Justice of the Supreme Court, WM, P. POTTER, of Allegheny. State Treasurer, FRANK G. HARRIS, of Clearfield. COUNTY. County Treasurer, CALVIN M. ARNER, Tionesta,

AFTER Czolgosz is excented, the larger duty will remain of driving out anarchists and stamping out anarchism. We there was not a house in the town to be must not get apathetic in this matter.

CUBA is deeply interested in tariff rates with the United States. There is but one way to get on the ground floor commercially and that is to ask for annexation.

THE Goebelites in Kentucky continue to harrass Gov, Taylor instead of making a real search for Goebel's murderer. It would spoil their prearranged game of polities to find the assassin.

As soon as they dare anarchists will come out of their holes and rejoice over what they call their recent "triumph." As long as their fangs are undrawn they will strike home with their poison.

A was department seems to be unnecessary with the Boers. They get supplies and ammunition by some mysterious method of their own, and quite upset scientific theorists on the art of war,

Is the country were suffering to-day for lack of work and money the antitariff men would hold the Dingley act responsible for it, wouldn't they? As the opposite is the case why not give the Dingley act some of the credit for it 7 Be fair about it.

DURING the last three months the government receipts have exceeded expenditures by nearly seventeen million dollars. The reduction of war taxes has been offset by decreased expenditures, and the surplus for the fiscal year will show but a small falling off.

THE American Yacht Columbia won the third race of the series last Friday beating the Shamrock. It was a close call, the English boat crossing the finish line two seconds ahead, but the official measurements of the two boats gave the Columbia 43 seconds allowance, and she therefore won by 41 seconds. Thus the cup remains on this side the great pond for another year at least. It was the closest race in yachting history.

In the penal code of the state of New York is found the following : "A personconcerned in the commission of a crime, said that we thought that we had "struck whether he directly commits the offense,

# Idaho,

POCATELLO, Idaho, Sept. 27th, 1901. Editor Republ Dear Sir .- Thinking that some of

your readers might be interested in reading something of the far west and also some information of a good section to go to and "grow up with the country," is y reason why this is written.

Having been identified with the newspapers of Clarion, for the past fifteen and ending the last few years as publisher and principal owner of the Clarion Republican, I know from experience that letters from the west are always apprelated, but a strange thing is that in all my time I have never seen an article om this part of the country that gave any information as to where there was a od place to locate, and to prove this to be a fact will state that when I made a trial trip in the latter part of April to see what effect the dry climate would have on

my bronchial trouble, and also at the same time to find a locality wherein to locate if benefited, that when I came to Denver I was as ignorant as a babe in regard to what point I could go with the view of finding what I wanted. Accidently, I heard of St. Anthony, in this State, which is some seventy miles further north than this place and where I would have lo cated had all things gone as I desired. However at the last moment before leaving I received a telegram stating that had and consequently was compelled to stop over here and now have concluded to remain. To use a slang phrase we believe that we have "struck it rich." Pocatello, Idaho, is about 2300 miles

from Pittsburgh and the best rate we could get was \$30.90, this was second class but exactly the same as first with the exception of riding in the Pulman Palace cars which few care for but allows you the use of the "Tourist Sleeper" which is

just as comfortable. We test over the Santa Fee R. R. from Chicago and came roads, however, are fine and it is lit-

tle difference which you take after you arrive at Chicago, This town is peculiarly situated. It is

metimes called the "Gate City," as to pass through Idaho, you must come through the canyon only seven miles below this place, and to look at the canyon from Pocatello in the clear atmosphere, it appears to be about two miles off. The town is situated at the junction of the Idaho Divison with that of the main line, One line runs from Granger, on the Un ion Pacific, to near Portland, Oregon, and the other from Salt Lake City to Butte, Montana, the road being the Oregon Short Line, one of the best equipped in

the west. All their trains are vestibuled, chair cars free and with a splendid road bed and the best and kindest attention by their employees makes it a pleasure to travel over it. In coming to Pocatello, you must come in on this five road, either from Salt Lake City, or Granger, You cannot get here any other way. Ten years ago, when the above road

was built, passing as it did, and will for a few months longer, through the Inilian reservation, there was not a foot of ground for even an employee of the railroad to build a shanty on or erect a tent without trespassing on the rights of the Indians, and I can tell you that the government looks very carefully after their rights. But at last, after some years of "red tape," a town site of three miles square was taken from the reservation, but the money that the lots brought was given to the Indians. So that the town that ten

years ago had but a lew tents, now has five thousand inhabitants and is incorporated. To give you the reason why I it rich" is, that in ten years the growth

those Democratic leaders who realize the hopelessness of getting an offic + without the assistance of the Republicans, to unite with the so-called Republicans who are always anxious to knife their party in the name of "reform." The program is to support E. A. Coray, a political mi-anthrope from Lozerne county, for the office of State Treasurez, and indorse Judge Yerkes, the Democrat nominee for Supreme Judge. If the Democrats want that sort of a ticket, they are welcome to it, but we can conceive of no reason why any Republican who is not soured by disapointment or wounded egotism, would want to vote that way. We think there are enough healthy-minded, right-thinking, loyal Republicans in the State to give Harris for State Treasurer, and Potter for Supreme Judge, a majority that will make the leaders of the fusion movement wonder "who threw the brick," Punxy Spirit.

An effort is being made on the part of

"Somerning poing" becomes more than a mere slang phrase under. Dingley, law conditions. There is "something doing" for the hundreds of thousands of workmen who have continuous employment in place of idleness; "something doing" for manufacturers, who see a balance on the right side of the ledger; the employes of the railroads in the handling of many more tons of freight Paul to reach their destination-and if it. daily than ever betwe in their history; "something doin;" for the farmers in performing the task of feeding the milons of prosperous, happy, clamorous

industrial workers. In short, there is not only "something doing," in contrast to the "nothing doing" in Wilson law days, but there is more than something; there is a very great deal doing all along the industrial line,

### A Typical South African Store.

O R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is sit-"needle to an anchor." This store is sit-uated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr, Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a houshold where a doctor's advice is almost out of the testity to their value in a houshold where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record," For sale by Killmer Bros, Tionesta, and W. G. Wil-kins West Hickory.

There are similar laws in other states. Why should the murderers who call themselves anarchists be excused from its operation ?

WHEN men and women have plenty of serious work to do they don't bother with trifles. It is the idle who make mountains of molehills. If the Democratic party had any great or true aim for the real good of the country it would not bother itself and harass the voters over such a petty and uttorly useless issue as the repeal of duties which, it claims, are outgrown and therefore moperative. Its patron saint for such enterprises is Don-Quixote. The party can only make itself respectable by tackling the main question and fighting protection squarely on its merits. In doing so it :, ay expose its blindness to a thousand obvious facts and its obtuseness to sound reason, but it does thereby escape contempt.-Econo

THE Filipino outbreak in the island of Samar is deplorable; but probably it will quickly be suppressed. The news of the massination of President McKinley, it is likely, is responsible for the demonstration. The American military force in the Philippines is much smaller at present than it was twelve months ago, or even six months ago. One effect of the recent fight will be that the troops in the islands will not be further reduced in number at present. It is well to keep an ample force there until pacification is assured. Some parts of the archipelago, of course, were never brought into sublection by Spain during that country's centuries of occupation of the islands, but the Americans must assert authority over the whole region. This requirement must be kept constantly in mind.

AT the approaching election two amendments to the State Constitution will be voted on by the people. The one provides for what is known as personal registration. What the effect of this would be can not be determined until huch we have a go off. tried, and it may or may not be a success. The second proposition seeks to chine adopted instead. The effect of this amendment is also largely conjectural, and with some people is a mere fad. The Idaho. adoption of voting machines would entail enormous expense upon the counties, as every week and read it with the greatest they are an intricate affair and their interest. But will close with the interconstruction is very costly, and when all said and done it has not been demonstrated that they are a great success where they have been tried. The people generally are very loath to meddle with the constitution, being rather inclined to let well enough alone.

this place, that already employ nearly a thousand hands, to be enlarged to the extent of \$300,000 this fall and another addition of \$350,000 in the spring. Besides all this prosperity, there is now being erected a new court nouse, to cost \$15,000; a brewery to cost \$50,000 and the State is advertising for bids that will be opened on the 3d of the coming month for a large academy to be built here. Houses are only vacant a few hours and you are lucky most of the time to get one of any kind. Wages are \$2 per day for labor and all who seek will easily find it at all times. Both my sons are working and a friend of theirs, Harry Carson, is also permanently engaged. We have pure nountain water and clear, dry air. The elevation is a little over 4000 feet. Since arriving we have only had one day of steady rain and besides this only three

or four showers. The town and surrounding country, that is in the immediate vicinity, is not agricultural, but in almost any direction within 24 miles there are the very best ranches with plenty of water for irrigation and on which almost anything in the world can be raised with the exception of corn, which does not do well on account of the cool nights. That is one of the delightiul experiences o this climate, that no matter how hot the days may be the nights are always cool

and it is a pleasure to sleep. The winters are said to be mild here and the drynsas of the climate prevents one feeling the cold. We had rain the other day and snow on the Bonnock mountains which surround the town on all sides but one, and the snow is still there.

This is the country to live in if one wants health and wealth, if they are willing to work for it. We have the Indians all around us. They are constantly in the town overywhere and for a time it was interesting to watch them, and in fact, we have a good deal of curiosity yet,
