

The fall is the best time of the year to paint—especially this fall. Painters can tell you why it is best time of year to get best results from the paint. We can tell you why this fall is the time to get best value for your money. During the spring and summer we bought a large quantity of prepared paints. Within the past ten days all paint manufacturers have notified their customers that the price of paints had been increased 10 to 15c, per gallon owing to the failure of the flaxseed, crop and other causes. This means an increase of 15 to 25c per gallon to the consumer. As long as they last we will sell paints at the old price. If you intend to paint within a year it will pay you well to buy before the advanced prices rule.

Marguerite Merington, the well known dramatist, has converted the famous "Cranford" story of Mrs. Gaskell's into a play for the Ladies' Home Journal. In the evolution she has been remarkably successful in preserving the atmosphere of Cranford, and of most convincingly reproducing the quiet life and the individual, harmless peculiarities of the maiden ladies, and the charm of their courtesy. The play is for amateur presentation.

Going south train 30 departs at 11:35 a. m. instead of 12:05 p. m. as heretofore, and train 32 departs at 7:30 p. m. instead of 7:55 as heretofore. The corrected time table will be found in this paper.

Heavy rains mixed with more or less snow has given the river navigators all the water needed for getting their wares to market, and then considerable. Yesterday morning the river was bank full and running over, making it necessary for all sorts of craft to "tie up" for awhile. So far as heard from all boats and barges that were started last week have been well managed and are safely landed at different points between here and Pittsburg, and it is more than probable that all will reach market in good shape.

During the past ten days or two weeks parties from outside have been stationed here who seemed bent on making an indiscriminate slaughter of pheasants, with a view to breaking the record for big counts, and scarcely taking time for sleep, acting like a band of Modoc Indians on the war path. One party boasted that they had bagged the limit—ten birds to a man—every day they had been here and seemed to regard themselves as fine sportsmen. Game hogs should have no quarter in any decent community, but should be looked upon very much as a sheep thief or robbers of hen-roosts are. The limit of pheasants and other game which one man is permitted to take in a day should be cut down at least one half and then these "hogs" should not be permitted to run their noses into the swill so far.

A Chestnut Farmer. E. W. Warner, of Williamsport, is the owner of probably the oddest farm in Pennsylvania. It is a chestnut farm located in the mountain district of North-east Lycoming county near the Sullivan county line. The trees, of which there are over 500, are set in rows exactly as fruit trees are in an orchard, and Mr. Warner gives them as much or more attention as do the owners of fruit trees. The original saplings or sprouts were culled from a wide area of chestnut thick- et, trimmed into shape, then grafted with the American sweet chestnut, a native nut of Pennsylvania.

The result has been marvelous. This year was the third bearing season for the trees, and some of the nuts were measuring more than an inch across and growing as many as seven in a bur. The flavor of the nuts it was feared, might be impaired by their size, but the kernels are as fine and sweet as the choicest Pennsylvania chestnut picked up in the fields. In order to prevent the trees from bearing too prolifically, and thus endanger the growth of the trees Mr. Warner went through his orchard and whipped off at least one-half of the fruit.

It will be two or three years yet before the trees will be permitted to give all their strength to fruit. By that time they will have attained a good rugged size, able to withstand wind and to bear the weight of the nuts. At the end of that time, too, Mr. Warner expects that the novel farm will be a paying investment, as the fruit from it can hardly be excelled in size.—Ec.

Crashed by the Cars. Thomas Knapp, whose home is near Newmansville, Clarion county, was instantly killed near Dean's mills, Warren county, on Monday of this week. He was employed on the Tionesta Valley railroad, and in attempting to throw a switch near the above named place, was thrown in front of the engine which passed over him and killing him almost instantly. The young man was aged about 21 years. The remains were conveyed to his late home near Newmansville, where they were interred, the funeral services taking place yesterday afternoon.

The Editor and Preacher. The press and the pulpit have more charity than all the balance of the community, and the fact is aptly illustrated by an exchange as follows: A preacher once said, "Editors dare not tell the truth. If you did you could not live. Your newspaper would be a failure." The editor replied: "You are right, and the preacher who will at all times tell the truth about his members, alive or dead, will not occupy the pulpit more than one Sunday, and he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with whitewash brush and kind words, magnifying little virtues into big ones." And the minister went away, looking very thoughtful, while the editor turned to his work, telling about the unsurpassed beauty of the bride, while in fact she was as ugly as a mud fence.
