WEDNESDAY, OCTOBER 30

The best time in the year to paper is when everybody else has finished. Then there is no difficulty in securing the services of a competent paper hanger because of the light demand for such work and another and more potent reason is that after the regular season is over you can buy paper hangings at 1 to 1 off the regular prices. We are now selling wall paper at actual cost. Not remnants either, but full lines and a large variety of designs:

a knaja knajanaja a knaja a knajanajanajanajanajana

Papers that were 15c per roll, now 10 " 20 " " " 13 " " 23 " " " 17

and all others at proportionate reductions. At these prices we do not expect the stock to last a great while.

An Ad With a Moral

The mission of a watch is to keep time. What kind of time do you think a cheap watch keeps.

Now, to a greater or less extent, all slothing looks alike Some dealers would have you believe that chesp clothing wears as well as our kind of clothing. They might just as well claim that an 85c watch will keep as good time as a \$25 one. The mission of a suit or an overcoat is to make a man look well and feel well. To do this for a caristactory length of time, it must be shaped by hand and manipulated all through

by adepts in the art of tailoring. It costs more to make a reliable watch than one that goes helter skelter, and you can't get a year's wear out of a "\$3 98

worth \$20.00" Suit or Overcoat. Now for the moral -Buy your clothes as you would a watch. Buy the best you can afford -not necessarily the most expensive. Our suits and overcoats at from \$7 to \$25 have all the virtues of correct style and long wearing quality, although the first class merchant tailors, because of their limited facilities have to ask \$25 to \$40 for duplicating them,

THE BEST IS ALWAYS THE CHEAPEST.
