TWO BIG BATTLESHIPS

Two Armored Cruisers and Two Gunboats.

Grain and Meat Higher-Underground Railroad - Queen Wilhelmina-Editor's Trial - Steamship Merger. Death of Ex-Secretary Morton-Valuable Old Bible-Dynamite Outrage.

The house committee on naval affairs has completed the naval appropriation bill The most important item, as to the new ships, was left until the last, and as finally determined upon was as follows: Two battleships of about 16,000 tons displacement, to cost exclusive of armor and armament \$4,212,000 each; two armored cruisers of about 14,500 tons displacement each, to cost exclusive of armor and armament, \$4,659,000 each; two gunboats of 1,000 tons displacement, each to cost \$382,000.

The following provision is made "That the secretary of the navy may In his discretion and so far as in his judgment is practical, direct that any or all of the vessels herein authorized be built in such navy yards as he may designate.

Provision also is made for building one of each class of ships on the Pacific coast and that no contractor whall build more than one battleship cruiser or gunboat.

The 16,000 ton battleships will be the largest ever authorized for the Amer ican pavy and among the largest warships affoat.

Butter and Eggs Dropped.

Despite, and indeed partly because of, marked irregularities in weather conditions and extreme temperatures, accompanied by deterioriation in the winter wheat crop of the Southwest, general business and speculation have been of a very full volume for this season of the year. Hetail demand was relieved from the incubus of backward weather by the hot wave which swept over a large part of the country this week. This has resulted in a fair reorder business for the wholesalers and Jobbers in the East, but the talk of erep damage put a check upon demand in the Central West and Southwest. The cereals and to a lesser degree hog products generally responded promptly to the Southwestern wheat

damage reports, which, coupled with heavy decreases in the visible supplies. particularly in Manitoba and Northwest, resulted in the highest prices of the crop season being reached for cash wheat, Corn, too, almost broke the season's record. Crop reports to Bradstreet's indicate that beyond doubt the Kansas wheat crop has been burt by the drought and

hot winds. Nothing in excess of three-quarters of a crop is looked for even by the most sanguine, while 60 per cent of last year's yield is confidently

Plans For Auxiliary Baldwin-Seigler Expedition.

Believed the America Is Fast In the Ice-Effort to Meet Baldwin-After Relieving the America Mr. Champ Will Establish a Patrol Covering Baldwin's Route.

New York, April 29,-Plans for the auxiliary Baldwin-Seigler expedition to pelar regions have been completed. The steamer Frithjof, which with the America conveyed the Baldwin party G. F. Switt, Ogden Armour, J. Lyman to Franz Josef Land, has been chartof Hammond & Co., Edward Morris of ered for the work and will depart from Tromsce on July 1. The auxillary expedition will be directed by W. C. Champ, secretary to William Siegier, who will sail from Europe on the steamer Cymric on May 23. The remainder of the party will leave on the steamer Pretoria on June 7. Mr. Champ and all of his assistants have had experience in Arctic regions. The Frithjef is now in drydock. She will again be commanded by Captain Kjeldsen, whose work in the Arctic has been conspicuous,

The Frithjof will go from Tromsoc to Camp Siegler on Alger island, which is in 80:24 north, and there re ceive the last instructions left by Baldwin, It is believed here that Baldwin has worked to the northward of Alger island and that the America is fast in the ice. When the America is found an effort will be made to refill her bunkers with coal and work her out of the ice pack. It is thought that Haldwin used the America for with sledges, establishing caches preparatory to the dash to the pole. Baldwin's associates here are of the opinon that Baldwin began his northern movement for the pole about the middle of February and that he will reach the highest point about the middle of June, and the Frithjof expedition is timed to meet him.

Balwin has always believed that he would find a drift that would take him out by way of Greenland, but his associates are of the opinion that his return will be across the Ice toward

Tranz Josef Land. Mr Champ's plan after releasing the America will be to establish a patrol with the hope of picking up the Baldwin party. It is planned to cover a stretch of 150 miles east and west across the route most likely to be taken by Baldwin. It is thought that the patrol can be kept up without danger of the America and Frithjof being imprisoned until Sept. 1. If Baldwin is not found by that time or is not reported from other sources a party of six men will be left in a

WOMAN AND PARAMOUR TO DIE Mrs. Edwards and Samuel Greason

Sentenced to Be Hanged. Reading, Pa., April 28.-Mrs. Kat-Edwards and Samuel Greason were sentenced to death. The woman was pale and nervous. She is the mother of five children. Her babe that was born in jail was left in the cell. The mother is dark skinned; so is the little girl, Alma, and hirs. Edwards says that the child is white like its father

who was murdered some time ago. The allogation was that John Ed wards suspected criminal intimacy be tween his wife and Greason, and that he had threatened to kill her if the unborn child proved to be black. Ed wards was killed one night while asleep on his porch and his body was thrown into a cistern. The wife and her alleged paramour, Greason, were convicted of the crime. The cel ored man helped her buy shoes and clothes for her little ones in winter when she had no money. Both were sentenced to be hanged at such time

as Governor Stone may appoint. Mary Edwards, aged 15, the principal witness against her mother and Greason, was not in court. She was one of the defendants, but later was discharged from custody. Two colored men who were held as suspects, were also discharged. Edwards was a laborer and worked in a quarry near Stouchsburg.
