looking Shenandoah.

Two of the borough policemen were shot, one fatally. Joseph Beddall, a leading merchant and a cousin of Sheriff Beddall, was brutally clubbed to death, and upwards of a score of strikers were shot by policemen, and it is expected that many deaths will result.

Change of Motive Power.

The trouble started about 6 o'clock when Deputy Sheriff Thomas Beddail attempted to escort two non-union workers through the strikers' line of pickets. The workmen were dressed in their streat clothes but one of them carried a bundle under his arm and this aroused the suspicion of the strik-The bundle was torn from him ere. and when it was found to contain a blouse and overalls the man was taken from the deputy and beaten almost to death.

In the meantime Beddall opened fire on the mob which had gathered by this time, and emptied his revolver. Two of the shots took effect, one man being shot in the leg and the other in the foot. The deputy and the other strike breaker were compelled to fiy for their lives and took refuge in the Philadelphia and Reading depot.

The depot was soon surrounded by an angry mob of 5,000, who were becoming more threatening and demonstrative every moment.

Shortly after this the entire borough police force arrived on the scene and escorted the deputy sheriff and his man to an engine which had been backed into the depot for that purpose. When the mob realized that their proy was about to escape, they surounded the engine and the engineer was afraid to move. In a few moments the police fired a volley, dispersing the crowd for a brief period and the engineer turned on full steam and

got away with his men. Stones were thrown thick and fast about the heads of the police whereupor. Chief John Fry gave the order to fire.

At the first volley the mob fell back and several were seen to fall. It is estimated that unwards of 1. 000 shots were fired and the wonder is

that more fatalities did not result. More than 20 strikers, all of whom were foreigners, were shot and at least two of them will die: Twelve hundred state troops are en camped on a hill overlooking Shenan-doah. Down in the town where rlot-

ers and policemen fought the bloody battle Wednesday night all is quiet

ing July 31 number 168, as against 178 last week, 160 in this week last year, 173 in 1900, 156 in 1899 and 189 California Earthquake Shocks.

A strip of county 15 miles long by

four miles wide rent with gaping fissures and dotted with hills and knolls that sprung up during the night as If by magic, a village in ruins and hundreds of people fleeing for their lives. are the results of Wednesday night's to Shenandoah. seismic disturbance in the valley of Los Alamos, in the northern part

of Santa Barbara county, Cal. The stricken village appeared like ruins of a city long deserted. A church had been leveled to the ground and not one brick building was left standing. Chimneys had toppled over, frame buildings had been wrenched apart and thrown from their foundations, telegraph and telephone wires had been broken and there is not a building in town that has not been

damaged more or less seriously. Since the first disturbances on Sunday night there have been more than 70 distinct shocks and those who have been keeping records have now given up as the disturbances have become almost continuous.

Omnibus Struck by Train. The band wagon conveying the

llion baseball team to Suburban park Thursday afternoon was struck at the Broad street crossing in Lestershire by Erie train No. 2 and the driver instantly killed and six others were injured, one seriously. Both horses were also instantly killed.

Catcher.Shea of the Illon team attempted to save the Signor boy on the front seat, who had his left leg cut off, but was unsuccessful. Pitcher Hess and his father, who

had come to town to see his son play, were on the rear of the wagon when the train struck and were hurled 25 feet, landing on the tracks.

The wagon was turned completely around and badly damaged. The horses were dragged 250 feet. The train ran nearly half a mile be

fore it could be stopped. Chicago to New York In Canoe. Two young mariners in an open 13foot canoe and dipping their paddles

EUROPEAN DISARMAMENT.

Emperor William Not Inclined to Give It Encouragement.

Berlin, Aug. 5 .- The king of Italy's proposal of a contraction of European armaments is a subject upon which the czar and the German emperor undoubtedly will converse at their meeting at Reval on the occasion of the Russian naval maneuvers.

Emperor William almost certainly will give the suggestion no encouragement. His opinion, well known to ciplomats, is that disarmament is a dream of the future and a fantastic idea when considered in connection with the existing continental situation.

"Germany cannot consent to im-

pair her finest instrument of offense.
