LONDON, Aug. 27.—James G. Stowe, the United States consul genera. at Cape Town, has arrived here from South Africa. To a representative of the press he said yesterday: "I find myself marconed in London. Apparently every berth on steamers bound for America is taken till the end of September and I am anxious to get home where I can do away with official cares and talk as a private citizen. You know more in London about the military conditions of South Africa than it is possible for any one to know at Cape Town.

The topography of the country and the mo-bility of the Boers, whom the English columns are unable to pursue individ-ually, render operations most difficult, The British are feeding many prisoners and are providing for thousands of Boer families, all of which is very nice on the part of England. But, in the meanwhile, the war drags on. There is a great future for South Africa when peace is secured. The surface mineral wealth is scarcely scratched. Undoubtedly England is prepared to solve the problem of re-unification; but when that will neem certainly no person at the Cape is able to sar,"
