Democrats and Unionists do Not Know What to do Next.

Dissensions In Minority Party In Philadelphia and Allegheny Give No Encouragement to Republican Malcon-(Special Correspondence.)

Philadelphia, Dec. 3 .- Since the recent defeat at the polls the Union NEWSPAPERS LACK INFLUENCE. party men and the Democrats have been unable to get together upon any scheme for fusion in future campaigns. The Democrats are so completely divided into factions of one kind or another, that the Union party leaders do influence with the voters. No political not know with whom to deal.

DEMOCRATS ARE DIVIDED. It is possible that there will be at least two contesting delegations of

Guffey is anxious for harmony, but he does not know where to begin. If he makes terms with Pattison he will offend the Gordonites and the old organization element. Pattison has made so many enemies through his recent uncertain actions, trying to play both sides and fosing at the game, that Guffey is afraid to have anything to do

The Gordon faction mean practically the Union party element of the Democracy, and have nothing in common

with the straight-out Democracy. Meanwhile, with the Democrats at sixes and sevens, the insurgent Republicans do not know where to turn

They find that the Republicans everywhere who participated in the late unsuccessful fusion movement are county. When the Democratic state eager to return to the old party and are ready to take their places with the rank and file and show their loyalty by hard and steady work for the welfare of Republicanism.

UNION PARTY'S WEAKNESS. In this city the Union party has made no sign of getting into shape for the spring campaign, outside of a few wards in which the old David Martin element retains some strength.

There are a few offices which the Martin men still control, and the employes of these offices are endeavoring to keep up a Union party organization

for their own purposes. The Republican leaders have been urged to put up one of their followers of astronomy, "that there is no water at all in the moon. Now, Mr. Fresch, what all in the moon. posed for renomination. He is a stalwart Republican, but some have argued that he should make way for one of the young men who have been active recently on the stump. Nothing has as yet been determined upon regarding this office, but should the Republicans renominate Mr. Kinsey, which now seems probable, the Union party men would be without a candidate about whom they could rally, and they would have to trail along for the Republican nominee or support the Democrat. Kinsey is strong with the tents to Continue Factional Warfare conservative element in the community, and his renomination would thoroughly disarm the Unionist.

There have been several conferences here recently of the state leaders of the Union party. They have come to realize that what they regarded as their strongest cards, the insurgent newspapers of this city, are without campaign was ever waged in the state The Pattison contingent are now at in which there were more Philadelagainst the Republican organization

This fact has impressed itself upon Democrats from this city, and may be the minds of the Democrats as well as the insurgents, and they are wondering whether they would not fare better hereafter by standing up for straight Democracy and letting the Unlonists support the Democratic candidates If they will.

> GUFFEY IS STILL SILENT. Colonel Guffey has not yet been able to explain what became of the Demoeratic vote in Allegheny county, where he lives. He devoted much of his time during the campaign to looking after the Democratic organization in Philadelphia, but when election day rolled around thousands of Democrats in Allegheny county were not qualified by the payment of poll tax. It has developed that Guffey has practically no Democratic organization in his home convention shall meet next year it is likely that Guffey will have some practical questions put to him by Democrats from Philadelphia and other counties where he had interfered against the regular Democratic organization in the interest of the Union

A TOWER OF STRENGTH

More Republicans in Congress Than From All New England.

ORGANIZATION

Why the Keystone State Can Contrib ute So Largely to the Strength and Influence of the Republican Party In the Nation.

(Special Correspondence.) Harrisburg, Dec. 1-With the reonvening of Congress, the influences of the Republican organization of Pennsylvania in the councils of the nation, and the direction of the affairs of the National Republican ormanifestion becomes once more con-

Pennsylvania is represented in the Fifty-seventh congress by 26 Repubticans in the house, a delegation sarger than that of any other state with one exception, and numerically stronger than the combined Republican delegations of all the New England states

The Republicans in the house from Pennsylvania show a gain of six members over their representation in the last house, when the delegation stood 26 Republicans and 10 Demo-

ORGANIZATION STOOD THE TEST. The superb Republican organization of this state has just been put to a very severe test with dissensions brought about by the manipulations of a coterie of wealthy men who are ambitious to hold office, and to serve their personal ends and to advance their individual ambitions have made deals and ecrabinations with Democratic politicians to the detriment of the Republican party and its candi-

Happily the voters of the state refused to follow such leadership, and when the returns were received on election night it was found that after a bitterly-fought campaign the Republican candidates were triumphantly elected, and the nominees on the Republican state ticket were given majorities over all the rival candidates for the second time in five years,

After the last gubernatorial campaign, when it was found that Colonel Stone did not have a majority of all the votes cast, the insurgent Republicans and the Democrats declared that had they united upon one set of candidates they would have elected the governor and the entire fusion ticket.

The result of the recent election, where the insurgents, or Union party men, and the Democrats had the same candidates, showed that when the loyal Republicans of Pennsylvania beome aroused they can defeat any comdination of insurgents and Democrats by large majorities,

NEXT CONGRESSIONAL CAMPAIGN With this fact in mind, the Republican leaders look with confidence to the coming congressional campaign in Pennsylvania.

They recognize the determination of the Democrats in Washington to ignore the free silver and other Bryanite doctrines, and to return again to their agitation for a reduction of the tariff.

This policy was made manifest at the caucus of the Democratic members of the house last week. Con- he is it for mothing but worm food gressman J. K. P. Hall, the Democratic millionaire of Elk county, who is believed to aspire for the Democratic nomination for governor of Pennsylverites of the west and south and havtheories and doctrines and to confine their policy, for the present, at least, to a "raid on the tariff." The protecto a "raid on the tariff." The protec-tive policy of the present leadership of that is not to be enten. the national Republican organization. which the industries of Pennsylvania demand shall not be deviated from, is imperiled by the talk of reciprocity, which to some means nothing more than a reduction of the tariff and the accomplishment of what the Democrats would strive to bring about through their agitation for tariff re-

MANUFACTURERS ARE ALARMED. The recent convention of manufacturers held at Washington to discuss the important issue of reciprocity developed the fact that there are few of those identified with the manufacturing industries of this country who are not fearful that the talk of reciprocity may lead to a serious disturbance of business conditions, quite as serious as would the re-opening of the whose issue of revision of the tariff.

Pennsylvania Republican congressmen will be on guard during the present session of congress to block any Democratic schemes which might affect the manufacturing interests of the Keystone state.

While with the large Republican majority in the present congress the danger from this source is not as great as it may be in the next congress, the party leaders propose to be on the nlert.

In order that Pennsylvania shall continue to wield a potential influence at Washington it behooves every party man to do everything in his power to strengthen the Republican organization throughout Pennsylvania, to discourage the malcontents who have selfish interests to serve and to bury factional differences for the general wel-

Quickly it receives another spear, or bird arrow, from a second kayak man, against whom it turns after treating his weapon in the same manner netimes breaking it, and in this way the struggle is continued until the bear is overcome. The most important precautionary rule which the hunters have to observe is, when during the fight the animal has dived, to keep a sharp okout down into the water in order that kayak. Its white gleam can always seen when it approaches the sarfa and there is time to get away if it be coming too near. When a bear is of countered in the water or mild somewhat scattered lee, its capture is considered a certainty, for, although an excellent swimmer, it cannot get away from a kayak.
