WEDNESDAY, AUGUST 14.

The best time in the year to paper is when everybody else has finished. Then there is no difficulty in securing the services of a competent paper hanger because of the light demand for such work and another and more potent reason is that after the regular season is over you can buy paper hangings at 1 to 1 off the regular prices. We are now selling wall paper at actual cost. Not remnants either, but full lines and a large variety of designs:
