted enough to see what the honor and the interest of the nation demand.

Problem of Trusts.

One of the serious problems with which we are confronted under the conditions of our modern industrial civilization is that presented by the great business combinations, which are generally known under the name of trusts.

The first thing to do is to find out the facts; and for this purpose publicity as to capitalization, profits, and all else of importance to the public, is the most useful measure.

Our Duty as a Nation.

While paying heed to the necessity of keeping our house in order at home, the American people can not, if they wish to retain their respect, refrain from doing their duty as a great nation in the world.

and under Washington and the elder Adams; the theory known by this latter name and misleading phrase was only struck out in political controversy at a much later date, for the sole purpose of justifying the extension of slavery into the territories.

The parallel between what Jefferson did with Louisiana and what is now being done in the Philippines is exact. Jefferson, the author of the Declaration of Independence, and the "consent of the governed" doctrine, saw no incongruity between this and the establishment of a government on common sense grounds in the new territory; and he relied at the sticklers for an impossible application of his principle, saying, in language which at the present day applies to the situation in the Philippines without the change of a word, "though it is acknowledged that our new fellow citizens are as yet incapable of self-government as children, yet some can not bring themselves to suspend its principles for a single moment."

Seminole Like Philippines.

The next step in expansion was the acquisition of Florida. This was partly acquired by conquest and partly by purchase. Andrew Jackson being the most prominent figure in the acquisition.

Important Post Deeded.

Mr. Mitchell decided an important point yesterday in the matter of arbitration. It will be remembered that last week the miners employed by G. G. Markle & Co. decided not to strike until the firm had passed upon a set of their own grievances which differ somewhat from those of the United Mine Workers.

Must Wait a Few Days.

Father Phillips, who suggested the idea of having Archbishop Ryan brought in as arbitrator on behalf of the men, would not talk on the decision of President Mitchell, but in speaking on the subject of an early settlement of the strike, he said: "There can hardly be anything done for a few days, and it is likely that a certificate of levancy on the part of the men will be necessary."

Number of Men on Strike.

President Mitchell last night gave out the following statement: "Information received up to this time indicates that 112,000 mine workers are on strike in the anthracite region. Of this number 72,000 are in District No. 1, 30,000 in District No. 2, and 10,000 in District No. 3."

NO POLITICS IN IT.

President Mitchell Says the Charge is Ridiculous and Nonsensical. HAZELTON, Pa., Sept. 18.—In speaking of the charge that politics might have something to do with the present strike, President Mitchell said: "Politics will not, cannot and must not enter into the strike. Personally I approach the contest as a mother would her baby's health. The men who are object of that mother's restoration of her baby's health. The men who are called leaders in this strike are animated with the same consideration. There cannot be and shall not be any contention in a political sense as the declaration of the strike. The leaders feel, and they want the public to feel and they want the public to know, that this is a fight for human liberty. It would be nonsensical, it would be cruel, for any one to inject politics."
