It appears from the letter, affidavits and other papers filed in the case, that a convention of the school directors of Forest county was hold in Tionesta on Tuesday, May 2nd, IS99, for the purpose of electing a County Superintendent. There were several candidates for the position, but the official return shows that of the 52 directors present 32, more than a majority of all present, voted for E. E. Stitzinger, who was thereupon declared elected. The official return also shows that this salary was fixed at the rate of ifficent hundred dollars (\$1500) per year, and this return is certified to by the secretaries of the convention, as required by law. Since that time Mr. Stitzinger has officiated as County Superintendent, and has performed his duties and received his salary in accordance with the official return originally filed in your departand many of which do not pass outside of the voice could easily be heard, is the

The question raised is a novel one, and a careful research discloses no precedent, but in view of the fact that the original return bears every mark of regularity, and the further fact that there is no allegation of fraud, nor is there any excase offered for the long delay on the part of those now complaining, it seems to me that you are justified in taking no action at this late day. It would, in my opinion, establish a dangerous precedent if those upon whom is devolved the duty of making returns in eases of this kind.
