### AUTO RAN INTO TREE.

Mr. and Mrs. Charles L. Fair  
Instantly Killed.

Town Sacked and Pillaged—Report  
of Trade Conditions—Scarcity of  
Coal—Boers Saw the King—Out  
laws Partly Hanged—Gunboat Cap-  
tured—Bible Conference.

Mr. and Mrs. Charles Fair of San Francisco, who were related to Mrs. W. K. Vanderbilt, Jr. (Miss Virginia Fair), were returning to Paris from Trouville when their automobile swerved and crashed into a tree 15 miles from Evreux. Both were killed. The accident was evidently due to the bursting of a tire. At the time it occurred the auto, which was capable of running 74 miles an hour, was going at the rate of 62 miles an hour. The manager of the firm which sold Mr. Fair the automobile in which he met his death declared in an interview that he had more than once warned Mr. Fair that he was too imprudent. He said Mr. Fair had the "spend madman" and had met with an accident the first part of June when he collided with another automobile on the avenue Des Champs Elysees, in Paris, but luckily no one was killed. "I attribute the accident," said the manager of the firm, "to the condition of the road where the disaster happened. At this point there is a steep and treacherous incline down which Mr. Fair must have gone at full speed, and his automobile, which was capable of running about 68 miles on the flat, would then have attained a speed of from 87 to 93 miles an hour. Mr. Fair was not a skillful driver, like W. K. Vanderbilt Jr. In fact he had not driven an automobile very much prior to purchasing this machine from us."

### Barcelona Sacked and Pillaged.

Details of the fighting at Barcelona, Venezuela, received at Trinidad by boat show that a terrible battle started on Sunday, Aug. 5, and that on the following Wednesday the revolutionists entered the city. They kept up a continuous firing day and night, destroying houses one by one to reach the center of the city. At midnight on Thursday, two-thirds of the city was in their power. On Friday the government strongholds were carried and the survivors of the government officers tried to escape by the river to the sea. Falling in this they made one last stand, after which at noon Friday they surrendered to the revolutionist commanders, Generals Francisco Monagas and Platero. All the houses in the city were sacked and in some instances inoffensive women and children were maltreated and killed. All stores were pillaged, especially those belonging to foreigners, and the French cable office was robbed.

### The American, Italian and Dutch Consulates were Pillaged, and the Consuls have asked for men-of-war to protect life and property.

United States Minister Downen at Caracas has cabled the United States cruiser Cincinnati to go to Barcelona without delay and to take provisions. The Topela is anchored at Porto Cabello, the Marietta is on the Orinoco, the German warship Falke is at Caracas and the Italian cruiser Giovanni Bausan and the British cruiser Pallua are at La Guatra.

### Report of Trade Conditions.

Weather conditions have been favorable and the country is a week nearer to realizing the largest harvest in its history. Every day that elapses brings nearer the time when the last apparently possible unfavorable crop contingency, an early frost, will have been discounted and confidence in full trade was never more pronounced.

The need of larger than usual quantities of money to move the crops is appreciated, and apparently all possible measures are being taken to facilitate matters in this respect. The physical handling of the crops by the railroad presents a problem which also must be met, and the possibility of a car shortage looms up second only to the necessary financing of the movement itself.

The less favorable features noted are the restriction of trade in summer goods, caused by the cool weather, the continuance of the deadlock at the anthracite coal mines, with the growing nervousness as to supplies and prices if the strike continues until cool weather, and the unfavorable figures of July export trade, caused by projection of last year conditions into the present. Collections as a whole are classed as seasonable.

Business failures for the week ending Aug. 14 number 181 as against 169 last week, 178 in this week last year, 168 in 1900, 172 in 1899 and 195 in 1898.

### Coal Scarce in Buffalo.

The strike among the anthracite coal miners, while not having the effect of raising the price of coal in Buffalo, has made it very difficult for the consumers to get enough coal to meet their needs. With the exception of the Erie Railroad Coal company, there are none of the railroad companies supplying their retail trade. The transportation departments of railroads seized the coal on hand, and have been giving none at all, or a very small amount, comparatively, to their coal departments.

The price of coal has not been raised, and it is not thought that it will be raised. Prominent coal men are

### CLASH WITH DEPUTIES.

Patrick Sharp, a Striker, Killed Almost Instantly.

Conflicting Stories as to What Caused the Encounter—Deputies on Their Way to Colliery Followed by a Crowd Who Tried to Induce Them to Desist.

Nesquehoning, Pa., Aug. 19.—In a clash between strikers and deputies here last night Patrick Sharp, a striker, of Lansford, was shot and killed almost instantly by a deputy. The shooting caused considerable excitement for a time but order was soon restored without any other persons being injured and the town is now quiet.

A deputy named Henry McElmoyle was arrested charged with the killing of Sharp and was taken to the county jail at Mauch Chunk.

The shooting occurred shortly after 6 o'clock. Five deputies were on their way to shaft No. 1 of the Lehigh Coal and Navigation company, just outside of the town. In the center of the town they were met by a number of strikers who began persuading them not to go to the colliery. The officers did not stop but kept on their way.

The strikers, it is said, then began to abuse the men and followed them nearly up to the colliery.

There are conflicting stories as to what actually brought on the clash, but just before the deputies entered the place a shot was heard and Sharp dropped to the ground. The bullet entered his body close to his heart and he died almost instantly. Witnesses say the shooting was done by McElmoyle and that he stood only six or seven feet from Sharp when he fired his revolver. Only one shot was fired.

The deputies immediately withdrew to the colliery and a large crowd gathered about the place. When it was learned that Sharp was dead there was the greatest indignation among the strikers and other town people and for a time it looked as though serious trouble would follow.

Cooler heads among the mine workers, however, prevailed upon the crowd to disperse, using the argument that if there is any bloodshed troops would surely be sent here from Shenandoah. The crowd dispersed and the town soon calmed down to its normal state.

Witnesses to the shooting went to the office of W. R. Watkins, the justice of peace, and made information against Harry McElmoyle, charging him with the shooting of Sharp.

Sheriff J. H. Gombert of this (Carbon) county is at Mauch Chunk. It is reported here that he may ask that a detachment of the troops now stationed at Shenandoah be sent into the Panther Creek valley.

### CLOSING OF SCHOOLS.

After Wounding of Two Gendarmes Sisters were Expelled.

Brest, France, Aug. 19.—After their repulse at the garden wall of the school at Plouzanet, the commissaries decided to await reinforcements. In the meantime Pierre Pichon and Counsellor General Soubricq persuaded the defenders of the school to open the door. After this had been done the sisters walked to the church accompanied by the ovations of the crowd. The commissaries entered the school and made an inventory of the property. They then closed the doors. In the course of the rioting two gendarmes were slightly wounded. The leading inhabitants of Plouzanet have taken the expelled sisters to their homes.

Similar though less violent scenes attended the closing of the schools and the expulsion of the sisters at Folgoet and Saint Mean.

### Lost Bonanza Rediscovered.

Buffalo, Wyo., Aug. 19.—The famous Lost Cabin Gold mine has been rediscovered and its riches are said to be even more fabulous than was ever dreamed of by any of the hundreds of fortune hunters who have for over a quarter of a century searched in vain for the golden crevice in the perpendicular cliff, as described by old Indians who claimed to have been with the war party that massacred the white men who worked the Bonanza. The Lost Cabin mine is on Otter creek, in the Big Horn mountains, sixty miles southwest of this place. The fact of the re-discovery became known here three days ago, and inside of forty-eight hours upward of 1,600 excited men had left for the scene, armed with location papers and other necessary articles for filing on claims.

### Goulds Get a Railroad.

To, do, O., Aug. 19.—The annual report of the Ann Arbor railroad is of interest because the property formally passed into the hands of the Gould interests. At the annual election Saturday George Gould and C. W. Kreck were elected to the directorate. For the present year the gross earnings were \$1,292,469; net earnings, \$529,254. The gross revenue was increased about 8 per cent over last year. The marine service across Lake Michigan contributed \$24,656. In other words, more than 46 per cent of the gross freight earnings were derived from the car ferries.

### Y. M. C. A. World's Congress.

Christiania, Norway, Aug. 19.—About 1,000 foreign delegates representing 31 nations are here to attend the Young Men's Christian Association World's congress, which opens today and lasts until Aug. 24. The United States sent 25 official representatives.

### PRESIDENT'S GUESTS.

Members of Congressional Committee Discussed Fall Campaign.

Oyster Bay, Aug. 19.—Congressmen Babcock, of Wisconsin, Hull of Iowa and Overstreet of Indiana, were the guests of President Roosevelt at dinner last night. Mr. Babcock is chairman of the Republican campaign committee, Overstreet is secretary to the committee and Mr. Hull is chairman of the advocacy committee of that body. They discussed the coming fall campaign and left on a late train for New York. This is Mr. Overstreet's second visit in two weeks.

The president's guests at luncheon were Francis C. Travers of Oyster Bay and Major John C. Crane of New York.

Edward J. Sullivan, a New York merchant, discussed Philippine affairs with the president. Mr. Sullivan is prominent in the Catholic church and assured the president that his policy regarding church affairs in the archipelago met with the approval of a large majority of the Catholics in this country.

The president received an invitation to attend the anniversary celebration of the Beth Israel hospital of New York next January. The invitation was delivered to President Roosevelt by Joseph Borhardt, superintendent of the institution. It is not likely that the president will be able to accept the invitation.

Dr. Rixey, surgeon general of the navy, and Mrs. Rixey who were the guests of the president yesterday left for Washington.

### ATTACKING OUTPOSTS.

Moros in Mindanao Are Becoming More Aggressive.

Manila, Aug. 19.—The Moros in Mindanao are renewing their attacks upon the outposts and pack trains of the American column at Lake Lanao, which is under the command of Captain J. J. Pershing of the 15th cavalry. The Americans have successfully repulsed the Moro attacks and have suffered no losses.

The commanders of the American forces on Mindanao report aggressive action against the Moros to be necessary and ask permission to move against Bacolod and other strongholds of the hostile Mohammedans. There are about 2,000 American soldiers on Mindanao available for the desired aggressive movement. It is believed this number is sufficient to defeat the Moros, although it would possibly be necessary to strengthen their base before undertaking the movement.

General Chaffee is now in Mindanao, having left Manila some days ago. If the campaign should continue for some time he no doubt will remain in the Philippines instead of leaving on September 30 as he had planned. It is understood at the war department that General Chaffee has sufficient troops to make an active campaign.

### Boundary Monument Located.

Toconama, Wash., Aug. 19.—Slagway advises via the question of the destruction of an old Russian monument in the disputed territory between Alaska and British Yukon has been settled. S. Weitzman, a merchant of Haines, arrived at Slagway with the news that Lieutenant Owens had found two monuments in perfect repair and definitely located the place where a third one had been destroyed. One of the monuments discovered is about 10 miles above Rainy Hollow. The other is on the Takkeen river, 50 miles from the coast. The third monument had been destroyed within a few months. Owens also found an old storm house on the summit. This was called the boundary house when the Russians occupied the country. This establishes beyond all doubt that the Russians did occupy the territory now disputed and that the boundary line, according to the treaty, is where the Americans claim it to be.

### "Polish Democracy."

Berlin, Aug. 19.—A fervid assemblage of 2,000 Poles here cheered what was called the "Polish Democracy." There was a scene of extraordinary enthusiasm. Herr Wrobel, editor of a Polish newspaper published in Berlin, during the course of a speech exclaimed: "Prussia will disappear from the map before they succeed in Germanizing the Poles and destroying their hope of the resurrection of Poland. The new Poland will not be the prey of the aristocracy and clergy, but a free, democratic realm." The speaker added that all Germans were the hereditary foes of the Poles, including every political party, even the Socialists.

### Federation of Labor.

Trenton, N. J., Aug. 19.—The New Jersey Federation of Labor began a session here. Cornelius Ford of Hoboken presided. A resolution expressing sympathy for the striking miners and asking Governor Murphy and United States Senators Keen and Dryden to use their good offices toward a settlement of the strike was adopted, but it was afterward reconsidered and referred to the resolutions committee, because some delegates would not vote to make its adoption unanimous. They said it was entirely too mild.

### Frank C. Andrews Sentenced.

Detroit, Aug. 19.—Judge Murphy in recorder's court yesterday sentenced Frank C. Andrews who was found guilty Saturday of having misapplied and misappropriated funds of the wrecked City Savings bank, to 15 years at hard labor in Jackson prison. He had previously refused to grant Andrews bail pending the settlement of the bill of exceptions which his attorneys will file.

Mrs. James A. Allen of Jamestown and Miss Susan Reed of Buffalo, while driving from Lakewood to Jamestown, were stopped by two masked men and relieved of jewelry and money to the value of \$600.

### ATTEMPT TO ASSASSINATE?

Supposed Infernal Machine Sent to Robert E. Pattison.

Philadelphia, Aug. 18.—What may have been an attempt upon the life of former Governor Robert E. Pattison was discovered Friday night when the detective department was notified that Mr. Pattison had received a package by mail containing what seemed to be an infernal machine.

The package contained several pounds of black prismatic powder, such as is used in guns of large caliber, in the center of which was a small brass box. On the top of the powder was a slip of paper bearing the inscription "To Hell With You."

Mr. Pattison is the Democratic candidate for governor. When he was seen at his law office he did not appear to be much worried over the matter. He said he found the package in his office upon his return from a trip to New York last week.

"I examined it carelessly," said Mr. Pattison, "and thought no more about the matter until the night before last, when a newspaper reporter called at my house and told me the sensational story that it was powder that was sent to me. I gave him the key to my office and he went there and got the package. It was taken to Fort Delaware and on the black material being tested it was found to be powder. As to the tin box which was enclosed inside the package and supposed to contain dynamite, I know nothing, for I did not even see the box. Further than this I know nothing of the whole affair."

### TWIST TO BE ELIMINATED.

Pennsylvania Ready to Straighten the Fatal Curves Along the Conemaugh.

Altoona, Pa., Aug. 18.—The tortuous curves in the line of the Pennsylvania railroad as it meanders along the bank of the Conemaugh river in the Packsville area to be eliminated, say reports, at an expense far greater than any incurred in the big improvements that are being made on the Pittsburgh division.

The plans of the company, according to late surveys, call for the bridging of the Conemaugh at least four times within as many miles. The topography of the country between Blairsville intersection and Bolivar is such that the general course of the river cannot be deviated from, and an entirely new line cannot be taken for the Pennsylvania tracks. The only solution, therefore, to the elimination of the curves is the crossing and recrossing of the river. A corps of engineers, it is said, is now cross-sectioning the Packsville.

It was at this point that the fatal wreck of the fast mail west occurred two weeks ago.

### Buya Timber Tract.

Johnstown, Pa., Aug. 18.—C. L. Goodwin of the lumber firm of Kuhns & Goodwin of Dunlo, this county, has sold to the Babcock Lumber company of Pittsburg about 5,000 acres of timber land in the vicinity of Ashota, Somerset county, for a figure exceeding \$150,000. The land sold is a part of the holdings of Kuhns & Goodwin in the northern end of Somerset county. It adjoins the immense tract of 28,000 acres of timber land in the vicinity of Ashota already owned by the Babcocks.

### Prince Henry's Godchild.

Pottsville, Pa., Aug. 18.—Prince Henry of Prussia has notified Theodore Jaeger and his wife of this county that he will become godfather to their infant son, Henry Jaeger, who was born at the exact hour that his royal highness set foot on American soil. The prince has sent his photograph to the parents, with the following inscription written on the back: "To Henry Jaeger, from Prince Henry of Prussia, for remembrance and guidance."

### Big Gift to Hospital.

Oil City, Pa., Aug. 18.—C. N. Payne, general manager of the National Transit company, controlled by the Standard Oil trust, notified the directors of the Oil City hospital that he had been authorized by a party, whose name he refused to divulge, to state a donation of \$25,000 was subject to the order of the board. The donation is in the form of a perpetual endowment, the interest to be used in defraying expenses of the institution.

### Says Strikers Are Firm.

Wilkes-Barre, Pa., Aug. 18.—President Mitchell left for Indianapolis late Saturday. Before going he said he had received reports from every section of the striking region and they showed that the strikers were standing firm and more confident of victory than ever. Mr. Mitchell said he shared in this belief with his followers.
