COMMENT ON APPEAL.

Lemley and Hanna Contend That Schley Was Condemned on All Points.

Washington, Jan. 31.—The "comment" of Judge Advocate General Lemley and Solicitor Hanna upon the appeal of Admiral Schley, as submitted to the president by Secretary Long, is less than a third as long as the appeal itself. The commentators begin with the statement that Admiral Schley and his counsel have shifted their ground. They say the chief features of the case were "the retrograde movement"; "disobedience of orders"; "inaccurate and misleading official reports"; "failure to destroy vessels of the enemy lying within sight"; and "injustice to a brother officer." These matters are all grave. The first was that the finest aggregation of American vessels under one command was by Schley's direction turned about and headed for Key West, more than 700 miles distant, when within 22 miles of Santiago, where the enemy's ships were. The second was that Schley deliberately and knowingly disobeyed the secretary's orders overtaking him in his retrograde movement. The third was that Schley's reason officially given for the retrograde movement and disobedience of orders, i. e., "that the flying squadron was short of coal," was not true. The fourth was that for three days some of the Spanish ships lay within reach of the flying squadron and no sufficient effort was made to destroy them. The fifth involves the point of honor. The commentators say:

"Upon all the above named features believed by us to be the most important if not the only really important features, into which the court made inquiry, the conduct of Admiral Schley was condemned by that most distinguished tribunal. Admiral Dewey and Admirals Benham and Ramsay united in their findings and opinion upon all of these several points."

The commentators charge that Admiral Schley now ignores all these grave matters and bases his appeal upon unimportant features of the case as compared with the grave matters above referred to.

The commentators say they recognize the fact that Admiral Schley devoted by far the larger part of his appeal to the question of command, and consequently give that question a proportionate space in their comment. They declare that the question is between Sampson and Schley, both alike interested, and to investigate it fairly both should be heard. Such incidental testimony on this point as came before the court was on Schley's side only and the doors were entirely closed to Sampson.

They add: "To determine an important question of this nature under such conditions is contrary to the underlying principle of Anglo-Saxon justice.

"The weight of testimony is to the effect that the commodore controlled the movements of his flagship the Brooklyn well, with the exception of the loop. But it also shows, not negatively, but affirmatively and beyond question that he did not control the operations of the fleet in general on that day. All this is established not by theoretical deduction or expert or inexpert opinion, but by direct, positive, unimpeached and unimpeachable testimony, given under oath by the admiral's brothers-in-arms."

Miss Stone Not Released.

Washington, Jan. 31.—Unless Miss Stone's captors have abandoned her, despairing of being able to surrender her safely to the agents who have been trying to ransom her, she is not yet at liberty. It is quite certain that the ransom money has not been paid, and that the agents referred to have completely lost touch with the brigands, who have been frightened off by the appearance of Turkish soldiery in their neighborhood. The efforts to secure the woman's release will not be abandoned, but it is feared that they must be renewed in another direction, the present line having been broken.

Sampson and Cromwell to Be Retired.

Washington, Jan. 31.—The navy department has issued an order announcing that Rear Admiral W. T. Sampson and B. J. Cromwell will be placed on the retired list on the 9th proximo on account of age. Admiral Sampson is now in this city on waiting orders, his health having compelled his relinquishment of active duties several months ago. Admiral Cromwell is in command of the European station.

A Great Discovery.

Not Made by Accident.

Great discoveries are not always made by accident but often by perseverance, constant study and experience. Such was the case that resulted in the discovery of Thompson's Barosma which is remarkable for its cures in Kidney, Liver and bladder troubles, also Sciatic Rheumatism. Barosma is remarkable also in the fact that the cures it makes are **Permanent.**

A Serious Case Easily Cured.

The third dose of Thompsons' Barosma made me feel like a new man. I suffered about a year with pain in the back, side and groin. My hands, arms, and side of face became numb; would wake up numb all over; had to get out of bed and go through gymnastic exercises to get asleep. I made up my mind to sell out the jewelry business, as I lost thirty pounds of flesh in one year. I am very thankful I took Thompson's Barosma and shall remain in Titusville. Any person afflicted as I was can call on J. J. Borne, jeweler, 29 West Spring street, and learn what Barosma, Backache, Liver, Kidney and Lumbago Cure did for me. It is a valuable remedy. The above cure was effected five years ago and I have been well ever since. J. J. BORNE.

Cured in Four Days.

About twenty years ago I contracted a sprain and lumbago, causing numbness in back and hips, which confined me to my bed. Capt. S. R. Smith called on me and said: "Get a bottle of Thompson's Barosma," which I did taking large doses and to my surprise in about four days I rolled out of bed a well man. Although this was twenty years ago, I have had no return of the symptoms since.
