In the quiet sections of Luzon road building is under rapid headway and schools are multiplying. But for the bandits the spirit of improvement would be booming in all the islands.

THE Clayton-Bulwer treaty is an agreement not to build an interoceanic canal. It is at best a negation, and no one will be injured when it is superseded by something that will benefit the commerce of the world.

cipalities, important changes are being manac at The Davis Phaamacy, Tionesta. lations. The town Council at the suggestion and petition of a large number of the fathers and mothers in the Borough, have passed a law known as the Curfew, posted, that all know what it is. This ordinance is for the good of the boys and girls under 16 years of age, who through be at home. And now since the fathers and mothers have caused this law to be passed, I, as Burgess, call upon those fathers and mothers and all good citizens, to assist the officers in enforcing it. We hope that no occasion may arise where it will be necessary to visit the penalty upon any boy or girl. It will be a very unpleasant duty for officers to be compelled to cause the arrest of any one. But the law is of no use, unless it is enforced, and those who violate the same cannot complain when officers do their sworn duty and bring them to justice. It has been said that the age limit was too young, that those over 16 need restraint as well as those under. This is probably true, but the Legislature in 1895 passed a law

relating to disorderly conduct, that is much more severe than the Curfew. It is this :

no use in the Republican party for wreckers and bolters and those who believe in the minority rule of the tew. There is no reason why Mr. Flinn should be saved. and if the Pittsburg charter bill should be ad opted and it should put him out of politics, the Republican party at large would be the better for it and most certainly Pittsburg would,

Even the organs of Mr. Flinn in his own city are pleading now, and here is one of them at hand actually appealing to Governor Stone to stop the proposed legislation. The Governor is not a member of the Legislature, but if he were he would doubtless reply that so far as Pittsburg is concerned, it makes no difference what Mr. Flinn wants. It is for the people themselves to determine. If there is a demand among the citizens for the new charter it will doubtless be adopted, for Mr. Flinn has lost whatever right he ever had to speak for the great Republican party of Allegheny county. He need not even be consulted .- Philadelphia Inquirer.

#### Gov. Stone Vindicated.

The right of the governor to abate an appropriation by confining his aproval to an amount less than the sum total was involved by the case decided yesterday in the court of common pleas of Center county. The Patton township school district applied for a mandamus upon the state treasurer to compell him to pay the district its proportionate share of the whole amount appropriated by the bill.

The approval of the governor was limited to \$10,000,000 although the bill appropriated \$11,000,000, and the school district demanded its proportionate share of the \$1,000,000 withheld owing to the governor's action.

The case turned wholly upon the power and authority of the governor in the exercise of his veto power. It was admitted that he could yeto any item of an appro priation bill, but it was denied that he could approve part of an appropriation and veto another part. The decision of the court broadly sustains the power and authority of the governor to veto in whole or in part any appropriation which the legislature may make. It is held that the governor, like the president, is a branch of the legislature in the exercise of his veto power, and in that capacity acts upon his own judgment as a legislator. The word "item," as describing the subject of his authority, can only be regarded as meaning any piece or portion. taken from the whole. The court declares that "to hold that the power given is only that of disapproving a single item, or paragraph, or section of the bill in its entirety, would defeat the very purpose for which the power was given."

The court presents considerations showing that any other view of the nature and The Pan-American Exposition Calendar extent of the veto power would defeat the constitutional intent. The special circumstances of the case are examined and their cogency in prompting Gov. Stone's | at Cleveland, O.

Letter to Hon. J. A. Proper.

Tionesta, Pu. Dear sir: Rockland, Maine, is a scacost town : hard place for paint. About soventeen years ago, Farrand, Spear & Co., Rockland, began with Devoe. Their first sale was to paint the Farrington residence, well known there. Mr. Farrand says the house appears, from the street, to be well painted now, and has never been repainted. We should like to know more definitely

about a job of paint that has lasted seventeen years on a sea side house. It is the ingest time we have had a report on. Lead and oil lasts three years-a firstrate job -- and nobody says it lasts longer. We are contented to say that Devoe lead and zine lasts twice as long; but we know of houses innumerable, ou which our paint has exceeded six years.

Yours truly, 20 F. W. DEVOE & Co.
