Lots of bargain shoes yet at Hopkins store. Full set Mrs. Pott's iron 90c at Tionesta Cash Store. Ladies' shoes of all descriptions and prices at Heath & Feit's. Lawrence paint for home painters—see Dr. J. C. Dunn druggist. Now is the time to use Lawrence paint—sold by Dr. J. C. Dunn druggist. The borough schools will begin operations for the ensuing term next Monday.

For Sale—at Scowden & Clark's shop, second hand, buggy—Dolson self-oiling axle. About 20 ladies' shirt waists yet at Hopkins'. They must get out at any price. A good time to buy fruit is when it's at its best, which is now, at White Star Grocery. The newest style in shoes can be seen at Heath & Feit's. Smallest prices in town too. Our Majesty' corset is the latest and best. Hopkins has the exclusive sale in Tionesta. Green township has erected a new school house on a plot of ground opposite the home of Wm. Blum on German Hill.

Mrs. Baker, wife of A. J. Baker, living out beyond Stewart Run, near the F. M. church, fell and broke her left forearm last Thursday. Roasting ears, squash, sweet potatoes, and the like are now among the vegetable difficulties to be had at the White Star Grocery. Always fresh. Following is the list of letters remaining uncalled for in the Tionesta, Pa., Post Office, for the week ending Aug. 27, 1902: Miss Maude Hunter. D. S. Knox, P. M.

The Edinboro State Normal School graduated the largest class this year in its history of nearly half a century. Fall session begins September 2. John F. Bigler, Prin. You have only a few days in which to look after the matter of registration. Sept. 4th is the latest date if you wish to qualify for the fall election. See to it at once, Republicans. Fred Brookhouser cut a bad gash in his right knee one day last week while assisting Ed Graham in the erection of a saw mill near Hunter Station. He was using a foot sizer and the blade penetrated to the bone. The peach crop in Chautauque county is a failure and grapes are rotting to quite an extent in some vineyards, enough to alarm many growers considerably. It is thought to be due to the cool, wet weather. The Pennsylvania Railroad, in order to facilitate the boarding of trains by passengers, will hereafter have four steps for its passenger coaches instead of three. The old coaches will be changed to meet the requirements. All those who pass through the door of success will find it labeled "Push." Push towards success. Get a business training. Take a course of training at Warren Business University, Warren, Penna. Send to-day for catalogue. A young son of Nelson Moore living near Nebraska, was bitten by a rattlesnake Tuesday of last week. Dr. Detar of Kelleysville, attended the lad, who is past the danger point and will recover all right. D. W. Clark received word this morning of the death of his niece, Miss Effie Frank, daughter of Mrs John D. Frank of Bant, N. Y., who is well known to many of our older inhabitants as Miss Verna Clark. The deceased was aged about 28 years. Hay-rides and corn-roasts are prominent features in society events these days, and it is nothing unusual to see a party of young folk, and some that are not so young, perched upon a hay-rack driving to some friendly cornfield in the country—out for a time.

—They say that coons are working the corn patches to beat the band and the farmers, too, although most of the corn is scarcely fit for roasting ears yet. The scarcity of food in the woods is responsible for driving the animals thus early into the cornfields. The man who owns a good coon dog is a real nabob now in the eyes of the lover of the great American sport of "coonin'."

—A good business education makes a minister a better minister; a lawyer a better lawyer; a farmer a better farmer; a merchant a better merchant; a mechanic a better mechanic and a woman of means competent to manage her own affairs. Send to-day to the Warren Business University, Warren, Penna., for full particulars in regard to its courses of training for business.

—While attending a professional call at Denzil Black's up on Smoky Hill, last Saturday, Dr. Dunn met a rattler stretched across the path leading to the house that beat anything for size, waist measurement, that has been captured in these parts for many a day. The doctor thought he had killed the reptile, and had put it into a box, but when he arrived here it was found to be quite a lively corpse.

—The Ridgway Advocate has installed a new printing press, the old machine having gotten too slow for the rapidly increasing subscription of that flourishing journal. Bro. Baker is giving the people of Elk county the best paper they ever had, and it is a pleasure to note that his efforts are appreciated to the extent that he can indulge in improvements whereby he can keep fully abreast of the times.

—The Clarion Democrat says of the Normal at that place, in a recent issue: With such a faculty as the new Principal, Doctor Samuel Weir, and Doctor Ballentine, Professors Welsh and Egbert and Miss Givan there is no limit to the possibilities of the school. They stand away up towards the top in the line of their profession and are capable of bringing the school to a perfection of success never attained hitherto.

—A large crowd of enthusiasts who had gathered at the ball ground last Friday expecting to see the third game between Tionesta and Tionesta, were badly disappointed at the failure of the visitors to put in an appearance. At the last moment the home club was advised that Tionesta had gone to Cambridge that day. Each team has won a game and the "fans" would like to see the "rubber" before the season ends.

—The sixteenth annual convention of the Forest County W. C. T. U. will be held this year in the M. E. church, West Hickory, beginning on Thursday afternoon, Sept. 11, and continuing till Friday afternoon. An interesting program has been arranged, and it is expected to make the meeting more than ordinarily interesting to all who attend. Among the special features will be a lecture by Col. Geo. W. Rain, one of the country's most noted orators, on Thursday evening.

—Have you noticed that the swallows have left us?—we mean the little bird swallows. This means an early fall, according to the old way of figuring things. Some years these pleasant little birds stay as late as the middle of September, and then we have a long stretch of fine fall weather, but when they take their southern flight so early as this you may look for trouble soon to come. Now this may not all betide, but it won't hurt to "watch and see," as the weather prophet says.

—We note with some consternation that Editor J. E. Weick, of the Forest Republican, has been having absolutely nothing to say about big bass, buffalo suckers and wall-eyed pike this season. Can it be possible he has lost interest in piscatorial matters, or is there nothing doing in that line?—Puncy Ripit. Lots doing but few biting, Bro. Smith. Conditions not just right yet. When the moon's phases get so you'll hear from this end. Several eight and ten-pounders have been marked down and when some folks are least expecting it will hit 'em.

—There is promise of a good game of base ball at the home grounds to-morrow, when a Clarendon and Tionesta will try conclusions. The two teams will be closely matched if what we hear about the Clarendon boys can be relied upon, and there will be no "loading" on either side, none of the home players being in the game, so that the patrons of the sport may look for an interesting and well-contested tilt. The game will be called at 1:30 in order to let the visiting club return on the afternoon train. It is hoped there will be a good turn out to see a nice game of ball.

—The present cold summer brings out serap-book testimony of the "cold summer of 1816," when there were ice and snow in April, May and June, says the Warren Mail. July also had snow and ice even as far south as Virginia, and the corn crop was destroyed. In August there were a few warm days, but on Aug. 16th ice formed and winter clothing was necessary. October and November were cold and wintry, but December was mild and gave the most comfortable weather of the year. So you see this year's weather isn't as bad as might be, and September may give us warm and pleasant weather.

—The passing siding at the station here is being extended up the river a distance of seven hundred feet, and it is hoped that this will to some extent relieve the long suffering public from the tedious waiting which they have almost daily had to put up with at the bridge crossing for years past. There is hardly a day goes by that the law regarding the blockading of Railroad crossings has not been broken at this station and the insolent replies of the freight train crews to the mild protests of our citizens has at times been extremely hard to bear, but at last a partial relief seems to be in sight.

—The country papers are full of accounts of swindlers practicing their wiles on country folks, who persist in dealing with strangers in a manner that would cause immediate suspicion if his neighbor or dealer, whom he knows all about would suggest it. To avoid being swindled, deal with the firms whom you know; deal with firms who advertise their business and methods in newspapers, because they are not ashamed of them. The swindler who travels through the country aims to keep his business out of the public press; avoids the country newspaper the same as he does the police. Beware of strangers; patronize the man you know.

—Dr. J. K. Mealey and wife, who have been guests of E. C. Beatty and other relatives here, left yesterday for Tionesta, where they will make a short visit before leaving for their home in Tionesta—Derick.

—Mrs. Alex Hunter and children, of Nebraska, who had been visiting her sister, Mrs. Thomas Lewis of Franklin, returned home last Friday, stopping here with her grandmother, Mrs. Rachel Noble for a few hours.

—Miss Emma Kiser came up from Wilkingsburg Saturday and spent a few days at the home of her sister, Mrs. W. H. Smith of German Hill, returning yesterday with Curtis, Paul and Martha Puffinbarger, who have been enjoying the past summer with grandma Kiser.

—Messrs. Smith and Sveskman, prominent employes of the Oliver Iron company, of Pittsburg, who have been guests of H. W. Ledebur of Starr, for a couple of weeks past, returned home Saturday. They were accompanied by Willur Ledebur, who has secured employment with the firm.

—The Kane Republican of last Thursday says: The marriages of Mr. Paul Starnear to Miss Tressie Starnear, of Tionesta, and Mr. Lawrence Wilcox, of Bradford, to Miss Pearl Rockwell, will be solemnized at Jamestown next Sunday. Mr. and Mrs. Starnear will make their home in Kane.

—After all the farmers succeeded in getting in their crops in pretty fair condition, most of them being fortunate enough to do their harvesting between showers in such a way as to experience little or no damage to hay or cereals. The oats crop, which has about all been safely garnered, was a large one in this section and generally of a superior quality. Corn is not looking extra and may be said to be almost a failure, while buckwheat is not showing up to the best advantage, though it has time to catch up if not overruined by early frosts. Potatoes promise well, and in the dryer portions are not rotting to any great extent. Apples are not going to be abundant here, though some trees are quite well loaded.

—Katherine Fitzgerald, widow of the late James Fitzgerald, died at her home in Tionesta township, a mile below the station at this place, on the Allegheny river, on Thursday evening last. She was aged about 61 years, and leaves a large family of grown children. On the 5th inst., while splitting kindling wood she made a misstroke and cut the third finger on her right hand at the second joint so severely that amputation was found to be necessary. The wound seemed to be doing well and was almost healed, when a soreness of the throat and neck began to trouble her, and when a physician was called he found that lockjaw had developed, and which finally caused her death. The funeral was held on Saturday last, the interment taking place in the Catholic cemetery at Tidouote.

—For some time past—running back several years in fact—the bank of the river in rear of the Revenue office and the vacant Fisher lot has been used as a sort of public dumping ground, all kinds of refuse having been carried there and thrown over the embankment, including paper, tin cans, decayed vegetable, table slogs, and even worse, creating a stench at times most foul and disagreeable. The attention of the health board has heretofore been called to the nuisance, but with little avail. The owners of the property have now taken steps to abate the trouble and have once more given the place a pretty thorough cleaning, and now wish to give fair warning that the nuisance will no longer be tolerated. Prosecution will follow if the filthy practice is persisted in.

Good Horse Sense. Lion Coffee. teaches that glue and old eggs (used to glaze some coffee with) are not fit to drink. is never glazed—it's pure, unadorned coffee. The sealed package keeps it fresh and pure.

A Brace of Accidents.

James Henderson Jr., of East Hickory, met with a very painful accident while practicing with a base ball Monday afternoon. The accident consisted in the dislocation of his right thumb, and so badly that the bone protruded through the skin, what might be termed a compound dislocation.

Yesterday morning Charles Warhan had his right hand badly lacerated by getting it in contact with the knot saw on the Wheeler & Dusenbury mill at Endeavor, where he is employed. He was not running the saw himself, but was standing near with his back to it. A companion spoke to him and he turned to reply and in doing so threw his hand against the fast running saw. Dr. W. G. Morrow attended both the unfortunate young men, and although Mr. Warhan's laceration is a bad one, the doctor anticipates no trouble in bringing him out with a pretty fair hand notwithstanding.

Not a bit too early to buy your COTTON BLANKETS.

These cool nights are very suggestive, this store's line of Cotton Blankets is bought with great care—each design, quality and size as carefully considered as if we were buying silks or satins, consequently the large assortment we offer for your consideration is exceptionally good—better than the average of a store in a town of this size would show. It's to your advantage to come early. You get the pick and choice of all of them. We doubt if even the cheapest ones (the fifty centers) can be duplicated anywhere for the same money.

The line begins with A white 10-4 blanket with blue border and red border, 50c. Grey and brown of same, 50c. Black and white striped 10-4 blanket, stripes of various widths, a beautiful blanket, 89c. Two others, just as nice, 10-4, pink with blue border, and vice versa, 89c. Grey and brown 11-4 blankets, red and blue borders, 89c. A little better blanket, grey, 11-4 with blue and brown and red and brown border, 98c. Next two are popular priced ones, and should be prime favorites—both 11-4—grey with blue and red stripe border and mottled grey with blue and tan border \$1.00. Next, a step higher and the quality improves with the price; white, 11-4 pink and blue border, and a tan 11-4, with red and blue border, \$1.10. Tan—11-4—an exception for the money, with brown and blue borders; and grey 11-4, with blue and pink borders, \$1.10. Grey—11-4—a good number, with variegated colored border, \$1.25. Still better ones, in which the quality distances the price; grey and tan, both 11-4, with mixed colored borders, \$1.50. This is the last one—a sure cure for insomnia—and large enough for anyone, 12-4, grey with red and blue borders, \$1.65. Domet, Reintz and Otter Robes, beautifully figured, exceptional quality, soft as down, they are single and just the right size and shape to make bath or lounging robes out of—come in self-figured Persian designs, black and white, red and blue, brown and tan, black and blue, red and green, and dark and light red, \$1.19.
