Harvest For Soft Coal Men.

NEW YORK, Sept. 25 .- President Truesdale of the Lackawanna road said yesterday that he had heard nothing more about the intended visit of the switchmen of his road and he felt sure that the report of their dissatisfaction was unfounded. Bituminous coal men continue to reap a harvest as a result of the hard coal strike. The net advance in soft coal since last Friday averages about 50 cents a ton and, with matters as they are in the anthracite region, another rise in the price of soft coal may be looked for. The soft coal men say that even should the strike cease, they will maintain present prices, as the demand for their product is sufficiently large to enable them to get the rate asked.

Few Trains Moving.

READING, Pa., Sept. 25 .- Only a few coal trains passed through Reading yesterday and they contained coal mined last week. The product in the mines has been pretty well cleaned up and only few trains started out last night. The trouble in the coal regions will throw over 1,000 trainmen in the Schuylkill valley from Philadelphia to Pottsville temporarily out of employment. The Reading company has issued orders to change engines burning anthracite coal so that they can use bituminous.

Soldiers Number 1,781.

PHILADELPHIA, Sept. 25.-In view of conflicting reports as to the actual number of soldiers on duty in the strike region, it was stated at National Guard headquarters in this city that exactly 1.781 men were in the field. Two regiments, the Ninth and the Thirteenth, held as a reserve, bringing the total number up to 3,040 that are available for duty in the third which General Gobin commands.

ONE OF ITS GOOD EFFECTS. Strike In Authraelte Re ion focus Bus

ALTOONA, Sept. 24 .- The effects of the anthracite coal strike are already being felt in the central Pennsylvania bituminous fields. Every train from the East brings an instalment of miners from the regions where the strike prevails. These men are finding ready employment. Under ordinary conditions they would not be needed, in spite of the fact that there is plenty of coal to be mined and plen-ty of markets for the product. But heretofore the bituminous operators have been unable to secure cars, while now the railroads are ready to furnish them in almost unlimited quantities. The empty cars from the anthracite region are coming by whole trains and

are being distributed through the re-The vast quantity of stored coal resulting from the inability to suppl cars will soon melt away under these improved conditions, and there is need of new men in the mines whether the strike in the anthracite field be of long or short duration. If it should prove to be protracted, the local fields will se able to sell twice as much coal as they have been marketing, and should the anthracite field soon resume there will be the surplus to restore, and that will require months.

HAZLETON, Pa., Sept. 25,-Contrary to the expectations of both the operators and the striking coal miners, there were no developments in the strike situation in the Lehigh region yesterday. It was thought in some quarters, that owing to the presence of troops in the anthracite field, a break would occur in the ranks of the strikers or that a large number of additional men would refrain from going to work. The operators as a rule predicted a break in the strikers' ranks and the labor lead-

ers were equally sure they would the up this region tighter than ever. Today both sides claim they had made good gains. It seems, however, from the most reliable reports received here from the entire region that the strikers made a net gain in point of numbers. The G. S. Kemerer colliery at Sandy Run on the north side, was tied up yesterday, but the output is not

a large one. President Mitchell, in discussing the situation in the entire strike region last night, said: "Reports received by me today from the lower anthracite (Schuylkill) region indicate that at least 2,000 mine workers joined the strikers yesterday. A large number of these came from the Reading com-pany's mines. In the Lehigh region we made large gains. I have not received definite figures, but I should judge that the number of men heretofore working and who did not go into the mines in this district numbered be-

tween 600 and 800. "The meetings held on Sunday by the United Mine Workers, at which men who had not struck were strongly urged to help in the fight, bore fruit. As a whole I feel more encouraged tonight than I have at any time since the strike begun, and I am confident that within the next few days the entire anthracite coal field in Pennsylvania will be idle. At no place today did we lose a man."

Attempt at Arbitration.

In regard to the efforts of Archbishop

Ryan of Philadelphia to bring about

settlement through arbitration, Mr

Mitchell said: "Archbishop Ryan will call upon the presidents of the various railreads which have mining interests in this region at the request of the United Mine Workers and will tender his good offices in the struggle. If the officials refuse to meet his grace it will certainly demonstrate their insincerity in publicly declaring their willingness to treat with their men and will place them in the same position as that once occupied by Mr. Vanderbilt, who very forcibly said that the public had no in-

efits from the United Mine Workers of America since the strike was inaugurited, he simply said "No." Mr. Mitchell yesterday held numerus conferences with organizers and others in regard to the carrying out of plans for continuing the fight at the Considerable interest is attached to

Sheriff's Posse Fired Into Crowd at Shennudoah, Killing Two. SHENANDOAH, Pa., Sept. 22. - A sheriff's posse fired on a crowd of riotous men here yesterday afternoon, killing two persons and wounding seven others. Sheriff Toole and Deputies O'Donnell and Brenneman were called to Shenandoah to suppress the mobs that threatened mine workers and colliery property. At quitting time the three shoriffs and a small posse, whom the sheriff had summoned on the ground, went to the Indian Ridge colliery of the Reading company to escort the workingmen to their homes.

The colliery is located a short distance

east of Shenandoah. The workmen left for home shortly after 4 o'clock. They walked up the middle of East Center atreet and reached the Lehigh Valley railroad Here had gathered a large crowd of Poles, Slavs and Hungarians, mer, women and children, who lined both sides of the street. A shot rang out from a saloon. This was followed by a shower of stones. Many of the crowd had picked up sticks and stones and were acting in a threatening manner. Seeing this the sheriff, who had previously cautioned his men to keep cool and not to use their firearms, commanded them to fire. The order was obeyed with terrible results. The crowd pursued the sheriff and his posse to the Ferguson House, where

READING, Sept. 21.-In the Mennonite conference here Rev. W. B. Musselman created a stir by charging ministers and elders in the church with speculating in worldly things. I heard of me presiding elder who bought and sold cattle right along to raise money to build a house for himself. This is wrong. But if presiding elders do it they must remember that there are ministers also who want to own their own homes. We would all If e to own a horse, a cow, a maltese cat and a pug dog. But we must not become entangled in worldly affairs. We must no imitate the high church official who
