You voted for prosperity and got it. Are you now going to vote against it?

Call on Tionesta Heating and Plumbing Co. for shot guns, ammunition, hunting coats, etc.

Don't fail to attend the grand opening of ladies wraps and furs at Hopkins' store Friday Oct. 20.

A Teachers' Local Institute will be held at East Hickory, Pa., Saturday Oct. 20, 1900. All friends of education are invited.

Chestnuts are at their best just now. It has been demonstrated that there are fewer worms this year than usual—owing largely to the fact that there are fewer nuts.

The M. E. Church will hold a State convention at Harrisburg next week. T. D. Collins is the delegate and F. X. Kreidler alternate from the Tionesta-Nebraska charge.

There are now on the reservations in New York State 4,850 Indians and a missionary says that at least five eighths of them adhere to the old Pagan religion, rigids and superstitions.

Grapes have reached the bottom price and will probably go up from now on. Better buy now if you intend preserving any. Peaches, pears and quinces at lowest prices at Amstler's.

Mr. Sires will be at his Tionesta studio every Saturday until further notice ready to attend the wants of those wishing work in his line. Don't delay your visit on account of a cloudy day.

The M. E. Sunday school will observe Rally Day next Sunday morning at 10 a. m. There will be a carefully prepared program of songs, recitations and class exercises. The public is cordially invited.

George G. Stitzinger was up from New Castle the first of the week looking after his lumber interests in this section. Mr. S. is still carrying on the business in New Castle, having a flourishing trade in that bustling city.

Wanted—Three salesmen (single men preferred) with horse and buggy to handle a full line of staple goods. Experience not necessary. Steady employment. Good pay. Call on or address S. E. Davis at Hotel Agnew, Tionesta, Pa.

The fishing in the river was never better than at the present time. The drought, which has prevailed for several weeks past has caused the fish to school in the eddies and as a result the food is scarce and the funny tribe bite gullibly on everything thrown before them.

Mrs. Ella Zorn, of Woodcock township, probably owes her life to a corset steel. She was on her way to Meadville and passed a man carrying a rifle. After she had gone some distance the gun was accidentally discharged and the ball struck Mrs. Zorn in the side. An examination disclosed the fact that the bullet had been deflected by the steel in her corset, says the Tionesta Herald.

—Mrs. Lydia Elizabeth Davidson, died at her home in Ludlow, Warren county, Pa., on Friday morning, Oct. 12, 1900. Mrs. Davidson's maiden name was Conely, and she was the daughter of ex-County Commissioner and Mrs. W. A. Conely, of East Hickory, whether her remains were brought last Saturday for burial, she was aged 27 years, and besides her parents, brothers and sisters, leaves the husband and an infant child, together with a large circle of friends to mourn her death. Rev. Wm. Richards, assisted by Rev. J. M. Egan, and the M. E. pastor, conducted the funeral services.

—Chas. S. Leech was a guest at the home of his sister, Mrs. J. E. Weik, over last Sabbath. Mr. Leech, who now resides at Beaver Pa., is preparing to move to Eastern Tennessee, expecting to leave next week. He goes to take personal charge of his lumbering interests there and will make it his home for the future. A fully equipped plant is in operation there with sufficient timber in sight to keep it busy for several years to come. Mr. L. still retains his Porto Rican interests and expects to realize handsomely from his fruit farm next year. His faith in the future prosperity of the Island is still unshaken.

Letter to J. W. Morrow.

Dear Sir: You understand chemistry; how'd you like to earn \$100?

Devote lead and zinc—that's the name of our paint that lasts twice as long as lead and oil—is made of white lead, white zinc, its color turpentine dryer, and linseed oil.

If any chemist finds anything else in this paint, we'll pay his bill and \$100 besides.

It's nobody's business what we put in our paint, of course; but we want it known. For lead and zinc and linseed oil are the stuff to paint with; and lead alone is not.

We want it known that one word describes the best paint in the world; and that word is Devos.

Are you going to paint?

Yours truly,

F. W. Devos & Co.

Tionesta Has Pure Water.

Complaint having been made to the Tionesta Board of Health that the water furnished by the Tionesta Water Supply Co was not pure, the Board of Health determined to have it tested, and sent a sample to the State Board of Health and received the following:

COMMONWEALTH OF PENNSYLVANIA.

State Board of Health, Laboratory of Hygiene, University of Pennsylvania.

PHILADELPHIA, Pa., Oct. 5, 1900.

Report of chemical analysis of a sample of water from Tionesta Pa., collected Oct. 3, 1900, by Dr. J. W. Morrow and received Oct. 4, 1900. N.H. 0.0118.

1. Number of sample. No. 1.

2. Condition of container. Good condition.

3. Condition of sample. Clear and sparkling.

4. Color. Corresponds to 0.1 of Nessler's scale.

5. Odor and taste. Odorless and tasteless.

6. Reaction. Slightly acid.

7. Total solid 66.000.

8. Chlorine 2.439.

9. Nitrogen as Nitrates 0.176.

10. " " Nitrites Nil.

11. " " free NH3 0.0049.

12. " " " NH3 0.0118.

13. Indications. This is a "pure" water.

D. H. BERKEY, M. D., Ass't. Chemist.

The above will show, very clearly, that the water furnished is good and complaints of impurity are groundless.

The Board takes this opportunity to call special attention to the necessity of cleaning up cellars, lots, etc., before freezing weather, to avoid the danger from decomposition in early spring time. When written complaint is made to the Board of unwholesome condition of drains, out-houses, cellars, etc., it becomes its sworn duty, although very unpleasant it may be, to compel the removal of all such nuisances.

DR. J. W. MORROW, Pres., T. F. RITCHIEY, Sec., Board of Health.

Nothing But Puff Balls

"Say! What have you in that basket?"

This query was elicited by seeing a well known physician carrying a large split basket filled with large white spherical objects.

"Look and see," replied the doctor.

"Puff balls! as I'm a sinner," remarked the interlocutor.

"Sometimes so called," asserted the Physician.

"Why, man alive, you are not going to eat those things—they are poi-son."

"That's the general impression, I will admit; but let me give you a little information. These so-called puff balls are one of the most delicious of mushrooms. All varieties of them as far as I know are edible. Another thing, while most any one might easily make a mistake in collecting mushrooms and gather poisonous varieties, no one can make a mistake in getting this variety.

"I smile as I see men start out daily this time of year, with a basket on their arm to gather this delicious dainty, men who frequently gather them, to sell at hotels and restaurants, and have collected them for years—pass by this variety growing in quantities right along the bicycle path, in fact, frequently coming up through the hard packed ground in the centre of the path—considering them as deadly poison.

"Look at that specimen," continued the doctor, "there is enough for a whole family—holding up a mushroom as large as a man's head."

"I should not tell you this—for if the public learn that this common puff ball is perfectly harmless and one of the best flavored of edible fungi, I will have to search and look farther for this now easily obtained article."

"Well, you doctors ought to know what is poison, but I don't; I do not."

"My dear man, if you are in doubt do not eat them; I simply say, myself and family have eaten them for years whenever obtainable. But do not try any other varieties, for many of them are deadly poison—and a poison without any known antidote—unless you are familiar with them.—Erie Dispatch.

Things You Can't Do.

An ordinary wooden match is easily broken in the fingers, but, although there are many who will bet they can do it, none succeed in accomplishing the task if the match is laid across the nail of the middle finger of either hand and pressed upon by the third and first fingers of that hand, despite its seeming so easy at first sight.

No one can crush an egg placed lengthwise between his clasped hands—that is, if the egg is sound and has the ordinary shell of a hen's egg.

It is safe to bet a man that he cannot get out of a chair without bending his body forward or putting his feet under it, if he is sitting on it, not at the edge of it.

Another equally certain wager is that a man cannot stand at the side of a room with both of his feet touching the wainscoting lengthwise.

It is safe to bet any man, save one who is blind, that he cannot stand for five minutes without moving if he is blindfolded.

Notice.

Having made arrangements with one of the leading cloak firms of the East, we wish to announce to the ladies of Tionesta and vicinity that on Friday, October 20, 1900, we will have a grand opening of ladies' jackets, collarettes, furs, etc. On that day we will show the largest line of ladies' wraps ever shown in Forest Co.

Every lady is respectfully invited to be present on that date and look them over whether you wish to purchase or not.

Remember the date. Only one day—Oct. 20, 21.

An Overcoat this season before looking around. There are decided changes in the styles, both in the colors and cuts. This is what the clothing men call a Gray season. Dark grays, light grays, brown and blue shades of gray. One of the new cuts is the Raglan, and while it's a good deal of an experiment they are selling in a limited degree to the younger class of trade. We have them in different shades of gray, at \$10, \$12, and \$15.
