We are authorized to announce George W. Osmond, of Kinsey Township, as a candidate for Delegate to the Republican State Convention.

OREGON Democrats in their platform demand the withdrawal of the United States from the Philippines. It will be interesting to note how this proposition is received in a Pacific coast State.

FRENCH-TRADERS won't argue from the standpoint of actual observation, so the only way left to deal with them is to knock them in the head with your little ballot.—Moravian Falls, N. C., Yellow Jacket.

THIS year's memorial address at Grant's tomb will be delivered by United States District Judge Thomas Leopold, of Montgomery, Ala., who was among the confederates at the Appomattox surrender.

GEX. FURNISS is for giving medals to the American heroes who defended the flag in Samarra, a course that greatly displeases the slanders who abuse our soldiers because they stamped out a system of treacherous assassination in that island.

SENATOR HOAN'S resolution before the Senate substitutes the last Thursday in April for March 4, as the day for inaugurating a President. The proposed change is one of importance to the health and comfort of the people of the United States and their representatives charged with high responsibilities.

VALENTINE has its penalties as well as its advantages. Texas, which has thousands of afflicted persons at the present moment, has had many serious visitations in the past few years in the way of floods, tidal waves, droughts and cyclones. That State covers such a big expanse on the map that it gets a little of everything, bad and good, which is floating around in the heavens above, on the earth beneath or in the water under the earth. Several of its counties are now suffering from the drought of the past year or two, and deserve the aid of charity throughout the country. The State is so big and so rich however that these calamities are quickly lost sight of, and have no trace even in the neighborhood in which they occurred. For example, a new and grander Garrettsville has risen on the ruins of the one which was destroyed a year or two ago, and even the elder residents of that town are beginning to forget all about the calamity.

THERE has been something doing in State political circles within the past few days. That there have been great efforts making for several weeks past to harmonize certain differences in the Republican fold, is quite notorious, but whether the latest turn of affairs will bring about a settlement or not looks rather dubious. The attitude of Senator Quay on the gubernatorial situation has been somewhat of a question among leaders, and an expression from him has been earnestly sought on both sides, the upshot of which has been that on Saturday last the papers contained a word from the silent Senator to this effect:

"I am a friend of General Elkin, and if I was permitted to name the Governor of Pennsylvania I would name Mr. Elkin. But I regard his candidacy under present conditions as threatening to Republican success upon the State, Congressional and Legislative tickets, and I am a delegate to the Republican State convention I cannot support him."

"I have no candidate for the position of Governor or any other position. The selection of candidates for the convention, which I believe will be an intelligent, impartial and deliberative body."

Attorney General Elkin says he will stay in the fight to the finish, no withdrawal of Senator Quay's refusal of his support. What the outcome will be remains to be seen. At any rate the party, by its chosen representatives in the convention will decide the matter on the 11th of June, and whoever the nominee, he will be elected, because he will be a clean man in whom the people have confidence.

SAN FRANCISCO'S mayor has planted in a public square of that City a young elm from Canton, Ohio, as a memorial to the late President McKinley. Trees are a form of monument that deserve more attention in this country.

Democratic Still Pond. There is a game the children play, called "Still Pond." One player is blindfolded and the others move around until the leader calls "still pond, no moving." Then the blindfolded one tries to catch some one else, and if possible to tell who it is without removing the bandage from his eyes. If successful the player so caught becomes "it" for the next game.

In much the same way the Democratic party is seeking out a leader for the next national campaign. It has no settled policy, and a majority of its members agree that it has no platform that may not readily be dispensed with or reversed if the circumstances seem to require it. In Congress and outside the only thing it can do is oppose whatever the Republicans propose and criticize whatever the Republicans do.

And so the Democratic party is hunting around in the dark for a statesman, and all the Democrats who have aspirations are keeping very still and quiet, for the reason that whenever any one of them makes enough noise to attract any attention all the others unite in a loud whisper: "For goodness sake, don't catch that one."—Colorado Springs Gazette.

Whose Ox is Gored? The manufacture of beet sugar in the United States has largely increased during the year. In fact, it has nearly doubled. In several States, and notably California and Michigan, this has become one of the leading industries, and has resulted in a material advancement of farm values. It is not surprising, therefore, that those States protest strongly against the reduction of the tariff duty on sugar for the benefit of Cuba or any other country.

This opposition is born of self interest, which is more or less the inspiration of protective duties in general. If the chief industries of this country were the cultivation of beets and the manufacture of beet sugar, it goes without saying that our people would be strenuously kicking against any reduction of the duty on sugar. It is also safe to say that if the industry of Cuba pertained to iron and steel instead of sugar and tobacco, there would be a howl against the reduction of the tariff on those articles which would extend from Maine to California, and many of the howlers would be those who now favor the reduction of the duty on sugar. It makes a great difference whose ox is gored, and people should bear this fact in mind in considering the important question of Cuban reciprocity.

The sugar industry of this country is largely in the interest of farmers, who, comparatively, have derived little benefit from a protective tariff. While there have been booms and booms in other lines, agriculture has languished to the extent of reducing the value of farm lands from 40 to 60 per cent. The sugar men owe the facts to suit in their contention, and also claim that as the sugar manufacturers of Cuba were established before the Spanish war, Cuba will be but little more dependent upon than formerly upon the United States for a market for her crops.

It is claimed by some that a reduction of 50 per cent of the duty on sugar would not severely affect the beet sugar interests of this country. This is denied by the manufacturers, who stoutly resist the 20 per cent. reduction and evidently intend to discipline any of the Congressional representatives who may vote for such a reduction, as evidently they have the power to do in several States.—Penn Yan, N. Y., Express.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and inorganic surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

A Matter of History. The Chicago, Milwaukee & St. Paul Railway, popularly known as "The St. Paul Road," began the use of electricity for train lighting in 1888. In that and many ways it has been a pioneer in the adoption of comforts for the traveler. In building the world famous Pioneer Limited trains a mark was set in luxury and safety of cars that has never been equaled and probably never will be. 4-10-02

Travel Like Princes. Those who saw the special train in which H. R. H. Prince Henry of Prussia made his tour of the United States are comparing it with other trains in regular service, and it is admitted that none of the cars in the train compare favorably with the buffet, compartment and standard sleeping cars of the Pioneer Limited trains of the Chicago, Milwaukee & St. Paul Railway in duty, service, interest, Chicago, St. Paul and Minneapolis. The people of this country have the satisfaction of knowing that at any time they cannot only travel like Princes, but can get much better service. 4-10-02

STOLE FOR TEN YEARS.

Italian Makes Remarkable Confession of Serial Embezzlements. Washington, Pa., April 14.—Giovanni Ghiselli, an Italian of Charleroi, was given a hearing on a charge of stealing \$9,622.40 from P. Sessi, an Italian grocer of Charleroi, by whom Ghiselli was employed. He was held for court and the case was later compromised with the district attorney by Ghiselli refunding the money he was charged with having stolen and Sessi paying the costs.

Sessi alleges that since he took Ghiselli into his employ 10 years ago he has been missing money steadily. His suspicion was first directed to his employ when the latter recently took a trip to Italy and information came to Sessi from a friend there that Ghiselli was spending money lavishly. He set a trap by marking some bills and his suspicions were confirmed. He at once made an information before Justice T. H. Provost of Washington, who sent Constable James Lane to Charleroi with a search warrant.

The constable found over \$6,000 in Ghiselli's trunk, including some of the marked bills. When confronted with this evidence Ghiselli confessed and promised to make restitution. He admitted that he had been embezzling from Sessi systematically for 10 years.

STORM KEPT SWAIN.

Heavy Storm Prevents Him Meeting Sweetheart on Nuptial Day. Washington, Pa., April 14.—As a result of the terrific snowstorm which swept over this section last Tuesday Timothy Campbell, a young farmer of West Bethlehem township, this county whose marriage with Eva Smith, who lives in a neighboring township, was scheduled for that day, is still a single man, and the girl of his choice now refuses, on account of his faint-heartedness, to have the delayed ceremony performed.

Campbell and the girl had been engaged for some months, and had arranged to have the matrimonial knot tied by a justice of the peace on Tuesday afternoon. Snow fell all Tuesday and by noon it had reached a depth of 25 inches. Traffic on country roads was practically blocked, and Campbell was unable to reach the home of his fiancée, although he made several attempts on horseback and in a buggy.

As soon as roads permitted travel the next day he went to the Smith residence and attempted to explain matters, but the girl refused to take any excuse and declared their engagement off.

Suspects Four Play.

Sharon, Pa., April 14.—Coroner T. O. Hazen of Sharonville was called here to inquire into the drowning of Mrs. Kate Washin, aged 52 years. Mr. Washin believes his wife was the victim of foul play. He claims that she wore two rings, one valued at \$15 and the other \$5. When her body was found in the river in the rear of the First National bank at 7 o'clock in the morning there were no rings on her fingers. In her right hand a 25-cent silver piece was found. A shawl floating on the water was observed by William and Frank Maculey, who were on the way to the barn to feed the horses. When they lifted the shawl they were startled to find the woman's body.

College Widens Field.

Washington, Pa., April 12.—The faculty and trustees of Washington and Jefferson college are making preparations to improve the institution. Professor Norman Duncan of the University of Toronto has been elected adjunct professor of the English language and literature to assist Professor William C. McClelland. Professor Edwin Linton has gone East to inspect the laboratories at several universities, and it is the general belief that a new biological laboratory will be established.

Makes World Blast Record.

Youngstown, O., April 14.—No. 1 furnace of the Ohio works, National Steel company, during March made 19,734 tons of iron. This is the largest monthly output made by any furnace in the world.

REDUCED RATES TO RIDGWAY.

Via Pennsylvania Railroad, on account of I. O. O. F. Anniversary.

On account of the meeting of the Independent Order of Odd Fellows' Northwestern Anniversary Association, to be held at Ridgway, Pa., April 29, the Pennsylvania Railroad Company will sell extension tickets to Ridgway from Waterford, Farandville, and intermediate stations, including stations on the Sigo Branch; from Cory Centerville, and intermediate stations; Tionesta, Corydon, and intermediate stations, including stations on the Kinross Valley Branch; from Bullis Mills, Emporium Junction, and intermediate stations; Larabee, Johnsonburg, and intermediate stations, at reduced rates (minimum rate, twenty-five cents).

Tickets will be sold on April 25 and 26 and will be good to return until April 28, inclusive.

For specific rates apply to ticket agents.

A New Departure.

The Chicago, Milwaukee & St. Paul Railway has recently put in service on its Pioneer Limited trains the largest and handsomest dining car ever built. It is 22 feet in length from tip to tip, and its body is 6 inches wider and higher than the usual dining car. It seats 36 people comfortably in movable chairs, and has a kitchen large enough to permit the working of six cooks which, with six waiters and a conductor make up the crew. The dining cars heretofore in service did not provide sufficient space to properly care for the large number of patrons of the Pioneer, so that it became necessary to have a larger car. 4-10-02

A VALUABLE MEDICINE.

For Coughs and Colds in Children. "I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cramer, Esq., a well known watch maker, of Columbus, Ohio. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." Sold by Killmer Bros., Tionesta, W. G. Wilkins, West Hickory Pa.
