TO TAKE UP DEMANDS.

Reading Officials Will Consider Miners' Ultimatum.

Some of the Directors Are Known to Be Opposed to Abolishing the Sliding Scale—President Mitchell Makes Statement, Raising Another Obstacle in Way of Settlement. PHILADELPHIA, Oct. 16.—It is expected that the officials of the Reading company will today take up for consideration the proposition of the Mine Workers' convention.

ANOTHER OBSTACLE.

Mitchell Says Price of Powder Must Not Be Fixed in the 10 Per Cent Advance. SCRANTON, Pa., Oct. 16.—President Mitchell and the others of the strike leaders who remained over Sunday in this city left for Hazleton yesterday. Mr. Mitchell declined to discuss the operators' statement of their views of the convention's outcome as conveyed to the public in the interview with President T. H. Watkins of the Reading company, but permitted himself to say that Mr. Watkins was unfair in declaring that the raids in the lower districts were led by paid officers of the United Mine Workers.

He also settled affectively the dispute whether or not the resolutions contemplate that the operators' offer must also be amended by striking off the codicil that the decrease in the price of powder is to be computed in figuring the advance in wages. "The advance must be a flat one," said Mr. Mitchell. "Where powder is being sold for \$2.75 a keg the excessive charge will be one of the grievances that the company will be called upon to take up when the men are accorded the conference that their respective employers agreed in the posted notices to give them on their return to work."

WARNING THE MINERS.

Union Officials Say Operators Are Trying to Start a Stampede. SHAMOKIN, Pa., Oct. 16.—Committee of United Mine Workers were calling on miners all day yesterday to warn them not to pay attention to petitions being circulated by anyone of several coal carrying companies asking miners to return to work pending a settlement between the operators, coal carrying companies and miners. The committee informed the men that operators are trying to effect a stampede among the men in order to break up the strike, and that it is probable the operators have decided not to comply with the demands of the Scranton convention.

TROOPS ANXIOUS TO LEAVE.

But General Gobin Will Remain Until Men Go Back to Work.

SHENANDOAH, Pa., Oct. 15.—General Gobin, in charge of the state troops located here since the strike riot of Sept. 21, is anxiously awaiting the verdict of the operators in regard to the terms of settlement agreed upon at the Scranton convention.

NOT ACCEPTABLE.

Operators at Shamokin and Mt. Carmel Do Not Like Miners' Terms.

SCRANTON, Pa., Oct. 15.—The terms of the Scranton convention are not acceptable to operators and representatives of the coal carrying companies in this place and Mount Carmel. The reading officials do not think the sliding scale will be abolished by the company while operators are averse to signing a contract binding them to pay the 10 per cent increase until April.

REVIEW OF TRADE.

Bradstreet's Report on Conditions of Business Throughout the Country.

NEW YORK, Oct. 15.—Bradstreet's review of trade says:

Though some measures of business volume and value make unfavorable comparison with a year ago and speculation is certainly on a reduced scale in nearly all lines, other registers of trade activity are still very favorable and it is hard to resist the conclusion that, with few exceptions, the actual business of the country is, as a rule fully equal to, if not slightly in excess of the corresponding period of 1899.

Failures are slightly more numerous, it is true than of late, but they are still well down to a normal minimum.

Money rates are moderating, but mainly because of an increasing need in commercial circles, due to crop moving necessities. Prices of staples as a whole are firm. Railroad earnings continue to show small but all important gains over the unprecedented totals of 1899.

Foreign trade returns for September point to increased shipments of cotton and wool, an
