Lord Kitchener Cables Terms of Surrender Were Signed.

Distress at St. Vincent-President Palma's First Message-Went to Top of Crater-Lost 65 Relatives-College Boat Races-Aeronaut Killed. Concentration Camps.

An official cablegram from Lord Kitchener, dated Pretoria, Saturday, May 31, 11:15 p. m., says:

"A document containing terms of surrender was signed here this evening at half past 10 o'clock by all the Boer representatives as well as by Lord Milner (the British high commissioner to South Africa), and myself."

The news of peace in South Africa. contained in the foregoing dispatch from Lord Kitchener, was not expected in London Sunday. Soon after the receipt of the dispatch, however, the news spread to the clubs and hotels and was received with much enthusiasm. The church bells were rung to acclaim the good news. A crowd gathered at the Mausion House and the lord mayor of London, Sir Joseph C. Dimsdale, announced from a balcony that terms of surrender had been signed in South Africa.

Lord Kitchener's definite announce ment of peace was received at the war office at 1 in the afternoon and was communicated to King Edward and all the members of the cabinet before it was given out to the public. The Sunday evening calm of the Lonion streets was broken by enthusiastic singing, shouting and horn blowing.

The hotels, clubs, the public houses and the streets were not the only laces where the people were actively temonstrating their joy; the peace news was announced in the churches Sunday and by some congregations was received with applause. all the churches of London prayers of thanksgiving were offered and special hymna were sung.

Heavy Rains at St. Vincent.

On Saturday the dense clouds formng a canopy over the greater part of the Island of St. Vincent lowered and a severe thunderstorm, accompanied by a heavy rainfall, broke over St. Vincent and continued till Monday, causing the mud streams in the Windward district of Georgetown to be flooded. The water pipes were damaged, several houses were washed away and two lives lost.

The rainfall was so heavy that it disturbed the bodies of the buried victims of the volcanic disaster, and corpses with putrid flesh hanging to the bones were exposed to view,

During the rainstorm the Soufriers oleano appeared to give forth dense clouds of vapor and steam, rising to a considerable height and spreading over the neighborhood. Roaring counds from the mountain also caused apprehension of another eruption. Severe lightning lasted all night Saturrain fell at Kingstown between Saturday and Monday, the heaviest down-

fall since the hurricane. Further interesting incidents which occurred during the recent eruption of he volcano are continually coming to light. While all the residents of the village of Morne Ronde were leaving that place by boat a man who had declined to leave was seen running up and down the shore, screaming for help, and saying that the ground was het and that the water was boiling and that lava was coming down the

President Palma declares it is the purpose of the government to devote its attention to education and especial-"It is very satisfactory to us," says

SPOILED JAIL DELIVERY.

Sheriff's Wife Saw Bricks and Mortar Fall-Plot Was Exposed.

Marietta, O., June 2 .- A sensational jail delivery was frustrated at the county jail at dusk Thursday, through the watchfulness of Mrs. J. W. Morrow, wife of the sheriff. The prisoners confined in the jail were as follows: Harry Beatty, Sam Dyer, Wilford Stiles, Charles Moore, William Gar-ber, Pearl Hill, Hayes Moffatt and Thomas Morris. The prisoners had been restless all day Thursday, and and kept up a continual singing and notse.

Deputy Sheriff Charles Owen made everal inspections, but could discover nothing wrong. At dusk Mrs. Morrow stepped outside of the sheriff's residence when she noticed mortar falling upon a bench, and later two bricks dropped out of the wall. She put the brick back, at the same time crying : "Go back, you rascals." Assistance was called for, the prisoners were subdued and driven into their cells at the point of revolvers. They were then thoroughly searched, but it was found that they had done the work of burrowing through the Iron sheathing, brick and stone wall with an iron bedslat, wrenched from their

bunks, and a table leg. Spikes were used in drilling through the wall. The debris was cleverly concealed and a scrap tub was placed in front of the scene of operations. Morris was the instigator of the attempt. With 10 minutes' more time the men would have made their escape good. The prison was guarded all
