GREAT STAMP ROBBERY

Thieves Got \$74,610 Worth From Chicago Postoffice.

Had Tunnelled Benrath Building and Crawled Under Finoring Several Hundred Feet, Bored Holes In Steel Floor of Vault and Removed Their Booty In a Wagon.

CHICAGO, Oct. 22. - A sensational obbery which netted the perpetrators \$74,610 in stamps was discovered here resterday when the wholesale stamp department of the postoffice was opened for business. Investigation developed the fact that the burglars had crawled under the flooring for about 360 feet, bored a hole in the bottem of the vault, secured the stamps and escaped, carrying their booty in a wagon.

The work of forming an entrance to the vault had evidently been going for-ward with the greatest patience for-many days. It is believed, however, that the intention of the thieves had been to enter the cashier's vault, in which there was \$35,000 in money and stamps valued at hundreds of thousands of delars. The bottom of the vault is of steel, half of an inch through. In this 97 holes were bored until a space 18 inches sonare had been so weakened that it was possible to take out the whole plate with little difficulty. A drygoods box stood over the hole thus made and concalcul the work of the robbers while it was in progress. So carefully had the scheme been planned that men working in other parts of the building had not the slightest inkling of the during robbery being worked almost under their

The robbers drove up to the postoffic ilding in a wagon, the tracks of which could still be seen plainly. The building is a temporary affair and the men had only to open a little door to admit themselves under the flooring. To reach the vault it was necessary to crawl about 300 feet over olds and ends of boards which littered the way. The route evidently had been carefully

Of the \$74,610 in stamps theen \$4,712 were in "postage-due" stamps and \$2,000 in special delivery stamps. So the convertible stamps amounted to \$67,828, but of these \$4,828 were Pan-American stamps of Sc and 10c denominations.

LOWELL BANK LOST \$115,000 Much Booly Returned by Missing Em-

playes Detectives on the Trail. LOWELL, Mass., Oct. 22.—The financial frombles which had caused great suspense to the officers of the Merchants' National bank for three days owing to the disappearance of its teller, Albert G. Smith, and its bookkeeper, Lewis H. Swift, practically have been smoothed not. The bank has lest about \$115,000. The directors officially state this and at the same time say that they have rethe same time say that they have re-turned "valuable securities." The shortage is represented by the discrepancies on the books extending over two years, with the amount which it is understood

has been returned by the two men in agreeing to return the securities. These "valuabe securities," as described by one director, were returned in earpet bags and represented bonds, notes and other negotiable papers and big banches of money, all supposed to have been taken from the bank vault just prior to the time the men disappeared on Thursday night.

Interest for the moment centers in the mrsuit of Smith and Swift and it is unterstood that United States officers had pince. An immediate arrest is expected without regard to the probable function of the bank directors. From the fact that the lawyers who negotiated what appears to have been an agreement at settlement were in Boston Sunday and with them was Director Amasa Pritt it is generally believed the men were Boston until yesterday morning and that they are now some distance away. Smith had corresponded with Montreal parties and it is thought be has gone there.
