MAKING A RECORD.

Pennsylvania Legislature Closing Up Its Business in Quick Order.

The Public Schools Have Been Well Cared For and Plans Are Being Pushed For New Hospitals For the Insane and Consumptives.

(Special Correspondence.)

Harrisburg, June 18 .- As the session of the legislature is drawing to a close the members of the senate and house are industriously working night and day, despite the frequent hot spells, and are making splendid progress in clearing the calendars. While it was for a time thought that the legislature would be able to adjourn on the list inst., it is now settled that even by keeping up the present spirit of industry, the final adjournment cannot be made until Thursday, the 27th inst., the date fixed in the concurrent resolution adopted some weeks ago.

Questions involving party policy and the apportionment of the state into congressional, judicial, senatorial and representative districts are now engaging the attention of the state's lawmakers, along with the tremendous government, to the schools and the various charitable institutions and hospitals of the commonwealth.

to compare very favorably with that of any session of the general assembly of Pennsylvania, and in many matters it will be deserving of exceptional praise for the courage and devotion to the interests of the people displayed by a majority of the senators and representa-

There are still some hitches in the apportionment plans, but it is believed they will be straightened out very

SCHOOLS TREATED LIBERALLY.

After a very determined opposition, although it was small in numbers, the Republican leaders in the house succeeded in passing finally in that body the Snyder bill appropriating \$1,000,000 additional to the public schools, besides the \$11,000,000 which goes in the general appropriation bill for the next

The Snyder bill is intended to meet Governor Stone's recommendation that an appropriation be made for the schools to meet the cut which he was obliged to make two years ago, when the revenues of the state would not permit of they payment of the full publican organization in the state were

amount appropriated. Many appropriation bills for hospiout from the committee and a number

of these have been passed, showing a very liberal spirit on the part of the legislators towards deserving institu-

THE INSANE AND CONSUMPTIVES.

One of the most serious problems that this legislature has had to contend with has been the matter of the HOLDING THREE SESSIONS A DAY. care of the insane. Every institution from distant points. The club runs in the commonwealth for the care of augurated by the Chautauqua Bicycle the insane supported by the state has been long overcrowded. In many cases

> of the insane, all that should be done cannot be thought of at this time.

The appropriations committee has reported out favorably a bill appropriating \$300,000 for the construction of a hospital for the insane, which will probably be located in one of the northeastern counties. The homeopathic treatment is to be applied in this few invitations.

The spirit of unification is pervading institution. As soon as practicable patients will be removed from the overcrowded institutions to this new hospital, but with these additional accommodations the next legislature will be called upon to erect one or more

hospitals for the insane. Another project which has received the support of the committee on appropriations is that for the erection of a espital for the care of consumptives. For this hospital the sum of \$100,000 has been sat aside. The proposition is task of alloting the appropriation to to have a hospital built upon the mounthe various departments of the state tains in Luzerne county and have it constructed upon the isolated cottage plan. Patients whose recovery is recarded as unlikely will be sent to this When the record of this legislature hospital and given careful attention shall be fully written it will be found during their remaining days on earth.

MINERS ARE HAPPY. The announcement had scarcely been made that Governor Stone had signed the bill providing for additional mine inspectors and their election by the people than the company store order tax bill was reported to the senate from the house and was passed by a manimous vote, and it was sent to the covernor for his signature. The rate ers, who were auxious for the protection of the lives of all employes in the mines, petitioned for an increase in the number of mine inspectors, and they wanted them elected by the people instead of appointed by the governor, as

they have been for years. The Republican leaders concluded to support the legislation, and it went The bill taxing company stores has been before the legislature for a number of years. Four years ago a similar bill was passed, but it was vetocal by Governor Hastings. Two years ago the miners presented the same bill. It passed the house, but never got to the committee in the senate. This year the leaders of the Re-

appealed to for their support and des pite desperate opposition from certain tals and charities have been reported corporations the bill was put through as a party measure.

STUDY AT CHAUTAUOUA

Notable List of Lecturers Secured For This Season.

Orators of International Fame Will Deliver Addresses on Subjects of Which They Are Leading Students-List Includes President Harper, Fitzbugh Lee, Joe Jefferson, Senator Fairbanks,

CHAUTAUQUA, N. Y., June 15 .-The Chastauqua Literary and Scientific ircle is to receive marked attention on se public program of the Mother Chauuqua during the coming year. Never efore have so many bectures and adlresses bearing directly on the subjects of the year's study been provided for by the management and the Round Tables are to be ably conducted and of timely interest. Dr. Edward E. Hale is to preside at the opening of the Rending circle exercises on Rallying Day, Aug. 1, general student as well as the lover of literature, will give a marked stimulus to the work at the start. During the foito the work at the start. During the fol-lowing week meetings will be conducted by Professor F. J. Miller of the Uni-versity of Chicago, Dr. Otto Heller of Washington oniversity. Dr. H. D. Kel-logg of Yafe, and others on the topics of Germany and Haly, their asstory and lit-grature, the general subjects of the year. The management has also been very fortunate in being able to secure President Harper of the University of Chicago to deliver the Recognition say address on Aug. 14.—It will be a fitting address on Aug. 14.—It will be a fitting climax to a year of unsual interest in the Chautanqua educational movement. Mr. and Mrs. Joseph Jufferson will also be the guests of Chantauqua on Recognition day, and the Passing of the Arx. . . C will be attended by the distinguished vis

The Chautauqua Denmatic club is to be organized at the beginning of the sea-son and will be under the direct charge of instructors from the Commock school of oratory. Two short plays will be presented during the year, each of which will be repeated. The members of the casts will be chosen from Chautang a visitors. New scenery is being prepared and the platform promises to present to inviting background for the entertainments. In connection with these enter talisments there will be also presented a German and French play almost the direction of the two departments of the School of Modern Languages.

General Fitzhugh Lee is naturally in great demand as a public speaker, but he accepts very few invitations. The Chau-tauqua management is very fortunate in believ able to approximate in being able to announce him for Na

tional Army day at Chantauqua. Aug. 17.
The career of Mrs. Martha S. Gislow. the ciever Southern woman who has charmed drawing room andiences in fingland and America, has aroused a good deal of interest. She has the charm of the old South and presents the totalore and the pleasing traditions of this Southern regime in a most encouraging num-ner. She extends her sway to Chautauqua during the coming smanner. The large Southern constituency will feel that the old South is charmingly represented. Senator C. W. Fairbanks of Ludiana will speak upon the Spanish-American

William S. Cherry, the African explorer, will present at Chantauqua the result of his many par's experience in the wild portions of the dark continent. He lived for several years among carni-linbs, studying their mode of life, and strange customs, while closely associating with them. Many interesting relies gathered by bimself and numberiess original photographs will be shown by him during his beture. It is an musual experience to hear a genuine explorer fresh from the fields of his adventures

Wheeling will doubtless play an important part in the recreation that many will enjoy at Chautauqua during the coming summer, the beautiful rides well repaying the trouble of bringing wheels club in past seasons have attracted many riders and added to the enjoyment to be been long overcrowded. In many cases institutions are accommodating double the number of inmates that their buildings were originally constructed to provide sheiter for.

While as liberal appropriations as the finances will permit will be given to the several institutions for the care of the insane, all that should be done to institutions for the care of the insane, all that should be done.

10 miles farther.

Joseph Jefferson promises to give Chantauquans a rare treat with his lec-ture upon the drama. His charm of manner and sincere belief in the uplifting influences of his art attract everyone to him. Chautauqua is indeed for-tuente in having a visitor who is so much in demand and yet who can accept so

everywhere at Chautauqua, and the plan is to concentrate all of the instruction for children under two or three heads. The vacation classes which have been given separately heretofore will be combined under the head of the Boy's and Girl's clubs. Through these organizations instruction will be given in manual training, nature study, American history, music, etc. This will give the children op-portunity to secure class work in these necessary branches, and at the same pleasure of belonging to the juvenile organtzations. Also in the elementary classes children who have outgrown the kindergorten are eared for until suffi-cient age to join the clubs. In this way instruction is offered for all ages up to the pedagogical courses in the college

proper.

As heretofore announced, Chautanqua is to have an emblem for its banners and uniforms. It will be the old English "C" of golf red in the center of a circle, on a gray or white background. The baseball team is to be newly uniformed in becoming gray, and no longer shall we see this fine set of fellows playing in motley sults of many colleges. The emblem will be seen upon the athletic uniforms and all banners given as prizes for the dif-

ferent races. On Aquatic day, Aug. 9, will be held the annual Chadakoin beat race, jacht and cause races and swimming contests. The popularity of this day has been growing steadily and the Chautauqua shells have been edited and several new sailing craft have been added to the already formid-ble fleet in anticipation of the event. There will be also tennis and real terraments. gelf tournaments.

Butter-Sales of 44 puckages of daicy butter were made at 170/1845c, the most at 18c, and 35 packages of creamery at 186/1845c.

CUBA WILL SOON BE FFEE Bel'of In Washington That Independent Will Be Accomplished Before

Christmas, WASHINGTON, June 14.-It is expected at the war department that Ca-ban independence will be an accomplished fact by next Christmas. The next step in order, now that the Platt amendment is adopted by the Constitutional convention, is for that body to take up and pass an electoral bill which will provide for the election of all the officers becessary to set up an independent government in Cuba. It is said here that such a bill is already framed and is ready for submission to the convention at

There is good reason for the belief that Secretary Root has seen this bill and has approved of its provisions, if, indeed, he has not actually had to do with its construction. It is thought that the convention can dispose of this measure in a week or two, and that will complete the labous of the body. A period of 90 days, it is said here, must be allowed for publication of the electoral act before the necessary elections can be held.

It may be necessary, and probably will be, to maintain some United States troops in Cuba, after the new officials inaugurated, and until the Cubans have had time to set up a Cuban min-tary force or gendarmerie, but the length of this stay probably will depend upon the wishes of the Cubans themselves.

Oldest Railroad President Dund. YORK, Pa, Jane 14.—Captain A. W. Eichelberger, president of the Hanswer Branch Railroad company, died at Han-over yesterday, aged 82. In point of service he was the oldest railrond president in the United States, having been elected to that office in 1853.

Rev. Dr. Malthie Bahcock's Will. NEW YORK, June 18.—The will of the late Rev. Dr. Mafthio D. Bulsoock was filed in the surrogate's office yester-day. The value of the estate is placed at \$1,000 in the petition. Dr. Balcock bequeaths all his property to his widow. Katherine.
