

WEDNESDAY, OCTOBER 9.

The best time in the year to paper is when everybody else has finished. Then there is no difficulty in securing the services of a competent paper hanger because of the light demand for such work and another and more potent reason is that after the regular season is over you can buy paper hangings at 1/3 to 1/2 off the regular prices. We are now selling wall paper at actual cost. Not remnants either, but full lines and a large variety of designs:

Papers that were 15c per roll, now 10
" " " 20 " " " 13
" " " 23 " " " 17
" " " 35 " " " 23

and all others at proportionate reductions. At these prices we do not expect the stock to last a great while.

The first snow of the season fell in Tionesta last Thursday, Oct. 3. It was "just what you could notice" here in town, but in some places in the woods there was a fair "tracking" snow. An exchange says the biggest trust on earth has been discovered at last. It is the country newspaper trust. They trust everybody, get crossed for trusting and trusted for crossing—and finally get busted for trusting. We are in the lead when it comes to winter wraps as well as with every thing else. Come to our opening Friday, Oct. 11, and see the largest line of jackets, capes and furs you will be able to see this fall. Heath & Feit, It

—Bills printed at this office announce that on Saturday, Oct. 19, 1901, at 10 o'clock a. m. S. M. Mr. Haslet thinks he may be ready to depart within the next two weeks.
Letter to P. C. Hill.
Tionesta, Pa.
Dear Sir: The annoyance caused by short measure in paints, that are sold by the "gallon," is worse than the loss by the shortage. Misled by the maker's representations as to how far a gallon will go, you buy too little of every sort, and must send for more in the midst of the work.
Besides, a short-measure man is, doubtless, also a cheater in other ways; his paint is likely to cover perhaps two-thirds as much as he says. This also you find out while the work is going on, and the painting must wait while you send for more.
Even this is not all, nor the worst. If it wares half as long as he says, you are lucky. You have the whole job to do again in a year or two; and perhaps your paint is not really good for that short time.
One law of lying is that liars lie most where it's hardest to catch 'em. Another is that a liar lies wherever he can.
Look out for short measure. It includes all the rest. Devote lead and zinc is full measure and pure and durable.
Yours truly,
P. W. DEVOR & CO.
P. S.—James D. Davis sells our paint in your section.
