All the Pennsylvania engines are to be re-numbered. The passenger equipment has passed through such treatment that in five years the only lettering on the freight car equipment will be the one word "Pennsylvania," each division losing its identity in this respect.

A Brookville dispatch under date of Aug. 1st, says: Harnatas McCann, a well-known citizen, committed suicide yesterday by lighting a stick of dynamite. His body was frightfully mangled and his home partially wrecked by the explosion. The cause for the deed is not known.

"Not being addicted to the use of snuff," says the "Merely Incidental" man of the Oil City Blizzard, "the beautifully enameled snuff box, which we have received from Prince Henry will be utilized as a bait box." In that case we'd advise the bringing along of the regulation size cork-screw; we haven't any up in this neck.

The attendance at the Free Methodist campmeeting at Pleasantville last Sabbath was immense, being perhaps the largest ever known at a similar gathering in this section. This town and vicinity furnished a large list of attendants on that day, and a rig could not be hired for love nor money. There were many soakings experienced by those who started home early in the evening.

On account of the Elks' Carnival at Oil City, Pa., August 4 to 9, the Pennsylvania Railroad Company will sell excursion tickets to Oil City and return, good going on above dates and good to return until August 10, inclusive, from Titusville, Tidouite, Foxburg, and intermediate stations, at reduced rates (minimum rate 25 cents). Pittsburg rivermen have not known so valuable a summer as the present one for river shipments and for preparation for fall work in a score of years, and probably at no time since the river trade of coal began. There has hardly been a dull day for the coal operators this year, for when low water came in June all the tows had been returned to the upper pools for reloading, after a heavy spring shipment. The month of July has given the unusual and unprecedented shipment of about 27,000,000 bushels of coal and more than 50,000 tons of manufactured products.—Pittsburg Post.

Capt. Wm. McCann of Newmansville, who has been engaged in drilling upon the Hopkins farm for several months past, met with an accident on Monday of last week which is giving him much pain and trouble. He was thrown into the air several feet by the bull wheel, and in his fall hit on his back, striking on a bit-jack. While the injury was painful he did not think it worth while to summon a physician till a day or two afterward. When he did so the physician, Dr. Dunn, found three ribs were fractured. Mr. McCann was able, with much suffering to reach his home, but will be laid up for a number of weeks no doubt.

Harry P. Gilford, of Edlinville, spent Wednesday at the county seat. Mr. Gilford says that the hail at r.m. which visited Washington township last Friday did thousands of dollars worth of damage. Corn is shredded, oats stripped, buckwheat beaten down and every growing thing badly damaged. The farmers are badly discouraged.—Clarion Republican.

This storm did not strike this immediate vicinity, but one edge of it reached to within about five miles south of here and seemed to cover a strip of country about five or six miles wide, which it proceeded to paralyze most effectually. There wasn't much left of vegetation in its track.

One of the important business changes that has been consummated within the past week is the purchase by Dr. J. C. Dunn, one of Tionesta's leading physicians, of the Killmer Bros. drug store, the transfer having taken place the first of the week. Dr. Dunn will give his personal attention to compounding of all subscriptions, and will have as his assistant that well-known and experienced pharmacist, Jas. H. Pones, who has had years of experience in this line. C. E. Felt has been secured by the doctor as general clerk, and "Christy" will look carefully after the wants of the store's many patrons. Success to the new order of things.

Rev. O. H. Nickel, at the parsonage yesterday performed the ceremony which united Mr. David S. Gilmore of Helen Furnace, Clarion county, and Miss Mary E. Hoover of Barnett twp., this county in holy wedlock.

Let a man once injure you and he is in a fair way to become your bitterest enemy; let a man do you a favor and ten to one he will become your best friend. When a man shows an unfriendly spirit towards you do not jump to the conclusion that you have wronged him. You may have done nothing wrong, but because they have done you one, the former nature is hard to fathom. The foregoing, from the Clarion Republican, is true to the letter. Haven't you ever noticed it? Can any one tell why it is so?

An Erie county man, according to a rural exchange, wrote to a county paper a long letter about the equal rights question. He quoted extensively from the reports of several women's gatherings to prove that the movement was growing. He wound up by saying: "I ain't got no objection to widmen votin'. I suppose in our town they'd use the regulation Australian ballot. I wouldn't kick at all if that law is lived up to. I'm told the old, original Australian ballot law says the polling booth must be fixed so the legs of the voter can be seen to the knee."

On account of the meeting of the Western Pennsylvania Fireman's Association at Jeannette, Pa., August 11 to 16, the Pennsylvania Railroad will sell excursion tickets to Jeannette and return August 19 to 15, good to return until August 16, inclusive, from Pittsburg, Altoona, and intermediate points, on the Pittsburg Division, including branches; all stations on the Cambria and Clearfield, Western Pennsylvania and Monongahela Divisions, and from all stations on the Buffalo and Allegheny Valley division and branches in the State of Pennsylvania, at reduced rates (minimum rate, 25 cents). Miss Edith Hilbert, sister of Mrs. H. B. Felt of this place, died at the home of her mother in Clarion, on Monday of this week. A little more than two weeks ago she was treated for appendicitis, the operation which she was obliged to undergo being of such a serious nature as to discourage her physicians almost from the first. Miss Hilbert was aged 22 years, being the youngest of a family of four daughters and three sons. She was an exemplary young lady, full of energy, a graduate of the Clarion Normal, a member of the Presbyterian church, and a shining light in the society in which she moved, and which her many endowments of mind richly adorned. Mr. and Mrs. Felt departed Monday afternoon for Clarion, where the funeral was held yesterday afternoon. Miss Edith visited her sister here last summer and made the acquaintance of many of our young people, who will read of her unexpected taking away with deep regret.

Fatal Accident at Kellettsville. John D. Edmiston, employed by the Salmou Creek Lumber Co., at Kellettsville, met with a fatal accident while at work in the lumber mill at that place last Friday morning. Mr. Edmiston was doing the blacksmithing for the company and had gone on the mill that morning to take the place for another working party for that day only. He was assisting to take the lumber away from the saw and was caught by a "live roller" and drawn into the machinery, and before he could be extricated, or the machinery reversed he had sustained injuries from which he died at 11:45 a. m., the accident happening about 7:30. The unfortunate man was aged 25 years and leaves a wife and two small children, besides numerous other relatives and friends to mourn his tragic death. His remains were taken to Wolf's Corners, Johnstown post-office, his former home, and where his parents reside, and given burial in the cemetery at that place on Sabbath last.

Identified Her Brother as Suspected Murderer. William H. Coniber was arrested last week in Meadville on a charge of murdering Horace Halpin, a farmer living near Batavia, N. Y., on September 14, 1890. The story of the crime briefly stated is as follows: Halpin, who was a huckster, was seen driving on the road leading to Batavia by a neighbor and Coniber was in the wagon with him. In a short time thereafter the dead body of Halpin was found in his wagon, his pockets rifled and Coniber was missing. On Tuesday a stranger, who had recently arrived and secured work in the Erie railroad yards, registering at the Kepler house as J. McCoy, was pointed out to the police as Coniber. A letter was found in his pocket addressed to Mrs. Mary Barry, of Oil City. Mrs. Barry, who is the wife of John Barry, a railroad man, lives on Emerald street, Oil City. She was taken to Meadville and fully identified the suspect as Coniber, her brother. She is 25 and he is 23 years of age. Coniber has gone under several aliases. He had spent the last two winters with her in Oil City, and if he was implicated in any crime since his boyhood she was not aware of it, as he had given her no intimation of anything of the kind. Coniber will be taken back to York State for trial as soon as requisition papers can be secured from Governor Stone.

Out For A Good Time.

A party of Pittsburgers have secured from the Warren Lumber Co., at Grunderville, a flat-boat 26x170 feet, built by Morgan and his crew at the scaffold at that place. Upon this they have erected a kitchen and a dining room. Over these apartments will preside a colored chef whose name the instigator of the plot refuses to reveal. To protect them from the rays of the hot sun during sleeping hours they have secured three tents. They propose to do all their plundering at night.

They will also take with them a piano, a cooking stove, several cats, a little yellow dog, several lemons, a box of tobies, a box of cigars, bathing suits, a few bites to eat, a shotgun and a barlow knife. The musicians of the party will furnish enough melody to drown the noise of the croaking frogs, and they all expect to have a "jolly good time."

They left Pittsburg yesterday morning and arrived at Warren the same evening, provided they made schedule time. They will not go on board the boat till to-morrow. Just why they will wait until Thursday is not made known, but it is suspected that they will not be allowed to stay in Warren any longer, the authorities having been warned of the coming inflection.

At 3 o'clock Thursday afternoon they will cast anchor and the platical craft will commence its voyage of devastation and destruction. The boat will be allowed to drift during the day, but will be tied up nights, in order to give the pirates an opportunity to pillage. The distance to Pittsburg is about 200 miles, and during the two weeks which will be required to reach that place the intervening territory will be converted into something of a howling wilderness.

The excursionists say they propose to put in the time fishing, telling ghost stories and studying nature. For the latter work they will take with them a microscope and base ball bat. One of the members said they would indulge in a few games of "Old Maids." Every member of the party prides himself upon his fishing ability, and consequently they're worrying about the capacity of the boat.

The party consists of Dr. C. J. Reynolds, formerly of Oil City; C. H. Robinson, L. P. Ross, James Dunlevy, Dr. L. R. Walters, H. B. Kenyon, T. D. Harmon, R. O. Suter, Richard Owen, August Schaelebrand, F. McKewen and Leo Kaufman.

A Strange Cattle Disease.

Wm. Diekrager, whose farm is located near what is known as the "Posy Field," north of the headwaters of Little Hickory creek, in Hickory twp., has lost three head of young cattle by a strange disease, which he nor his neighbors have thus far been able to diagnose. The first symptoms are dullness, followed by a hemorrhage of the nose and mouth, and an apparent oozing of the blood through the pores. The critter lives from 24 to 36 hours after the first symptoms appear, and do not seem to bleed after death. No other cattle in that immediate neighborhood have been affected by the disease, although Mr. Diekrager's father, who lives three or four miles away, lost a head of young stock in a similar way. Can any one name the disease?
