ASSASSIN ON TRIAL

McKinley's Slayer Enters Plea of Guilty.

According to Law His Plea Could Not Be Accepted and His Counsel Entered a Plea of Not Guilty—Several Witnesses Are Examined For the Prosecution and Trial Will Proceed Rapidly.

BUFALO, Sept. 24.—Leon F. Czolgoz was placed on trial yesterday morning, charged with the murder of President William McKinley. He entered a plea of "guilty," which was subsequently changed to "not guilty" by direction of the court.

All the events of the day tended to indicate that the trial will be short. There was not a suspicion of a quibble over any question whatever and counsel for both sides seemed to be in perfect harmony.

Justice Truman C. White, one of the oldest and most experienced of the Supreme Court judges, was on the bench. Immediately after the opening of the trial, and after the prisoner had pleaded, Justice Loran L. Lewis, senior counsel for the defendant, arose and announced that together with his colleague, former Justice Robert C. Titus, and Mr. Carlton E. Ladd, they were ready to act in behalf of the prisoner.

"I thought it best," he said, "for my colleagues and myself that I should say something regarding our presence here as attorneys for the defendant. At the time my name was suggested I was out of the city and did not know anything of what was transpiring here with reference to the selection of counsel for the defendant. I was out of the city at the time I was assigned, and when I returned and the circumstances of my selection were told to me I was extremely reluctant to accept. But the duty had been imposed, and I considered it my duty, in all the circumstances to defend this man."

"I ask that no evidence be presented here—that the court will not permit the acceptance of any evidence unless it will be accepted at the trial of the most meager criminal in the land."

"I am familiar with these circumstances," said Justice White in reply, "and I wish to say that I will give you every assurance that the prisoner will have a fair and impartial trial, and that during the progress of the trial he will be treated as an accused in the law demands in any criminal case."

The work of securing the jurors was then undertaken with a celerity that was amazing. Before the day was over the entire panel had been sworn and were seated in the box and had listened to a description of the Temple of Music, where the crime occurred, and seen photographs of the interior of that structure and had been told by three surgeons what caused the death of the President and the result of the assassin's shot upon the various organs of the body. They had also learned why the fatal bullet has not been located.

The jurymen who will sit on the trial are as follows: Frederick V. Lamer, plumber; Richard J. Garwood, builder; Henry W. Wendt, manufacturer; Silas Carner, farmer; Clarence James S. Stycall, lumber; William Loton, farmer; Eden, Walter E. Everett, blacksmith; Benjamin C. Ralph, assistant cashier, Third National Bank; Samuel P. Whitlow, farmer; Abner, Jacob H. Smith, lather and eggs; August H. Mertens, boot and shoe dealer; Robert J. Adams, contractor.

Government Presents Its Case. The presentation of the Government's case began shortly before three o'clock, when Asst. Dist. Atty. Haller began, with much deliberation, to address the jury. His talk was very brief, and consumed scarcely five minutes. "We shall show," he said, "that for some days prior to the shooting the defendant had reconnoitered the building of the President. He knew that on the 6th of September the President would receive the populace in the Temple of Music; that on that day he went to the Exposition, got into line with the people and approached the President; that he had a weapon concealed in his hand, and as the President extended his hand in kindly greeting he fired the fatal shot."

"He fired two shots, in fact. One of them took effect in the abdomen and caused that mortal wound which resulted in the President's death. That in brief, is the story we shall show you. Witnesses will tell you this story, and I am sure that you will have heard the evidence you will have no difficulty in reaching a verdict of murder in the first degree."

The first witness, Samuel J. Fields, chief engineer of the Temple of Music, described the ground floor plan of the Temple of Music, and was followed by Perry A. Bliss, a photographer, who presented views of the interior of the building. The balance of the afternoon was taken up with the testimony of three physicians, two of whom had attended the President during his last days, while the other performed the autopsy. The latter, Dr. Harvey R. Gaylord, was the first of the abdomen and he described the location of the wounds in the stomach and the direction of the bullet. The cause of death he attributed to the gunshot wound, but, fundamentally, he said, it was due to the changes back of the stomach, in the pancreas, caused by the "breaking down" of the material of the pancreas as a result of the passage of the bullet.

Dr. Herman Mynter followed and his testimony was of importance, in as much as it brought out the fact that the reason why the fatal bullet had not been located at the autopsy was because of the unwillingness of the President's relatives to have the body further mutilated by their instruments. Dr. Mynter and Dr. Mann, who followed him, both testified that the original cause of death was the gunshot wound in the stomach. One effect of this wound was, they said, to cause the gurgling "form in the pancreas, and the spot of poisoned tissue was as large as a silver dollar."

The prisoner Czolgoz during the morning evinced no interest whatever in the proceedings, but as the testimony was introduced he paid more attention to what was said and looked at the various witnesses closely.

The probable duration of the trial, it is believed, can be placed at two full days. When District Attorney Penney was asked by Justice White at noon as to the time he would take in the presentation of his case, he declared that he would conclude by Tuesday noon. Judge Titus, for the defense, was non-committal, however, and merely replied "That depends upon the turns things take." It is not probable that any defense will be put in, owing to the character of the prisoner and his refusal to aid his attorneys in any way to procure evidence which they could use in his favor. The idea of an attempt to enter the question of the sanity is not thought of in view of the reports of the two alienists who have recently examined him, and there is ground for the belief that the trial will be concluded with a session of but one day more.

Court Discharges Chicago Anarchists. CHICAGO, Sept. 24.—The nine anarchists who have been under arrest here, charged with conspiracy to murder President McKinley, were given their freedom, Judge Chertoff so ordering, after the prosecution had admitted that there was no legal evidence against them. Emma Goldman was not a party to the proceedings. Her case is set for hearing today before Judge Pratt.

Another British Rout. Lovatt's Scouts Severely Mauling By the Ever Active Burglars. LONDON, Sept. 23.—The war office has received the following dispatch from Lord Kitchener, dated Pretoria, Sept. 23:

"Kritzingers, while endeavoring to force a passage of the Orange river near Herbol, at 1 o'clock P.M. this morning, rushed the camp of a party of Lovatt's scouts. He failed to cross the river, but the scouts lost heavily. Lieutenant-Colonel the Hon. Andrew Murray, and Captain Murray, his adjutant, were killed. Deeply regretted the loss of Colonel Murray, who throughout the war had led Lovatt's scouts with great gallantry."

"Under cover of darkness the Boers managed to carry off a gun. They were promptly followed up, and the gun was recovered in a smart engagement, in which Kritzingers lost two killed and 20 taken prisoners."

Lord Kitchener also reports that the British captured by the Boers in the ambush near Scheepers Nek, Sept. 17, have been released and that the British casualties in the recent Vaalkfontein engagement, when the Boers captured a company of mounted infantry and two guns, were one officer and five men killed, 25 men wounded and six officers and 100 men taken prisoners. He announced that these prisoners have since been released.

Boers Within 40 Miles of Cape Town. LONDON, Sept. 23.—A most alarming letter from Cape Town is published today by The Daily Express. The writer says: "The Boers are overrunning Cape Colony. They have taken the coast and within 40 miles of Cape Town. Even the intelligence department does not know how many colonial rebels have taken up arms in the last fortnight."

"The town guard of Cape Town has been handling in the magazine rifles and ammunition, ostensibly because these were wanted at the front. Martindale's have been served out instead."

LAST SAD DUTY DONE

Body of President McKinley Placed In Vault at Canton.

Thousands of Sorrowing Friends and Grieving Citizens Lined the Route to the Grave—Services at Church and Grave Were Simple and at These the Chief Mourners Were Absent.

CANTON, O., Sept. 23.—With majestic solemnity, surrounded by his countrymen and his townpeople, in the presence of the president of the United States, the cabinet, the justices of the United States supreme court, senators and representatives in congress, the heads of military and naval establishments, the governors of states and a great concourse of people who had known and loved him, all that is mortal of the third president to fall by an assassin's bullet, was yesterday committed to the grave.

It was a spectacle of mournful grandeur, unseen since to be a town and swelled to the proportions of a great city. From every city and hamlet in Ohio, from the remote corners of the south and from the east and west, the human tide flowed into the town until 100,000 people were within its gates, here to pay their last tribute to the fallen chief.

The final scenes at the First Methodist church where the funeral service was held, and at the beautiful West Lawn cemetery, where the body was consigned to a vault, were simple and impressive.

The services at the church consisted of a brief oration, prayers by the ministers of three denominations and singing by a quartet. The body was then taken to West Lawn cemetery and placed in a recessed vault, pending the time when it will be finally laid to rest beside the dead children, who were buried years ago.

The funeral procession was very impressive and included not only the representatives of the army and navy of the United States, but the entire military strength of the state of Ohio and hundreds of civic, fraternal and other organizations. It was a two miles long.

One of the most pathetic features of the day was the absence of Mrs. McKinley from the funeral services at the church and from the cemetery when the body of her husband was laid to rest. Since the first shock of the shooting, then of death, then through the ordeal of recovery, she had borne up bravely. But there was a limit to human endurance and yesterday found her too weak to pass through the trials of the final ceremonies.

Through the open door of her room she heard the prayer of the minister as the body was carried to the cemetery. After that Dr. Rice remained close by her side and, although the full force of the calamity had come upon her, it was believed by those about her that there was a providential mercy in her tears, as they gave some relief to the anguish of the heart within.

Washington County Fair Closing. WASHINGTON, Pa., Sept. 24.—The annual Washington county fair will be held here next week, commencing Tuesday, and continuing through Friday.

Expect Good Hunting Season. CONNELLSVILLE, Sept. 24.—Farmers coming from the mountain region say that there are plenty of squirrels this fall, and that the hunting will be good as soon as the squirrels "settle."

West Bridgewater. The services connected with the laying of the cornerstone of the Christian Union Church of this place were held here Sunday, Rochester Lodge, 4048, I. O. O. F., had charge of the ceremonies, assisted by members of the Sewickley lodge.

YOUNGWOOD.—The new Methodist Episcopal Church was formally dedicated Sunday. Rev. T. N. Boyle, presiding elder of the Pittsburg district, conducted the services.

BELLEFONTAINE.—The county commissioners of the entire state will meet in their annual convention here on Tuesday. The elaborate program includes discussions on questions of interest to county officials.

Pendell's brother, G. G. Pendell, formerly chairman of the prohibition county committee and editor of the paper, was named to a committee and ordered to retract under threat of being thrown into the street with his entire printing plant. He has made a retraction, which was published in this morning's Republican.

Grand Rapids Collision. GRAND RAPIDS, Mich., Sept. 24.—In a head-on collision late Sunday night on the Grand Rapids & Indiana Railroad, eight miles north of Cadillac, a regular freight train and an extra passenger train carrying Sunday excursionists, known as the Zimmerman of Cadillac, were killed and five men were injured. One of the latter, Fireman Hiram Wilcox, died later of his injuries.

DEAD BODY ON TRACK.

Young Man Last Seen Alive on Leaving Sweetheart.

JOHNSTOWN, Sept. 24.—According to prevailing opinion, a foul murder has been committed at Windber, Patrick Cavanaugh, aged 23, was last seen alive Friday night, when he called to see his sweetheart, Miss Jeannette Forsythe. Yesterday morning his dead body was found on the Pennsylvania railroad "Y" at Windber. His head was completely severed from the body. The railroad men are confident he was not killed by a train.

He had a small sum of money Friday, but not a cent nor an article of any kind was found on his person. No blood was found on the track near the body, and all efforts to locate the place where he met death have failed. The coroner began an inquest yesterday. Cavanaugh came from DuBois to Windber several months ago.

CRUSHED IN TURNABLE. Former East End Lad Meets Death at Play. EBRENSBURG, Sept. 24.—Angus Darragh, the 14-year-old son of A. J. Darragh, proprietor of the Ebreensburg steam tannery, was instantly killed here at the Pennsylvania railroad turntable near the passenger station.

Darragh, with a number of playmates, was riding on the table, and in attempting to get off to take his turn to push the boy was caught under the table and his head crushed in a horrible manner, a part of the face being torn off. The Darragh family came here from the East End, Pittsburg, where Mrs. Darragh was at the time of the accident.

SHOT WIFE AND HIMSELF. Butcher Kills Separated Companion as She Passes the Market. SHAMOKIN, Sept. 24.—Warren Gilger, manager of a local meat market on Independence street, shot and killed his wife and then shot himself, inflicting what is believed to be a fatal wound.

Gilger and his wife separated five weeks ago. The latter returned last night from Tower City where she had been staying with relatives. While walking on the street she met her husband near his place of business, when he at once shot her. Gilger was overpowered by Chief Burgess Thomas.

Connellsville, Sept. 24.—Mounthefors say that there will be a very light chestnut crop this year. The small boys have been patiently awaiting the first big frost to loosen the nuts. Last fall the sure sign of a big crop was noticed and it has failed. The old saying is that the trees bloom for a year ahead, and according to the sign, the crop should be heavy this fall, but those who live near the groves say that this is not true.

Fought in the Penitentiary. STEUBENVILLE, Sept. 24.—Lewis R. Marshland, a well-connected Pittsburg, who was sent to the penitentiary from this county to serve seven years for shooting to kill, had a desperate encounter in the kitchen at that institution with Sam Mallon, a prisoner from the Indian Territory. Marshland, who is employed in the dining room, was engaged in the dining room, was engaged in the kitchen contrary to rules.

RIXEY GETS FULL REWARD. President Roosevelt Announces That He Will Be Appointed Surgeon General of the Navy. CANTON, O., Sept. 24.—President Roosevelt has named Leonard Rixey as his first assistant surgeon general of the navy, with the title of Surgeon General Van Reypen.

The secretary of the navy has been requested by the president to instruct Dr. Rixey to make such arrangements as will enable him to continue if needed his military duties between now and the time of his appointment to his new position.

Rearranged Pan-American Program. BUFFALO, Sept. 24.—The death of President McKinley has necessitated the postponement of several days as a mark of respect and affection has necessitated the rearrangement of many special days scheduled for the exposition. The expressed wish of the late president was that his illness should not in the slightest interfere with the progress of the exposition, and after being closed on the day of the funeral in Canton, in common with all parts of the bereaved country, the exposition will continue from day to day until the scheduled time for closing, the end of October. Among the postponed days are: Railroad day, which will take place on the 28th. At this time all the events promised for that day will take place, augmented by new and attractive features. New York State day has been named for Oct. 9; this will also be far more elaborate than originally planned. Other important days are: Oregon day, Sept. 25; Toronto day, Sept. 27; Mexican day, Oct. 3; Nebraska day, Oct. 5; Brooklyn day, Oct. 8; National Grand day, Oct. 10; Atlantic City day, Oct. 11, and other days of more or ordinary interest follow each other in quick succession for the remaining six weeks of the exposition.

MOB BEATS CLERGYMAN. He Sanctioned an Article in Prohibition Paper Trauncing McKinley. BINGHAMTON, Sept. 24.—A clergyman, who escaped from the crowd before his name could be learned, was knocked down and beaten in this city last night because he said he sanctioned an article that appeared in the Standard, a prohibition paper published here, which calumniated President McKinley. The mob was after C. D. Pendell, the owner of the printing office where the paper is published, but he escaped in the excitement.

Pendell's brother, G. G. Pendell, formerly chairman of the prohibition county committee and editor of the paper, was named to a committee and ordered to retract under threat of being thrown into the street with his entire printing plant. He has made a retraction, which was published in this morning's Republican.

Great indignation has been aroused and it is generally declared that unless the Pendell brothers leave town they will be run out.

WASHINGTON, Sept. 24.—The controller of the currency has declared 20 per cent. dividends in favor of the creditors of the First National bank of Peon Yan, N. Y.

WEEKLY TRADE REVIEW.

Bradstreet's Report on the Condition of Business.

NEW YORK, Sept. 21.—Bradstreet's review of trade says: The sad events of the week have naturally been depressing features, even on days when the sense of national bereavement did not seek expression in total or partial suspension of all but the absolutely necessary activities.

Among the more favorable of the purely commercial or industrial features of the week have been the continuance of the good demand from jobbers, the heavy shipments of goods with which to fill these demands, the better call for goods at retail, indicated by the arrival of cool fall weather, and last, but not least, the settlement of the steel strike, which restores at least 50,000 men to their work. The unfavorable feature are few, the most notable being the delay in the arrival of heavy frosts in the north, affecting, however, only a few of the planned products, as the crop has been practically gathered in and the distribution of cold weather.

Cotton alone of all the leading staples showed hesitation and irregularity, advancing early, but weakening in the middle of the week on poor receipts, and despite crop reports, which again firm up toward the close on a repetition of the latter reports and a rather better tone abroad, the changes in prices are not marked, however.

Drygoods distribution in the west is still large, and cooler weather has stimulated demand for clothing and shoes from jobbers.

At the east wool is less active, but steady at former prices, while the manufacturers have plenty of orders and are busy filling them. Advances from London are that the latest woolen prices are 5 per cent higher than the last ones. Money tends lower at Boston, where a good jobbing business has been done in cotton goods. Gingham is sold ahead at that market. Mourning goods have been in very active demand, and Fall River print mills have run night and day to fill orders, while in the west and north have uniformly reduced stocks of cloth.

The resumption of work in the hoop, sheet, tin plate and tube mills has been a feature of the week. The loss in wages to the iron as a result of two months' idleness is estimated at \$10,000,000, and the iron earnings of the companies are said to have been reduced to \$15,000,000. Much of the latter loss will, however, be made up. Steel rails are being well taken at the west, and steel mills are reported sold ahead to next year. Pig iron is in rather better inquiry, and Bradstreet's Erie index correspondent reports an advance of 27 cents on the 22nd.

Harrowed, light and heavy, is very active. The other metals are without much change, but copper is steady despite stock market rumors of heavy distributors' stocks.

For the week business failures number 158, as against 149 in 1900, 183 in this week a year ago, 147 in 1899, 182 in 1898 and 237 in 1897.

Wheat, including flour, exports for the week aggregate 3,840,574 bushels, as against 6,048,000 bushels last week and 3,355,857 bushels in this week last year. Wheat exports for July 1 to date (12 weeks) aggregate 72,182,179 bushels, as against 37,463,416 bushels last season.

Corn exports aggregate 611,528 bushels, as against 777,815 bushels last week and 1,134,235 bushels last year. July 1 to date corn exports are 12,133,304 bushels, as against 38,589,470 bushels last season.

The boot and shoe industries are in good shape, and shipments compare excellently with a year ago. The feeling grows that the latter are sure of at least present quotations for some time to come. Lumber is fairly active.
