

WEDNESDAY, NOVEMBER 6.

This week we are showing some very pretty but useful specimens of Indian handiwork in the way of baskets, beginning in size with the toy basket at 5c, holding a handful and running up from that in increasing size and price to the large hamper intended for receiving soiled clothing, which sells for \$2.00. There are also articles for use and ornament constructed from birch bark and sweet grasses, decorated with porcupine quills dyed in various colors. The Indians are the only people who have ever found any use for that curious animal—the hedge-hog, although in one State in the Union they are protected by a law that is more stringently enforced than any other game law—but that is another story and interesting enough to be worth looking up. This lot of Indian ware was intended for the holiday trade, but coming in early we decided to display it now.

—The dwelling house of Herman Hensel at Meadville caught fire at 7:50 Monday evening and was totally destroyed. The building was estimated to be worth \$700 or \$800 and was not insured, the loss being a total one. About all the furniture and household goods, except the family wearing apparel, were saved. C. Fitzgerald's house near by was twice on fire, and was saved only by the most persistent efforts of the fire department.

—A 5-year-old son of K. L. Haugh of Nebraska was quite severely injured last Wednesday by being run over by a heavily loaded wagon. This child was playfully hanging onto the wagon, when in some manner he was caught under the wheels, one of which ran over his left leg below the knee and over his right foot at the instep. Strange to say no bones were broken, and the little fellow was doing very well at last accounts. Dr. Graves attended the little patient.

—While not exactly snake season, this one is too good to keep: "Rattlesnakes are grateful if you gain their affection," says a correspondent of the Corsicana, Texas news. "My brother Jim found a six foot rattler near town caught under a boulder, and instead of using his advantage he sympathetically released the snake, which thereupon became a pet and followed Jim about and guarded him as watchful as a dog. One night he was awakened, and, missing the snake in usual place at the foot of the bed, he kn- w something was wrong. He got up and lighted a match to investigate, and found a burglar in the next room, in the coils of the snake, which had its tail out of the window rattling for a police."

—Miss Blanche Tallman, of Tidoutou, who has a class in music at Nebraska, met with a severe accident at that place last Thursday evening. A number of young people had gathered at J. M. McCullough's house and were having a little Halloween sport. Miss Tallman being unacquainted with the premises opened one of the outer doors to step upon the porch, but there was no porch there and she was precipitated to the ground below, a distance of five or six feet. In the fall she broke the bone of her right leg between the knee and ankle. Dr. Dunn was summoned and reduced the fracture. Miss Tallman was taken to the Oil City hospital Monday to recuperate. She was accompanied by Mrs. Vera Baker of this place, who has acted as her nurse since the accident.

—The Meadville Tribune in speaking of the Odd Fellows Home in that city says: "There are many societies and persons in Meadville who are doing a great work in ministering to the wants of orphans and others, but it remains for the Odd Fellows' home on College Hill to achieve the crowning success in this line. If there is a person in Meadville who believes in faith, hope and charity who has not visited this home, then something has been missed. Visitors come from various parts of the State to see in what manner 55 children are cared for by one father and mother and they always depart satisfied that the home is a great and most worthy institution. A young superintendent and matron have wrought wonders in the management of the home and the result is a happy, well disciplined family of bright faces, the characteristics and little hobbies of each being as familiar to their adopted parents as though they had but three children to look after."

**Killed While Serenading.**  
 A very distressing accident by which a man was instantly killed, occurred at Cooper Tract last Saturday evening. A party of merry-makers had gathered to serenade a newly wedded couple, using all sorts of instruments with which to make a racket, including dynamite, shot-guns, etc. During the evening one of the men had laid down his gun supposing he had emptied it. Another, a boy about 16 years of age, picked up the gun and attempted to put another load into it. In some manner the gun was discharged, the contents, evidently a load of shot, struck Harry McLaughlin, in the left side and tore its way through his heart and lungs. Death was instantaneous, and the consternation, and horror of the crowd can better be imagined than described. McLaughlin was a man about 32 years of age, and we understand has a small child living, his wife having died about a year ago. He came originally from Canada, and has worked at Cooper Tract about two years.

**Fell Twenty-Five Feet.**  
 James, second son of James G. Carson, of West Hickory, had a narrow escape from death yesterday afternoon. He works for his father on the barge yard at that place, and while rolling a stick of timber off of the high trestle work, was thrown headlong to the ground, a distance said to be fully twenty-five feet, striking full on his head. Dr. Whit Morrow was quickly summoned, who found no broken bones, strange to say, and Jimmy was able to walk across the bridge to his home. The strange feature of the case is that the boy's neck was not broken, and the doctor thinks, with the exception of a whole lot of soreness about the shoulders, he will get along without much trouble. It was surely a miraculous escape.

 —R. L. Haslet and family, and A. W. Stroup start for Burlington, N. C., today, where the former expect to make their future home. Mr. Stroup will see how the climate agrees with him and may conclude to move to that section and the best wishes of their many friends go with them.  
 —Miss Edith Hopkins gave a sheet and pillow case party on Halloween to her young friends. Each guest was dignified in a sheet and pillow case, and the parade which formed down town and marched up Elm street in the evening was altogether unique in character and quite startling. "A splendid time" was the report of those present.  
 —Mrs. George Holman entertained a large number of her lady friends at a "passing party" last Wednesday evening. A passing party is one at which each guest is requested to bring some article they most desire to be rid of, and these are passed around and exchanged among the guests, who return home usually with something they desire even less than that which they brought. But the diversion is quite interesting and affords much merriment.

**Jumped on a Ten Penny Nail.**  
 The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by Killmer Bros., Tionesta, W. G. Wilkins, West Hickory, Pa.
