Convention at Scranton Will End the Strike.

One Delegate Will Be Chosen for Every Foreign. The victim was Leopold Gout, 100 Men Now Out-Men Are Apparent ly In Accord That the 10 Per Cent Advance Should Be Accepted-Everyone In Mining Section Is Elated.

PHILADELPHIA, Oct. 9.-President Mitchell issued his call yesterday for the much-talked of miners' convention to discuss the operators' offer of a 10 per cent increase in wages.

The convention will be held at Scranfon and will open on Friday next. Representation in the convention will be on the basis of one delegate with one vote for each 100 persons on strike.

It is the general expectation that the

decision of the convention will be to accept the increase and return to work. Quietness prevailed throughout the anthracite regions yesterday, the call for the convention being generally accepted as a signal for cessation of hostillties all around. There were many expressions of satisfaction by miners and operators and by merchants and others in the mining section over the prospects of an early settlement of the

Scranton Now Becomes Headquarters of United Mine Workers.

SCRANTON, Pa., Oct. 9,-Music Hall, theater adjoining the district headquarters, and capable of seating 1,000 people, has been secured for Friday's convention of the United Mine Workers. The national headquarters will be at the St. Charles hotel, a block and a half away.

President Mitchell and his staff will come here tonight or early Wednesday morning and the probability is that the headquarters will be maintained in this city until the strike is over, as this is the metropolis of the anthracite region. The big demonstration of tomorrow

afternoon being concluded, the work of arranging the preliminaries of the con-vention will be attacked. It is genertlly believed here that a complete pro gram will be mapped out at a cenfermee on Thursday and that this program will be followed at the convention he following day.

The general feeling here is that the 10 per cent offer will be accepted as it stands and that the matter of substituting a fixed scale for a sliding scale the lower districts will be left to the affected miners themselves to settle when they come to treat with their respective employers under the provision the offer guaranteeing adjustme of any grievances the employes may present. The matter of yearly conferences to fix a new scale may also be dealt with in the same manner, each set of employes sending a committee to their employer and then reporting back to a convention conducted under the auspices of the United Mine Workers.
