Don't forget that all winter goods in our store are on the "Get Out" list. You name the piece; we wrap it up.

The Clearfield Journal states that W. Cook will build a large saw mill at Gramscott, in that county, and that seven years will be required to cut the timber on Mr. Cook's recent purchase in that vicinity.

The Sheriff of Jefferson county found it didn't pay to hold the office under the present prosperous condition of the times (the Republican kind, you know) so he resigned as soon as his son became of age, and Governor Stone appointed him.

Following is the list of letters remaining unopened for in the Tionesta, Pa., Post Office, for the week ending Feb. 12, 1902: T. J. O'Dell, Jas. Abrahams Jr., Mr. Nick Eikenberg, Mr. Henry Wenk, Mrs. Elias Smith.

A well known railroad lumberman of Butler county is quoted as saying that good hardwood for railroad work is getting scarce, and that the tremendous demand for piles and new bridges in and around Pittsburgh is rapidly depleting the forests.

The winter fishing through the ice on Chautauque Lake is attracting greater crowds than ever this year. The spearing is on for two days in each week, during which time there are said to be more houses and persons on the lake than in the villages.

Signal, on the road between Clarion and Brookville, has a case of smallpox, the victim being a man named Walters, who came home on a visit from the lower oil country. The schools have been closed and the countryside is in the throes of a campaign of vaccination.

Cecil Linwood, infant son of Mr. and Mrs. C. J. Lattin, of White Hill, Pa., died Feb. 1, 1902, after an illness of about 10 days of congestion of the brain, aged three months and three weeks. Funeral services were held in the M. E. church Sabbath afternoon at 2 o'clock, Rev. H. K. Steele officiating.

Dave Trainer, the noted horse thief, escaped from Clarion jail Monday night by locking the Sheriff in a cell when that official was off his guard. The culprit was recaptured the next day and returned to jail.

The W. C. T. U. will hold a due social at the home of Mrs. S. D. Irwin, Tuesday evening next, February 13. Light refreshments will be served. A cordial invitation is extended to all. The members are all expected, of course.

L. Agnew purchased a fine black driving mare at Warren on Monday, and C. Amann and E. W. Bowman traded their sorrel to a Titusville party for a bay mare that goes "down the pike" at a pretty good clip, and they are putting up a line of talk that they are going to make Jim Haslet "cut out" the chicken business and pay a little more attention to grooming up his nags. We'll pin our faith on Jimmie.

The farmers' institute will begin its sessions at the court house next Friday afternoon, and continue till Saturday evening. The program which has already been published is sufficiently varied to afford all a profitable and interesting time, whether a farmer or just a common every day fellow. All who can possibly do so should attend the institute as they are assured of getting many good pointers that will repay them for time spent.

Do not forget the date of the last number of the lecture course for this winter, March 1st. Prof. DeMotte has no superior on the platform. His lectures—"The Harp of the Senses," is illustrated with the stereopticon and cannot fail to entertain and instruct old and young alike. He is the first man on the platform to popularize scientific methods as applied to character building and has made a tremendous hit wherever he has appeared.

The Puck's Spirit recently donned a handsome new dress in which it looks prim and gay as the proverbial summer Miss. Editor Smith is sprucing up preparatory to going to Congress, which will happen this coming fall. Can't help it, you know, for the people of that district reserve a good legislator the minute they set eyes on 'im, and the talented and good natured editor of the Spirit has dodged them as long as they'll let him, so now he's got to go.

While assisting the manager, W. A. Wray, to make some changes at the regulator which controls the supply of gas for the town of Tiersburg last Thursday, and forgetting that a jet under the apparatus was burning, H. H. Stanley was severely burned by the explosion which followed the disconnection of the main line. His hands, face and head were all very badly burned, but fortunately his eyes escaped injury except the severe scorching of the lids, and it is not thought that any serious results will follow.

If we were going to do any considerable amount of churning we'd call on Scowden & Clark's and get one of those old churns that seem as though they might almost do the churning themselves. They are the steekiest thing in that line that has ever been offered for sale in this market, and the old-fashioned dasher churn is surely a back number when set up along side of this article. Easily manipulated with a crank motion, and no trouble to clean them which cannot be said of most patent churns.

The home talent production of "The Deacon" at I. O. O. F. hall last Friday evening was all right. The performers had the drama well in hand and gave the packed house which greeted them the full money's worth, and the audience was well pleased. Many were turned away because every seat and every inch of standing room was taken up, and so the play was repeated Saturday evening for the benefit of those who were unable to get in the first night. The young people are to be congratulated on the excellent rendering of a good play.

A dispatch from Susquehanna, Pa., under date of Jan. 25, says: "The famous bell heaver which at intervals for years has been seen in Pennsylvania, Delaware and New Jersey, was seen near Starrucca, Wayne county, to-day. As the bird passes through the air a weird sound is produced. How the bell became attached to the bird is a mystery." Some years ago J. H. Wentworth of Smoky Hill, two miles from Tionesta, liberated a bird of this description after having attached a bell to it. He believes the one mentioned in this dispatch is the identical fowl, and no doubt it is.

An exchange says that one of the best foods to make hens lay in the winter is boiled potatoes mixed with wheat bran. For 50 hens boil a peckful of unsalted potatoes, and when done, drain; add a little skim milk or butter-milk and three or four quarts of bran. Mash all together, and if ground meat scraps are handy put in a pint and add a teaspoonful of black pepper. Feed while warm. This is better fed in the morning, but will serve very well to an afternoon ration. Feed about 20 cents of hot slightly browned corn in the morning and a peck of above mixture in the afternoon and your hens can't help but lay eggs.

Trains on the "Penny" have been shobbering along at all hours of day and night during the past week, howsoever they have all come through some time during the 24 hours, while other roads have been completely blocked. The P. & W. narrow gauge has run but one train between Foxburg and Kane since the 21st inst., and that one was still stalled near Kane at last accounts. The people of Marienville and vicinity have had no mails for nearly a week, and such a thing as freights have not been thought of, so that provisions of all kinds are getting scarce, with snow drifts 10 and 12 feet deep in the public roads, and the horses out at Clough's feeding on sawdust and leeches. The storm seems to have switched off again, however, and the probabilities are people will soon be shopping around in slush ankle deep, with plenty to eat and read, and with coal and gas to burn.

"A Lady Against Whom the Mormons of Utah Are Angry." Mrs. J. H. DeVore, a returned missionary from Utah, will speak in the Presbyterian church next Sabbath evening, February 10th. She comes under the auspices of the Woman's Home Missionary Society of that church. Mrs. DeVore was for a time resident of the Mormon capital; she was so outspoken against the evils of polygamy that an attempt was made upon her life. Amidst exciting scenes she was shot at and the American flag was outrageously dishonored. A price is now set on her head by the agents of the Mormon church. She is an eloquent speaker and all should hear her, especially as Mormonism is growing near home. Last evening person attend and help by their presence to put down this disgraceful religion.

Letter to S. D. Irwin. Tionesta, Pa. Dear Sir: You paint lead and oil, don't you? Do you know why a house turns flat in spots and streaks in a few weeks, before the paint has had any chance to chalk or wear.

Devore lead and zinc don't flat. It's as glossy as ever until it begins to wear; it keeps its gloss for two or three years. When the gloss begins to go, the paint is beginning to go. It is the first sign of wear—it ought to be.

We suppose the flaking is due to water in lead; but why it should flat in spots and not all over is more than we know. There is water in all white-lead in the making. We dry it out; perhaps nobody else does.

Yours truly, F. W. DEVORE, & Co. P. S.—Jas. D. Davis sells our paint.

Board of Health. At a meeting of the Board of Health of Tionesta Borough, held February 2, 1902, the following actions were taken: Whereas, the Oil City Board of Health reports four cases of smallpox in that city, and by newspaper reports the disease exists in several places in the State; that one person, affected, had gone on the R. train from Kinzua to Oil City, it was resolved that the Board of School Directors be requested to enforce the law relative to vaccination; and that notice of this action be published in the Vindicator and the REPUBLICAN, that all citizens may be informed of the law relating to vaccination as a preventive of this contagious disease.

We also call attention to Health rule 41 where persons are unable to get vaccinated. Mr. Wheeler Got Rid of His Rheumatism. "During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly get about, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Norfolk, N. Y. Sold by Killmer Bros., Tionesta, W. G. Wilkins West Hickory, Pa.

Some Big Lumbering Figures.

The following details of lumbering operations that will be carried on in Forest county in the future are taken from the Brookwayville record: It is the intention of the Salmon Creek Lumber Co. to operate three well equipped saw mills and a like number of shingle mills and planing mills on the newly acquired territory. It is estimated that there is 600,000,000 feet of hemlock, pine and hardwood on the tract which will be cut out at the rate of 25,000,000 feet a year. One thousand men will be given steady employment and the operations are calculated to last for twenty-five years.

The company has forty miles of railroad running through the heart of the forest, connecting with the Pennsylvania lines at Sheffield, and with the river division at Hickory, traversing most of Forest county. Eight locomotives will be used to haul logs to the mills. The Tionesta creek runs through the company's lands to the Allegheny, affording excellent water facilities to transport lumber to the Pittsburgh market by barges.

It is the intention of the management to put in chemical works and a kindling wood factory to use up the waste and damaged lumber that would otherwise be useless. A tannery is already in operation in the territory and another will likely be built.

An 83d Veteran Passes Away. Many veterans in this county will hear with much regret of the passing away of another of their loyal comrades in the death of Levi Burford who died on Saturday at his home in North Clarion at his home in North Clarion. He was a veteran of the Civil War and served three years and six months in the Eighty-third Pennsylvania volunteers. During this service Mr. Burford was for seven months confined in the Rebel prison on Andersonville. The funeral services were held at the home in North Clarion at 3 o'clock on Sunday afternoon, the pastor of the Evangelical church of that place officiating. The body passed through here on Monday on its way to Brady's Bend where the interment took place.

ATTENTION FARMERS! Have Your Grain Clean When You Sow It, and Get A Better Price For It When You Sell It! I wish to say to the farmers of Forest county that I have taken the agency for the famous "Chatham Fanning Mill," which is a combined grain separator, grader, timothy seed sower, and fanning mill. It is adapted to separating and cleaning seeds and grain of all description. It has a bagging attachment which does away with the labor of one man. It has a capacity of sixty bushels per hour. It is especially adapted to cleaning and grading seed grain. It is easy to turn, and has nothing to get out of order. It will separate wheat from rye. It will take all chaff and chaff out of wheat, and will clean all other kinds of grain and seeds in proportion, and is sold under a guarantee that it will do the work as represented.

Any one desiring a mill will do well to confer with me, as I have a sample mill and am prepared to demonstrate the work this mill will do. A. W. ALDRIDGE, East Hickory, Pa. California. Thirty-days Tour via Pennsylvania Railroad.

The Pennsylvania Railroad Personally-conducted Tour to California will leave on February 25. Passengers will be transported to El Paso, Texas, in special Pullman cars. At the latter point they will be transferred to the "Mexico and California," composed exclusively of Pullman parlor-smoking, dining-room, drawing-room sleeping compartment, and observation cars, which will be used over the entire trip back to New York. While the best hotels will be used where extended stops are made, the train will be at the constant command of the party.

Round-trip tickets, covering all necessary expenses, \$75 from all points on Pennsylvania Railroad except Pittsburgh, from which point the rate will be \$70. For further information apply to ticket agents; or address Geo. W. Boyd, Assistant General Passenger Agent, Philadelphia. 2-12-02

PROCLAMATION. WHEREAS, The Hon. W. M. Lindsey, President Judge of the Court of Common Pleas and Quarter Sessions in and for the county of Forest, has issued his precept for holding a Court of Common Pleas, Quarter Sessions of the Peace, Orphans' Court, Oyer and Terminer and General Jail Delivery, at Tionesta, for the County of Forest, to commence on the Fourth Monday of February, being the 21st day of February 1902. Notice is therefore given to the Coroner, Justices of the Peace and Constables of said county, that they be then and there in their proper persons at ten o'clock A. M., of said day with their records, inquisitions, examination and other remembrances, to do those things which to their office appertain to be done, and to those who are bound in recognizance to prosecute against the prisoners that are or shall be in the jail of Forest County, that they may be then and there to prosecute against them as shall be just. Given under my hand and seal this 27th day of January, A. D. 1902. J. W. JAMIESON, [L.S.] Sheriff.

Confirmation Notice. Notice is hereby given that the following accounts have been filed in my office and will be presented at the next term of Court for confirmation: Final account of A. B.
