

WEDNESDAY, AUGUST 21.

The best time in the year to paper is when everybody else has finished. Then there is no difficulty in securing the services of a competent paper hanger because of the demand for such work and another and more potent reason is that after the regular season is over you can buy paper hangings at 1/3 to 1/2 off the regular prices. We are now selling wall paper at actual cost. Not remnants either, but full lines and a large variety of designs:

Table listing paper prices: Papers that were 15c per roll, now 10; '20' '13; '23' '17; '35' '23.

and all others at proportionate reductions. At these prices we do not expect the stock to last a great while.

In some communities the farmers are complaining of the prevalence of the large black species of potato bugs. Not satisfied alone with potatoes, the bugs are devouring cabbage, tomato and other garden plants at an alarming rate. Don't get gay with the editor, says an exchange. A young woman poked fun at the editor of the Bluffton, (Ind.) Banner because his trousers were patched. The editor went home and sued her husband for \$10 he owed on subscription. Then and Now.

In days long ago (in the sixties you know) when Grandma went walking she held her skirts so tight. What would she say if she saw girls to-day with skirts clutched so tight, like they look this way? -New York Evening Sun.

The Evangelistic meeting held by the W. C. T. U. at the county home the last Sabbath in the month will be postponed until the first Sabbath in Sept.

The cement walk boom in Tionesta is still on and Ray Birtelle is doing some good work on Walnut street. S. S. Canfield has had a nice stretch of walk laid in front of his property, as has also G. T. Anderson, and J. G. Bromley has made ready to follow suit. Let the good work go on.

The malapropos, a fish only eight inches long, can develop a shock of 200 volts of electricity in the two-thousandth part of a second. We have no malapropos in this section, but we do have bass that have a habit of getting away, thereby developing a voltage of profanity which shocks everybody within hearing. -Oil City Blizzard.

Mediums are now enjoying a harvest time at Lily Dale, according to the Dundick papers. A correspondent of the Observer says the mediums are fairly clever charlatans, but not exceptionally good ones, for their work is done in utter darkness or else in such dim light that investigation is out of the question. He says they are out for the "long green" and are getting it this season. It may not be generally known that our former who maintains a watering trough on his premises along the public road with flowing water, will be allowed two dollars off his road tax every year, while if the trough is high enough so that the horse can drink without being uncrined, four dollars a year reduction will be allowed, says an exchange, and if the item is correct the allowance is not too much.

Letter to C. A. Randall.

Dear Sir: Here is a curious condition in the paint business, but it exists. N. Avery, Delhi, N. Y., owns two houses exactly alike; he painted one with a mixed paint-took 12 gallons. Painted the other with Devos; bought 12 gallons and had 6 gallons left. Same painter: George Gilbert. Same result, so far as looks go.

As you are not a paint maker, you probably don't understand why a gallon of Devos lead and zinc contains twice as much paint as a gallon of some of the mixed paints. We'll tell you: A gallon of milk that's half water, isn't a gallon of milk; neither is a gallon of paint that's half lime and china clay, a gallon of paint. The following is the analysis of one of the mixed paints sold in your section:

Lead, zinc and color 41 per cent Lime and China Clays 59 This 59 per cent of Lime and China Clay is whitewash; it is to paint what water is to milk - adulteration; consequently this paint contains only 41 per cent of legitimate paint material (lead, zinc and color) while Devos lead and zinc contains 100 per cent. That explains why a gallon of Devos lead and zinc contains twice as much paint as a gallon of some of the mixed paints.

RECENT DEATHS.

HON. WILLIAM GATES. Hon. William Gates a well known citizen, and for the past 15 years actively identified with local political affairs of Oil City, died after a long illness at his home on West Third street at two o'clock on Sunday afternoon. The deceased was born June 19, 1818, at what is known as Old Town flats, near Tionesta, so-called from the fact of its being the site of a village of the Cornplanter Indians previous to the settlement of this part of the State. When he was 17 years of age his father removed to Rockland township, where the deceased remained for nine years, assisting in farm work in summer and attending school in the winter. During the winters of 1839-40-41 he taught country school. In April, 1841, he secured a clerkship at Stab Furnace, where he was employed for nearly four years, and then returned to Rockland township where he was manager of the furnace there the last year it was operated; going from there to the Mill Creek furnace and remaining for one year when it ceased operations. In 1850 he located at McKean's (now Davis') Corners and engaged in the general mercantile business for Charles Shippen and in 1851 buying the McKean farm from J. S. McKean, where he made his home for 35 years. He was a Republican in politics and was an active worker in that party, serving as a member of the legislature in 1870-78. He also filled various township offices; was justice of the peace for 15 years, Rockland township's school treasurer for 25 years and was postmaster and school director for several terms. In 1885 he removed to Oil City, which was his home from that time until his death yesterday. -Money's Derrick. Deceased was a cousin of the late Judge J. G. Dale and was well known to many of our older citizens.

JOHN COOK. -John Cook died in this place at 9 o'clock Wednesday morning from a complication of diseases, aged 81 years. Mr. Cook's health had been failing for several months, and a few weeks ago he took to his bed. Mr. Cook was a son of John Cook and was born in Shippensburg. He moved to Cooksburg with his parents, and when he grew to manhood purchased a farm which he later sold and leased a hotel on Twenty-Seventh street, Pittsburg. After conducting the business for some time he quit it and in 1873 came to Emletton where he conducted a livery business for a number of years. Of late years he has lived a retired life. Mr. Cook married Miss Susan McDonald of Westmoreland county. She died about four years ago. Six children survive, Dave, of Oil City, Cal., of town, Clark, of Nebraska, Scott, of South Dakota, Sylvester, of Allegheny, and Mrs. Goble, of Indiana county. Four children are dead, Mrs. Hattie Shaw, Harrison, Austin and Alice. Mr. Cook was a man of considerable mental culture and vitality, and during his illness never complained. Funeral services will be held at his home this evening at 7:30, and early Friday morning the remains will be taken to Cooksburg for interment. But four of his children could be present at his funeral. Dave, Sylvester, Cal., and Mrs. Goble. -Emletton News.
