United States Cannot Accept Powers' Indemnity Plan.

Constitutional Restrictions Placed on Pres ident Make It Impossible For Him to Consent to Joint Guarantee For Indemnity Payment-May Arrange With China For Direct Payment.

WASHINGTON, June 11.-The govrument has formally communicated to the foreign powers the impossibility of coining in a joint guarantee for the payuent of the Chinese indemnity. The difficulties in the way of such an arrange ment are set forth in the communication. particularly those relating to the con stitutional restrictions on the president in making a joint guarantee of this char-

In view of the determination of the United States not to be a party to a joint guarantee there is anxiety shown n diplomatic circles as to the outcome on the question of indemnities. One view is that the majority of the powers, being favorable to a joint guarantee, will execute this joint instrument and thereafter carry on a concert of their own. In that event, it is said, the United States would arrange directly with China as to the American portion of the indem-nity. The representatives of most of the European powers do not believe that a resort to The Hagne tribunal as pro-posed by the United States will be acceptable to their governments.

PLAN OF GOVERNMENT. Taft Commission Will Have Authority In

Philippines, Subject to Sec

WASHINGTON, June 8.—The program looking to the establishment of civi government in the Philippines is being formulated in the shape of an order which is to be promulgated shortly. It is said that there is no definite conclusion as to whether the powers of the civil ad ministration will be exercised under the general war powers of the president of the authority vested in him by the Spooner amendment. That, however, is considered a matter of detail.

The main point is that the civil admin-istration, which will be confined largely to the municipalities, will be vested in the head of the Taft commission and such other officials as may be designated and that they will exercise their functions subject to the direct authority of the secretary of war, to whom all reports will be

Civil administration under military supervision, such as is contemplated, is said not to be anomalous and the civil govern-ment in New Mexico and the Southern states during the early stages of the re-construction period are pointed to as being substantially analogous to what is proposed in the Philippines.

When Judge Taft of the Philippine commission becomes the head of the civil government in the Philippines be will have the title of governor. While it is expected that he will become governor of the Philippines about the 1st of July there may be some delay, as the civil governmental machinery may not be ready at that date. Both Judge Tatt and General MacArthur have informed the secretary of war that July 1 was as early as the proposed civil government could be put in operation.

Two tragedies have put Jones and Rutledge beyond reach of the law. Rutledge was credited with being the ringleader of the robber trio and he had a record as an all-round criminal and a despesate man. He was a native of Streetsville and was the only Canadian nember of the gang. Rutledge seemed to take the sentence of 21 years yesterday morning with equinamity. He turned pale, but showed no signs of faltering when leaving the dock or in appearing later at the police court to plead on the charge of murdering Comstable Boy.l. He seemed to take great interest in all the proceedings and talked frequently with Rice and his lawyer. Going back to the jail nothing unusual was noticed in his behavior beyond a moody silence, which, in the circumstances, was not looked upor
