ilar opinion severely condemns the po-

lice department for laxity in examining

the scene of the Kenting murder for traces of the perpetrator. When the body of Miss Keating was found, the po-

lice apparently made no effort to search

for footprints of the murderer at the

place of the murder. In fact the crowds that visited the scene before the body

was removed were permitted to crowd up

rlose to the corpse instead of being kept

at a distance so that if there were any

eral, and prohibiting loose puching of circulars, calendars, etc., owing to small pieces of mail matter, frequently slipping in large unscaled envelopes in transit.

There were 15,142 appointments of postmasters made during the past fiscal year, 14,435 being of the fourth-class and 707 being presidential, an increase of 538 in all over last year. There also has been an increase in the number of postmasters. Fewer removals for irregularities were made than last year. There were 3,600 postoffices established during the year, an increase of 665 over last year and 1,192 officers were discontinued, an increase of 407 discontinuances over last year; mostly due to rural free delivery extension and public highway improvements. A vigorous effort has been made to suppress post-offices conducted throughout the country for the sole benefit of some corporations, nursury company, patent medicine ficm or other private institution whose operations deprive the government of its legitimate revenues. The company or corpor-

ation usually has some one connected with it appointed postmaster and gets the advantage of the cancellations or the salary and allowances of the postmaster. These institutions sometimes have

derived thousands of dollars of revenue from the government which virtually amounted to a commission or discount on their postal business. There were 47 resignations and 45

deaths of presidential postmasters and 919 deaths and 8,013 resignations of fourth-class postminsters. On June 30 last the number of postoflices was 76,-688, ns follows: First-class, 194; second-class, 852; third, 3,187; fourth, 72,455.

The total number of arrests during the fiscal year for offenses against the postal laws was 1,526, including 119 postmasters, 29 assistant postmasters and 141 postoffice clerks, carriers and other postal employes. Of the total number ar-

PEKIN, Nov. 26 .- The diplomatic body held a final meeting Saturday morning and agreed on the terms of the preliminary treaty. Nothing now remains except to secure the approval of the respective governments before definite negotiations with the Chinese peace commissioners are begun.

The precise terms of the settlement have not yet been made public here; but it is believed, outside the diplomatic corps that the main points are in substantial agreement with those contained in the French aote to the powers, name ly, punishment for the guilty, indemnity to governments and individuals, retention of strong legation guards, and the occupation of certain places between Pekin and Taku.

PHILLIPS' CORN CORNER.

Price Went Up to 50 Cents and He Sold Some to Check Advance. CHICAGO, Nov. 27 .- Corn for Novem ber delivery sold yesterday on the board of trade at 50 cents per bushel, the highest price since 1894, when, owing to protracted drouth, the market advanced

close to the 60-cent mark. Since that time the coarse cereal has sold almost down to 20 cents per bushel. That there are vast quantities of corr in the country is well knokn. George H.

Phillips, a member of the Chicago board, taking advantage of the fag-end of a protracted bull deal on the local exchange, which had resulted in the depletion of the contract stocks of corn in Chicago, gradually picked up all offer-

ings and yesterday apparently showed that he had effected the most perfect corner in the recent history of the board. Practically no contract corn is coming

to market. Phillips did little to advance the market yesterday, it advanced on the efforts of shorts to cover. When 50 cents was bid Phillips sold 100,000 bushels or so and checked the advance. The market

opened one cent higher than Saturday at 46, rose to 50 cents and closed at 49 cents, a net gain of four cents.

"The brief presented by Mr. Hayes of counsel to The World, undated, but re-

ceived in this office Nov. 20, contains no additional testimony or indication where additionad testimony can be obtained. The situation is therefore unchanged from what it was on Oct. 4, 1900, when the attorney general wrote his letter to

"There is therefore as stated by the attorney general in his letter of Nov. 93 little to add to what was contained in his letter of Oct. 4 and in the state-

ment issued by me on Nov. 17. "I concur in the attorney seneral's opinion. My judgment is that the socalled ice trust is not a corporation in which the mayor of New York should have stock. But no proof has been offered of any wilful violation of law on the part of the mayor as would justify drastic measure of removing him from office. The power of removal from office of eleci ve officers should be treated much as we treat the power of impeachment. It is an extraordinary and

pot an ordinary remedy. "The normal remedy for bad govern ment must be an appeal to the people. of engraving and printing. and only in wholly exceptional cases is it desirable to substitute for this appeal to the people, an appeal to the power of removal or the power of impeachment "The case is therefore dismissed.
