CLEVELAND AND HILL.

Both Spoke at the Democratic Reunion at Tilden Club.

Report of Trade Conditions — Work of Mob at Paterson—Call For National Convention—Cost of Philippine War — President Roosevelt Firm—Cornell Won Everything.

Democratic unity was the keynote of a great gathering of representative Democrats who attended the opening of the handsome new quarters of the Tilden club in New York on Thursday evening. Addresses were made by a number of prominent Democrats and afterwards a collation was served in the banquet hall to the distinguished guests of the evening and a buffet supper was served in the basement for the rank and file.

To the Democrats the event was one of the most memorable for many a day, as Grover Cleveland and David B. Hill, two of the most prominent leaders in the country, met in harmony, seeking to draw factions of their party together. It was the first public political appearance of the ex-president in five years. He spoke first. Ex-Senator Hill spoke after him and then Governor A. J. Montague of Virginia and Colonel W. A. Gaston of Boston delivered addresses.

William J. Bryan had been invited to attend though not to speak but no reply was received from him.

Report of Business Conditions. Conditions governing present and future trade show very sharp contrast. While the immediate present situation is clouded by the rather less favorable industrial outlook and the prospect of an extension of the coal strike in the bituminous fields, the continued favorable progress made by all the leading crops lends assurance that once the present strained condition of industrial affairs is relieved a large and prosperous fall and winter business is assured.

With the exception of too much moisture in the Southwest, interfering with the harvesting, and condition of wheat and continued dryness in Texas spoiling corn and impairing cotton conditions, the agricultural outlook is practically without flaws.

The supply of anthracite coal is slowly ebbing, and the use of soft coal is growing despite city ordinances.

Prices of farm products show the influence of improving crop conditions. Refined sugar is lower after the heavy buying of the past month. Country produce is lower, potatoes particularly so on larger receipts.

The strength in manufactured materials is notable, though print cloths are said to be weak in sympathy with the decline in raw cotton.

Business failures for the week number 177 as against 165 last week, 188 in this week last year; 167 in 1900 and 199 in 1899 and 220 in 1898.

Cornell Won Three Races.

Cornell Saturday afternoon won the greatest triumph of her history in boating. The Ithacans literally swept the Hudson, winning all three events in the inter-collegiate regatta, the 'varsity, the freshmen and the four-oared races.

In each race the crews, coached by Charles Courtney, had to fight all the way from start to finish for victory. In only one of the three races did the Ithacans dare at any time to let down on their speed.

The Wisconsin boys won the second honors of the day and to them belongs great credit for the splendid fights they made in the 'varsity and freshmen races. In both of which events they finished strong second to the Ithacans. In all three races Columbia finished third. In the four-oared Pennsylvania was second, but in the 'varsity race the Quakers finished in the fourth place, and in the freshmen race they were fifth.

The University of Syracuse beat the Quakers out for fourth place in the freshmen event, and in the 'varsity Syracuse fought Georgetown out in the last few lengths, beating the boys from Washington by less than a yard at the finish line.

In none of the races were the records touched, but in all three events the times were not far above the fastest that have been made on this course.

Paterson in Hands of Mob. Paterson was in the hands of a mob Wednesday and as a result of the riots a number of persons were shot and two at least will die.

There seems to be every indication that the riot was the result of a pre-arranged plan to involve the would-be peaceful element in the affair from the start. For some time past a man named McQueen and another named Galleano, the former an Englishman of well-known violent tendencies, and the latter an Italian of openly expressed love for the red flag, have been in this city. Other agents of anarchic circles have also been quietly fanning the flames.

Chairman McGrath who has held the strikers in leash since he first obtained control on the second day or so of the strike, and who has since stood almost alone between the city and violence was at a meeting and presided. He spoke; so did McQueen. The latter was tame. Then Galleano spoke. McGrath could not understand him but he worked his countrymen into a frenzy.

Instantly a mob formed about him: into it rushed the Italians and then the other foreigners and a moment later the mob led by Galleano swept down Belmont avenue.

Mills were wrecked with stones and bullets by the striking silk dyers helpers or roughs acting for them

"CLEVERLY WRITTEN."

So Say the Operators of Mr. Mitchell's Address.

Mr. Olyphant Says There Will Be No Arbitration—Thinks He Will Operate the Mines With the Men Now on Strike—Speculation on National Convention.

New York, June 24.—President H. M. Olyphant of the Delaware and Hudson company made the following comment on the statement of President Mitchell of the United Mine Workers of America issued in reply to that of the operators, in which the correspondence leading up to the strike was made public:

"Mitchell's statement is misleading and unreliable as to facts and figures. If Mitchell proposes to call out the bituminous miners and paralyze the entire industries of the country he will find that he has taken upon his shoulders a job bigger than he is able to cope with.

"There will be no arbitration that is certain. We will operate our mines again with the men that are on strike now. They will only be too glad to come back and no strike leader will be able to keep them out."

Mr. Olyphant declined to enter into any detailed denial of the assertions made by President Mitchell.

Thomas P. Fowler of the New York, Ontario & Western, said: "I have had no time to read Mitchell's statement. Therefore, of course, I have no comment to offer. When I have read it I may have something to say."

INDEPENDENT OPERATORS.

Contradicted Mr. Mitchell as to the Weight of a Miner's Ton.

Wilkes-Barre, June 24.—Independent operators and superintendents were interviewed on President Mitchell's address to the public. None of the officials seen would permit his name to be used, and there is no one in the region who is authorized to make a statement or give an opinion for the big coal companies. Such official statements or interviews can come only from the presidents of the big companies in New York or Philadelphia.

In the opinion of most of the officials here the address is "cleverly written" and will appeal to those persons who are not familiar with the conditions in the mining regions.

One superintendent, whose views were similar to the others, said: "The assertion that the miner does not get paid for all the coal he mines is not true. The miner is paid for a 2240 pound ton and he has to send to the surface on an average 2,700 to 3,000 pounds of coal, slate and other impurities to get the ton of pure coal. Only about 10 per cent of the coal production is paid for by weight, the other 90 per cent being paid by measure. Attention should be called to the fact that Mr. Mitchell is speaking of last year's prosperity in coal mining, quoted only the Delaware, Lackawanna and Western annual report. That company only had an exceptionally good year because of the peculiar conditions about its mines. The reports of other companies tell an entirely different story to which Mr. Mitchell makes no reference."

The miners' union will make an attempt to shut down the 11 washeries between Pittston and Carbonate that have resumed operations since the strike was begun.

There were no developments in the bituminous phase of the coal strike. News from the west as to how the miners there stand is eagerly awaited.

There is still much speculation as to what the special national convention will do. One of the district officers here said he was of the opinion if the supply of soft coal could be curtailed to a certain point the proposition to call a general strike will not be pressed.

Democratic State Convention.

Erie, Pa., June 24.—Ex-Governor Pattison is here to direct his campaign for the nomination for governor by Wednesday's Democratic convention. Ex-Congressman James Kerr and George W. Guthrie of Pittsburgh, the latter the choice of the Allegheny County Democracy, are also out for governor. Pattison has more instructed delegates than either Kerr or Guthrie, but the followers of Kerr are hopeful of winning by a combination with the Guthrie delegates.

President's Western Trip. Washington, June 24.—The president gave assurances to Representative McCleary of Minnesota that he would stop at Mankato, that state, on his Western trip this fall. A similar assurance was given a committee of Dallas, Tex., citizens. The exact date on which he will visit both cities will be arranged later.

Price of Furniture Raised. Jamestown, N. Y., June 24.—W. E. Griggs, secretary of the newly formed National Association of Upholsterers and Parlor Frame Manufacturers, announces that an increase of 10 per cent in all furniture price lists of the members of the association will take effect on June 25.

Died From Fall From Wagon. Schenectady, N. Y., June 24.—Isaac Christalce, while returning from a picnic, fell from a wagon Sunday, and received injuries that caused his death yesterday.

REJOICING AT ITHACA.

Victorious Crews Received an Ovation on Their Return.

Ithaca, June 24.—For the first time since 1876 citizens of Ithaca welcomed yesterday three winning Cornell crews at one time. As the train bearing the victorious oarsmen pulled into the station cannon boomed a welcome and the cracking of small arms in hundreds of hands added to the din. Every factory whistle in the city was tied down for half an hour as the cavalcade marched through the principal streets.

Two thousand persons joined the line of march and on almost every house Cornell's colors were displayed, as were new brooms to symbolize the clean sweep made by the oarsmen last Saturday. Business generally was suspended. After spending several hours marching around the town the procession halted at the Ithaca hotel, where an elaborate banquet was tendered the athletes. President J. G. Schurman of the university offered the oarsmen hearty congratulations on their victories while the populace accorded a magnificent ovation to Coach Charles E. Courtney, the "old man" of Cornell's navy.

Just before the train bearing the crews reached the city the members of the 'varsity eight-oared crew elected John P. Frenzel of Indianapolis, Ind., as captain for 1903. Frenzel has a long rowing record. He was a member of his freshmen eight and rowed in 1900, 1901 and 1902 second 'varsity crews. He stroked the four oared boat in 1901 and also the second 'varsity this year on Cayuga lake in the race with Harvard and Syracuse. He is in the arts course and a member of the Phi Delta Theta fraternity.

ARRESTED IN NEW YORK.

William McQueen, Charged With Inciting Violence in Paterson, Held For Extradition.

New York, June 24.—William McQueen, an alleged anarchist, who is charged with having incited violence at Paterson last week, was arrested here yesterday.

Magistrate Crane asked McQueen at the arraignment if he had anything to say in answer to the charge. McQueen replied he would like to consult his lawyer.

The court then told McQueen that he would be held pending the arrival of extradition papers, a period of 30 days or less.

McQueen asked if he could consult with his lawyer when he arrived. "You will be in the Tombs," said the court, "and they will tell you there."

The court told the prisoner he could not give bail and McQueen was led away.

Bankruptcy Bill Shelved.

Washington, June 24.—The bill for the amendment of the bankruptcy law which has passed the house of representatives and is now before the senate committee on the judiciary, will not receive further consideration during the present session. The bill was referred to a sub-committee, but a majority of that committee have planned to leave Washington within the next few days. They have therefore agreed that as the session is nearing its close they will postpone consideration until the senate shall convene next December.

Census Employees Dropped.

Washington, June 24.—The final reduction of the census personnel will occur next Monday when 200 employees engaged on special work will be dropped from the rolls, leaving a permanent census force of 750 clerks. The permanent census act, which becomes operative July 1, legislates out of office Assistant Director Wines, one of the first appointees in the census. J. W. Langley, now filling the offices of both appointment clerk and disbursing clerk, will remain as disbursing officer.

Emperor Was Not on Train.

Berlin, June 24.—The dispatch published in the Rappel of Paris that a shot was fired at the train conveying the Emperor of Germany to Düsseldorf is without foundation. The incident is in no way connected with the German emperor and the Rappel's story is doubtless based upon the fact that somebody fired a shot last week into a passenger train going to Düsseldorf. Emperor William was not on board this train.

Fatal Ending of a Quarrel.

Middletown, June 24.—Joseph R. Conkling, a machinist, shot his wife dead Monday afternoon and then put a bullet through his own brain. He threatened his youngest daughter, but she finally escaped from the house. The couple had just had a quarrel and Mrs. Conkling was preparing to leave the house when she was killed. Conkling had been in poor health.

Trouble Expected in Hayti.

Kingston, Jamaica, June 24.—The Cameron line steamer Paloma has arrived here from Hayti. She reports that intense excitement prevails in that republic and that the feeling is growing with the approach of the elections. Serious fighting is considered certain to occur in spite of the efforts of the provisional government to maintain peace.

Three Companies at Fort Niagara.

Washington, June 24.—Orders were issued for headquarters and Companies E, F, G, H, K, L and M, Ninth Infantry, to proceed to Madison Barracks, Sackett's Harbor, N. Y., and Companies A, C and D, same regiment, to Fort Niagara, N. Y.

COLLAPSE OF RIFLE RANGE.

Three Men Caught by Falling Walls and Killed.

Seagirt, N. J., June 24.—The partially completed rifle range caved in at 6 o'clock yesterday, catching three men who were trying to escape before the toppling front walls and the rear wall, crushing them to death instantaneously.

General Bird W. Spencer, the inspector general of rifle practice of New Jersey, and his assistant, Lieutenant Colonel Richard B. Reading, who had only the moment before stopped to talk to the men while on inspection of the work, has most miraculous escapes from the same fate.

The men who were killed were Anson Hale, John B. Marsh and Jacob Schibley, residents of Manassan, N. J. All three are married. Hale leaves a family of eight and Schibley two children.

Last winter the legislature of New Jersey appropriated \$7,000 to rebuild in concrete the butts of the rifle range. The quartermaster general was put in charge of the work. It had been completed with the exception of the frame work in the 600-yard pit. It was here the men were working.

Colonel Olcott says the accident was caused by the men removing the braces too soon. The accident will not interfere with the holding of the interstate contests in August and September.

Failed on Time Allowance.

Island of Heligoland, Germany, June 24.—The English schooner yacht Cicely, owned by Cecil Courtney, which left Dover at noon, June 21, in the race for this port for the German emperor's cup, arrived first, at 6:40 last evening, but she failed to save her time allowance. The Vol Au Vent reached this island at 7:09 p. m. The Cicely allowed the Vol Au Vent 5 1/2 hours and the Leader, which also started in the race, 3 1/2 hours.
