

Calendar for August 1902 showing days of the week and dates.

Republican Ticket.

STATE. Governor - SAMUEL W. PENNY-PACKER, of Philadelphia.

Dates to Remember. The last day for registering voters will be Wednesday, Sept. 4th.

JAPAN is again supplying arms to China, but they are old arms which Japan has discarded.

POLITICIANS who are now talking free trade must imagine that the people are getting tired of prosperity.

BOSTON ants are studying Tagalog, in order to be able to understand their god, Aggy, when he visits them.

It is understood that Col. Bryan is tired of the vaudeville circuit and is anxious to get back into legitimate comedy.

BEFORE Uncle Sam can turn a wheel in the Panama enterprise he will have to stop the revolution already in progress there.

CUBA'S declining revenue is a fresh illustration of the value to a country of business confidence in future competent government.

THE Nebraska volcano has erupted with no further effect than a disagreeable but transitory odor in the public oratories.

THE money question has always been the principal hobby of the Democratic party. This year it bobs up in the shape of insistent campaign funds.

WHEN a Democratic article on trusts comes to a point it invariably lays the blame on a protective tariff. But it is easy to understand, after the experience with the Wilson-Gorman law, why a free trade argument should wear a disguise of some kind.

THE forecaster who read in the stars that Edward the Seventh of England would reign but would never be crowned, says the Kane Republican, enjoyed a brief period of prophetic credit, through force of circumstances which had no relation whatever to the data for his prognosis; but he has met the refutation which sooner or later disposes of all who impose upon the credulous their crude readings of the future.

THERE is a lull in the talk about the Isthmian canal, but the government is doing its part intelligently, and something definite will doubtless be fixed upon by the time that Congress meets next December.

The campaign text book compiled by the Republican congressional committee gives the following comparison of wages paid to artisans in the United States and in Great Britain.

A HOME in the country possesses more individual features of attraction than a dwelling place in a large city, and there is a growing tendency in America, on the part of people of wealth, to adopt the plan of living prevalent in England.

It is very well for the Democrats to make opposition to trusts their chief issue for the forthcoming Congressional campaign, especially if they combine with it a vigorous demand for tariff reductions as applied to trust made goods.

Flashlights of Chautauqua.

BY NANCY C. MORROW.

Just as the sun was sinking behind the western horizon on a beautiful July evening, it played a game of hide and seek behind the forest covered hills of Southwestern New York.

In the midst of such surroundings and broken reveries, comes a timid little creature to enquire for those so near and dear to her in Tionesta.

It is very well for the Democrats to make opposition to trusts their chief issue for the forthcoming Congressional campaign, especially if they combine with it a vigorous demand for tariff reductions as applied to trust made goods.
