

Calendar for January 1902 showing days of the week and dates from 1 to 31.

It is well that must be cornered in Kansas it is what will have the farmers who raised it conduct the operation.

LOUISIANA just now is full of ardent protectionists, but they make a mistake in voting the Democratic tickets.

Those Englishmen who have asked Mr. Kipling to explain his poem are singularly reckless. He may write another.

One senator, Mr. Teller, is said to be opposed to any isthmian canal. Two members of the House are of a similar mind. It speaks well for Congress that only three such implacables (or unspacables) can be found in the entire body.

An important decision was given by the Supreme Court in Philadelphia last week, that railway companies own the track upon which their cars run and that the public in crossing must concede the right of ownership and must ascertain whether the company, as the owner of the track, is about to use it, otherwise if injury results the company cannot be held liable for damages. This will make it more difficult than ever before to recover from a railroad company.

There are 208 bills before the present Congress providing for the erection of public buildings in as many different places. The total of the appropriations asked for is \$30,000,000. Pennsylvania has applied for 14 buildings, which call for \$1,500,000. The places in this state for which appropriations are asked are: McKeesport, West Chester, Allentown, Washington, Norristown, New Castle, Johnstown, Meadville, Greensburg, Indiana, Oil City, Titusville, Butler and Terry.

A REPRESENTATIVE of the German navy who recently visited American shipbuilding plants reports to the emperor that he found in this country "a splendid body of workmen earning wages from 30 to 50 per cent. higher than those paid in Great Britain and 100 per cent. higher than those paid on the continent."

What most impressed him in this country was the large use of labor-saving machinery, especially of the pneumatic boring, hammering and riveting machines, which, while familiar in the United States, are almost unknown in Europe. He adds that materials for the construction of steel ships are lower here than in any other country.

The bill for the creation of a department of commerce, with its head a member of the cabinet, has not been sidetracked. It has merely been laid over to give some senators a chance to become better acquainted with its provisions. It has an excellent chance to pass. There is a fair probability that it has a majority in each house, notwithstanding the unwillingness of many congressmen to see the cabinet enlarged further. The President, in his message, favored the idea. All the great commercial bodies of the country have urged the enactment of a measure like the one which is before Congress. The chances for its passage this session seem favorable.

The standing of the United States with her neighbors, and especially with those of Europe, is illustrated by some statements made by the London Daily Mail Year Book, for 1902, a copy of which has just reached the Treasury Bureau of Statistics. Under the head of "Wealth," it places the United States at the head of the list of great nations, the figures of wealth being: United States \$81,750,000,000; United Kingdom, \$29,050,000,000; France, \$18,450,000,000; Germany, \$10,270,000,000; Russia, \$12,125,000,000. While the United States heads this list of countries in its wealth, it also shows the smallest nation at indebtedness, the figures being: United States, \$1,125,000,000; Germany, \$5,125,000,000; United Kingdom, \$3,450,000,000; Russia, \$1,350,000,000. The percentage of debt to wealth is given as: United States, 1.4 per cent.; United Kingdom, 6 per cent.; Germany, 8.1 per cent.; Russia, 11.1 per cent.; France, 12.8 per cent.

A Hydra-Headed Oregonian.

Harvey W. Scott, editor of the "Oregonian," is the latest contributor to the output of the free-trade league. Mr. Scott is a protectionist so far as wool and fruit are concerned, but a free-trader as far as the products of other than the Pacific States are concerned. But in theory the Northwestern editor is a free-trader clear through, and boldly declares that "the policy of protection will ultimately strangle itself." Just what that means we do not know and Mr. Scott does not elucidate. He does say clearly, though, that if we don't buy we can't sell the figures of the monthly summary of "Commerce and Finance" to the contrary notwithstanding. Perhaps the real facts concern our foreign trade have not yet reached Mr. Scott. They would tell him that for years we have been selling \$500,000,000 worth more than we bought. Says Mr. Scott: Here in the Pacific States we want trade with Asia, but we cannot have it on an extensive scale unless we take Asiatic commodities. What Asiatic commodities, Mr. Scott? We are using all the tea and coffee we want now. Do you want them to make our clothes for us? Had you rather sell your wool to them instead of the Massachusetts and Rhode Island mills? Can you get your flour to Asia as cheaply and as well preserved as you can to Chicago? You want protection against the Chinese himself, and yet you want to let in his product free. Mr. Scott evidently does not believe in legislation any way, for he says: Every interference by Government is in one way or another an obstruction. So it is, so it is. An obstruction to vice, to crime, to theft, to arson, to murder, to rape, to pillage, to abortion, to riot, and to every sort of savagery and anarchy. Strange views for an American editor to advance. This is laissez faire with a vengeance. But Mr. Scott does not agree with himself. He is out of harmony, all out of tune with the times. He should have lived in the dark ages, or else put off his birth till the millennium. A man cannot be a Republican, a Democrat, a protectionist for his own interests and a free-trader for the interests of others, an Anarchist and a good American citizen all at the same time.—American Economist.

Few people realize the immensity of Siberia. To think of a single state stretching through 130 degrees of longitude and possessing one ninth of all the land surface of the globe is staggering. Let us measure it by countries we are familiar with: The United States and all its possessions and all Europe, except Russia, could be put into Siberia, with land enough left to make thirty-five states like Connecticut. And Manchuria will make seventy-five more.—Correspondence New York Post.

HAD NEVER SEEN HER.

Dr. Hackney of Kansas City Marries Miss Mullock as the Result of a Jeat. Chicago, Jan. 17.—Meeting and marrying a woman whom he had never seen before was an undertaking which Dr. Andrew Stewart Hackney of Kansas City, Mo., accomplished on his arrival in Chicago yesterday. Miss Josephine Mullock, who came from Middletown, N. Y., to meet her fiancée and the physician were married last night at St. Paul's church. The marriage was the outcome of a jeat made by Miss Mullock when a mutual friend told her that Dr. Hackney would make her a good husband. Miss Mullock said she would marry him. A correspondence was started and seen a proposal came from Dr. Hackney which was accepted. Dr. Hackney is 55 and his wife 34. She is said to be wealthy.

Sheriff Wants Reward. New Orleans, Jan. 21.—The sheriff of Jefferson Parish has persistently refused to permit Mr. Thebaud to see the prisoner Kern unless he received a reward for the latter's capture. Gov. Heard was finally appealed to and issued instructions to the sheriff to facilitate Mr. Thebaud in his attempt to identify the prisoner. The identification of Kern by Mr. Thebaud was complete. He will be extradited at once.

NERVOUS EXHAUSTION. An every day history, high strung, nervous, excitable, constant headache, no rest at night, heart weak, appetite poor, loss of weight, strength all gone. Read the following: Mrs. Fred Wholeben, of Gladerun, Warren, Pa., says: "I was induced to use A. W. Chase's Nerve Pills for excessive nervousness. I was so nervous I could not bear a noise or much talking. I was very forgetful—my mind seemed dull. I was listless and tired all the time. The result of the use of the box that I used was remarkable. They toned up the nervous system generally and I work well again, an strong, my mind is clear and noise and talk do not bother me. I am very much pleased with the pills and can recommend them highly to anyone who feels as I did." Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers, or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package. For sale by Killmer Bros., druggists.

REMARKABLE CURE OF CROUP. A Little Boy's Life Saved. I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steer of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until "he threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—John Demont, Inwood, Iowa. For sale by Killmer Bros. Tionesta, W. G. Wilkins, West Hickory, Pa.
