LACKAWANNA STRIKE.

Strikers to Make an Effort to Call Out Everybody, From the Switchmen to the Miners.

SCRANTON, July 2.- A massmeet-SCHANTON, July 2—A massmeet-ing of all the striking employes of the Lackawanna shops in this city was held Squday afternoon in Carpenters' half. Captain McAndrews of the Car Binld-res' union presided. The meeting was called for the purpose of taking action upon the refusal of President Truesdals to confer with a committee of his own workmen from this city. After the meet ing the following statement was given

"President Truesdale consented to a "President Truesdale consented to a conference to be held Monday, June 24, at his office, 26 Exchange place, New York. That day he was met by President O'Connell of the machinists, and J. M. Ford, a member of the executive board of the same organization. Mr. Truesdale postponed the interview until Saturday, June 29. The above named met at the office of Mr. Ford at 21 Liberty street, preparatory to meeting Mr. erty street, preparatory to meeting Mr. Truesdale, At 11 o'clock Mr. Truesdale sent word that he would not meet them under any consideration.

"Action was immediately taken to call out the Kingsland shop, the only machine shop working on the Luckawanna sys-tem and advice given the Scranton delegate present to make every effort to call out everything on the Lackawanna, from the switchmen to the miners. Mr. Mitchell has already guaranteed every support to the strikeers. Two weeks ago a movement was started to have the mer chants in every town paralleled by any other road to withdraw their patronage from the Lackawanna. When word was received that a conference was about to be held this movement was called off. It will be taken up again at once and vigorcusty pushed, together with any other means that will bring success. Mr. Truesdale might have been able to have compromised matters with his men. Now only the original proposition will be ac-

CURIOUS DISCREPANCY.

Found That China Agreed to Pay More

Than Powers Wanted. WASHINGTON, June 29 .- A curious berepancy concerning the amount of ne Chinese indenmities has developed, by which it appears that China has agreed to pay 35,000,000 taels, or \$24,000,000 more than the united demands of all the powers. Just how this occurred is not clear to officials, but it appears to have been an error of calculation at Pe-kin in the first place by those making up the indemnities, and later by the Chinese in their hasty acceptance of the total As finally made up this total was 450,000,000 taels, but the present calculation, after taking in all of the demands that are known, makes the total only 415,000,000 tacls. In the meantime China has agreed to pay the larger amount, so that the question now arises what will become of the excess of 35,-

Another question which has arisen n this connection is as to the amount of bonds which shall be issued to Jupan, as that country has drawn attention to the fact that its share of indemnity cannot be negotiated on as favorable terms as some of the powers can make. It is sidered of sufficient importance to bring to the attention of the president, with view to learning the general attitude of this government on the matter.

MANY KILLED BY HEAT.

Deaths and Prostrations Reported From Many Places.

Fifty-Seven Killed In New York Alone, the Distress Among the People In the Crowded Tenement District Being Pitiful-Hottest July 1 Ever Experienced

NEW YORK, July 2.-Yesterday was the hottest July 1 on record. At 3:10 p. m, the thermometer at the weather office reached 98 degrees. This was one degree hotter than Sunday. The records show that in the 30 years preceding on only two days in all that period has a higher temperature been reached. Those were July 9, 1876, and July 3, 1898. On these days the thermometer reached 99 degrees. The suffering would have been much intensified had the bumidity been great. The percentage of humidity was only 48. The hottest July 1 which approximated today in the history of the local weather bureau was in 1872, when the thermometer reached 95.

At 3 a. m. the mercury was at 80 and continued so until 6, when it rose to \$2, and from that rour there was a gradual rise until 3:10 p. m., when the maximum of 98 was recorded, a special thermome ter registered 92.

In the early morning hours there was what might be termed a light breeze blowing, but during the early part of the

afternoon the breeze died away and the city was baking in torrid heat. The suffering in the city, particularly in the crowded tenement house districts was shocking. As the day grew the deaths and prostrations increased and, although prevision was made in all the hospitals for this emergency, the author-ities were scarcely able to cope with the great tax made on their resources. An instance may be given of how the situa-tion stood. St. Vincent's hospital has its own ice plant. When constructed this was though sufficient to meet any emergency, but that hospital was forces to buy 1,000 extra pounds of ice in addition to what its ice plant turned out.

Up to midnight last night there were reported 57 deaths and 141 prostra-tions from the heat and the number is hourly being swelled. This covers a period from 2 o'clock a. a. Monday, and only for the horoughs of Maninttan and the Bronx. There were so many ambulance calls that the police were called on to sundy warms and eagled on to supply patrol wagons and every ambulance did double duty in re-sponding to calls. Many patients were carried to the hospitals in cales and in moving vans. The prevalence of the grip among the horses of the city also tends to mitigate against effective work. In many cases horses had to be obtained from contractors to draw patrol wagons

Although the weather bureau show that the maximum was 98, this does not indicate the heat on the streets. Many thermometers registered 108 at 3:10 and all of them over 100 on the street level. It is estimated that 150 policemen are on the sick list, their illness arising from

The fire was started by a hot journal, which ignited some oil waste. The entire brerker was on fire half an hour after the fire was first discovered, and it spread along the trestling to the head house over the shaft 600 feet away. The head house was on fire as the miners were being brought up out of the mine. There were 600 at work and the last 200 had a narrow escape, the head house falling a few min-utes after the last carriage load had been

The shaft caught fire and it is feared it will spread to the mine beneath. The fan shaft is also on fire. Twenty-six mules are down the mine and it is believed that they have been suffocated. The loss is between \$100,000 and \$100,000,

WANT UNION RECOGNIZED Reading Striters Reject Offer of Em-

II players to Pay Increase In Wages. II READING, Pa., June 28.—The proposition of Frank C. Smink, vice presi-dent of the Reading Iron company, offering an increase of wages to 2,000 strik-ing workers, puddlers to receive \$4 a ton, will be rejected. The wage schedules for other classes of labor have not yet been prepared.

When the puddlers quit they were re-ceiving \$3.25 but the company has since announced a 25 cent raise. The leaders say they will not accept the offer of Mr. Smink unless it involves the recognition of the union and the strike will likely go on. The men have been locked out for about six weeks.

Two Congressional Aspirants.
