Selling

Wall Paper

at Dry Goods Prices.

Do you realize what this means! Do you know that this department store system of ours brings the cost of all grades of wall paper down to half what the regular stores charge?

This may seem like an exaggeration, were we not able to back it up. We are the largest buyers of wall paper within a radius of 100 miles. We buy cheaper than most dealers and by selling at our department store basis of profit we can undersell our competitors fully 50 percent.

If you have any papering to do this spring it will pay you to run down and get our prices. We pay railroad fare on all purchases of \$10 or over, so you can trade here without extra expense and save enough to pay for your time thrice over.

To Encourage Early Buying We Are Now Selling.

A Lot of 5, 7 and 8c papers at 2c roll A Lot of 10, 12 1-2 & 15c papers at 5c roll A Lot of 18, 20 and 25c papers at 10c roll

We have under contract a staff of competent paper hangers, and are prepared to give estimates on all kinds of

Carpets---The Opening Sale.

February brings the news Carpetings, and prices without a parallel in the history of this store. Clearance time is over and done for, and the choicest products of the best Carpet makers in America come forward for first showing.

Over 200 New Patterns of Carpets, a Quarter to a Third Under Price.

We never had so many patterns for choice at the season's beginning. We never had such rich and beautiful carpetings. Orders were given months ago when prices were lower, and special concessions even on those low prices were made on account of the magnitude of our orders. We have clipped a big slice from our usual profits, too, to make the offerings for this great opening sale.

CROP REPORTS.

Wheat Grop of 1931 One of the Largest

Washington, March 11.-The agricultural department has issued the foi. affoat; No. 1 northern, Duluth, 85%c

Until the publication of the census figures of acreage, based on a farm-to- affoat. farm canvass, admits of the making of OATS - No. 2, 511/2c; No. 2 white, any necessary adjustments in the acre age figures of this department, no cuantitative estimate of the amount of grain remaining in the hands of farmers on March I will be made by the statistician. Reports received from the department's correspondents. however, indicate that about 23 per cent of last year's wheat crop is still in the farmers' hands, as compared with 24.5 per cent (128,100,000 hushels) of the crop of 1900 on hand March 1901, and 29 per cent (158,708,000 bushels) of the ercp of 1899 on hand

March 1, 1900. The corn in farmers' hands is estimated at about 29 per cent of last year's crop, against 36,9 per cent (776,200,000 bushels) of the crop of 1900 on hand March 1, 1901, and 37.2 per cent (773,700,000 bushels) of the erop of 1839 on hand March 1, 1900,

Of cats there is reported to be about 30 per cent of last year's crop still in farmers' hands, as compared with 36.2 per cent (292,800,000 bushels) of the crop of 1900 on hand March 1, 1901, and 36.5 per cent (290,900,000 bushels) of the crop of 1899 on hand March 1, 1900.

While, as above stated, and more fully explained in connection with other official reports, no definite quantitative estimates of grain production in 1901 will be made public at present, the reports received by the department make it manifest that the wheat crop of that year was one of the largest ever grown; that the corn crop was the smallest with one exception in 20 years, and that the oat crop was also much below the average.

This consolenous departure from the ordinary relative production of the three principal grains appears to have been followed by a use of wheat as geographically, if not in actual volume, than has ever before occurred.

the New Secretary of the Navy. Washington, March 11 .- Mr. Moody, who succeeds Long as secretary of the navy, is comparatively a young man, being in his 49th year. He is a lawyer by profession, being a graduate of Harvard university. He has eea district attorney for the Eastern district of Massachusetts and has served in the Fifty-fourth, Fifty-fifty, Fifty-sixth and Fifty-seventh congresses, being elected as a Republican Mr. Moody expects to assume charge of his new office May 1.

Bod Indians In Canada.

Victoria, B. C. March 11.-E. L. Kepner, the Hudson Bay company's manager at Fort George, arrived at Quespelle and stated that the indians were endeavoring to take posession of the fort. Attorney General Eberts forwarded instructions to send severat specials to the scene of the trouble and they were to take such steps as may be necessary to quell the disturbance and punish the indians.

A Shepherd Bird. The ankamik, a species of crane, is said to be one of the most intelligent birds known. The bird is used by the natives of Venezuela, South America, in the place of shepherd dogs for guarding and herding their flocks of sheep. It is said that, however for the yakamik may wander with the flocks, it never fails to find its way home at night, driving before it all

the creatures intrusted to its care.

BAROSMA. THE GREAT KIDNEY AND LIVER CURE

Is perfectly harmless in its effects and pleasant to take. Thompson's Barosma cures by gently stimulating the liver and kidneys to excrete from the system all particles of matter that are poisonous, ot only to them, but also to the stomach, nearl, blood and other organs of the

body. Barosma cures are permanent.
When the liver is torpid or inactive the
whole system must suffer, undergoing a
process of slow poisoning; the stomach
is filled with carbonic soid gas, inflaming the mucous membrane or coating of the stomach, causing heartburn, palpitation, undigestion, butter taste on rising, a dull neavy singpish feeling, a desire to sleep, fullness and dizzy-headed less. Thomp son's Barosna is an excellent stomach tonic, assimilating with the food, neutralizing the acids and carrying the bile from the liver if the bowels are costive or in liv r trauble, Thompson's Dandelion and Mandrake Pills should be 5145 used with the Barosma. They are purely 3133 egetable, and will not gripe.
