Nominated For Governor and Lieutenant Governor.

Another Operation Necessary — Tornado and Tidal Wave— Pardoned by President— Sheriff Shot by Tramps Killed by Strikers— Great Britain and Venezuela.

The New York Republican state convention met at Saratoga Tuesday morning. Colonel Dunn, chairman of the state committee, called the convention to order, and nominated Lemuel E. Quigg of New York for temporary chairman. He was elected and made an eloquent speech, eulogizing the administration of President McKinley and of his successor.

Lieut. Gov. Woodruff, from the committee on permanent organization nominated Senator Ellsworth of Niagara county for permanent chairman. The senator made a short speech and after the election of vice-presidents and permanent secretaries the chairman called for the report of the committee on resolutions, of which Mr. Lauterbach was chairman.

The planks in the platform which attracted most attention were those protesting against combinations and trusts and the declaration for improved canals. The ticket nominated was: For governor, B. B. Odell, Jr., of Orange. Lieutenant governor, Frank W. Higgins of Cattaraugus. Secretary of state, John F. O'Brien of Clinton. Treasurer, John G. Wickser of Erie. Comptroller, N. B. Miller of Cortland.

Another operation was performed Sunday on the abscess on the injured leg of President Roosevelt. In the former operation a simple needle was used to relieve the trouble but on Sunday the surgeons made an incision with a knife, exposing the bone which was found to be slightly affected.

The president's case has been progressing satisfactorily, but it is believed by the physicians that the further operation made will hasten his complete recovery. The physicians say the area of bone affected is very slight and that there is no evidence whatever of any matter that would produce blood poisoning. They expect that the president will be on his feet within a reasonable time and soon be himself again.

Dr. Rixey, the surgeon general of the navy, performed the operation, assisted by Dr. Luag, the president's regular physician. Dr. O'Reilly, surgeon general of the army, was also present. Dr. Edward R. Stitt, another of those present, is in charge of the naval museum of hygiene and medical school.

Tornado and Tidal Wave. A dispatch from Rome announces that a severe tornado has swept over Catania (a city on the east coast of Sicily). A dispatch from Syracuse, Sicily, direct says that the stream flowing through Modica, swollen by the recent terrific storm, suddenly overflowed, inundated the town and that several houses collapsed and a number of families perished.

The country in the vicinity of Modica is flooded and the prefect, with a force of troops, has started for that place in order to render assistance to the sufferers. The sea swept inland for several kilometers, doing enormous damage, while there were violent submarine agitations between Sicily and the mainland.

Enhanced Price of Soft Coal. Bradstreet's says: Large yields of nearly all crops have been secured. Jobbing trade activity is unabated, manufacturing industry in nearly all lines is running at full speed, retail demand is improving, railway and water transportation interests are pushed to handle business offered and the only unfavorable feature in the situation is the growing tension excited by the anthracite coal strike, which now finds cold weather almost here and industries in many lines threatened with interference caused by the enhanced price of the bituminous product.

M. ZOLA FOUND DEAD.

Asphyxiation Ended the Life of the Great Novelist.

Pipes of a Heating Stove in Their Bedroom Out of Order—M. Zola Awakened by His Wife and Before He Could Open a Window He Fell to the Floor and Died.

Paris, Sept. 30.—Emile Zola, the novelist of the realistic school, who gained prominence in recent years because of his defence of the Jews and of former Captain Dreyfus, was found dead in his Paris house yesterday morning from asphyxiation. M. Zola and his wife retired at 10 o'clock at night. Madame Zola was seriously ill when the room was broken into in the morning. At about noon she was removed to a private hospital, where she recovered consciousness for a short time and was able briefly to explain to a magistrate what had happened.

M. and Mme. Zola returned to their Paris home from the country house at Meudon Sunday. Owing to a sudden spell of cold weather the heating stove in their bedroom was ordered to be lighted. The stove burned badly and M. Zola was asphyxiated by fumes from the fire. The pipes of the stove are said to have been out of order. To the magistrate Mme. Zola explained that she woke early in the morning with a splitting headache. She awakened her husband and asked him to open a window. She saw him rise and attempt to move towards a window but he staggered and fell to the floor unconscious. Mme. Zola fainted at the same moment and therefore was unable to give the alarm.

Mme. Zola does not yet know of her husband's death, and it is feared she may suffer a relapse when informed of it. The death of M. Zola, which only became generally known at a late hour yesterday afternoon, has caused a great sensation in Paris, and last night there was a constant stream of callers at the Zola residence. At night M. Zola remains lay upon a divan in the center of the drawing room of his house under a canopy of rare and ancient hangings. It is believed that Mme. Zola will survive.

The servants of the Zola household, not hearing any movement in their master's apartments, entered the bedroom at 9:30 and found Mme. Zola lying on the bed insensible. M. Zola was lying half out of bed, with his head and shoulders on the floor and his legs on the bed. Doctors were summoned but they failed to restore M. Zola to life. After prolonged efforts they resuscitated Mme. Zola. A druggist who was the first to arrive at the house to attend M. Zola and his wife, said: "When I entered the bedroom, M. Zola was lying partly on the floor. No special odor likely to cause asphyxiation was distinguishable. M. and Mme. Zola did not present any marked symptoms of asphyxiation. Their faces were contorted and their lips were bloodless, but not violet colored. I think the accident was probably caused by their inhaling heavy carbonic gas, which lay mainly below the level of the high bed. This would account for Mme. Zola's escape. They were not suffocated on the bed. M. Zola was awakened by the effects of the gas and tried to rise but he was seized with vomiting, fainted and fell to the floor where he was suffocated. Mme. Zola also was overcome by the gas, but to a less degree than her husband."

M. Zola had been resting from literary work since he finished his book called "The Truth" which is being published in serial form in the Aurore. The obituary notices pay tribute to Zola's high literary talent. The Temps says French letters have suffered a loss which will be keenly felt.

The newspapers judge Zola's role in the Dreyfus affair according to political bias.

MYSTERIOUS CONFERENCE.

United Mine Workers' Officers Met an Unknown in Philadelphia.

Philadelphia, Sept. 30.—A mysterious conference took place in this city yesterday between President Mitchell of the United Mine Workers of America, Secretary-Treasurer W. B. Wilson, District Presidents Nicholls, Duffy and Fahy and an unknown person whose identity the other parties to the conference refused to divulge.

At the office of the Philadelphia and Reading Railway company it was stated positively that no official of that company had been present at the meeting. A member of Mr. Mitchell's party, who declined to allow the use of his name, made the following statement: "Any one can readily understand that only a matter of first importance in relation to the strike would bring President Mitchell, Secretary Wilson and District Presidents Nicholls, Duffy and Fahy, who form the executive board of the United Mine Workers, to this city together. There must necessarily be continued conferences and negotiations with the coal operating interests before the strike can be settled."

At the conclusion of the conference Mr. Mitchell and the three district presidents left over the Pennsylvania railroad for Wilkes-Barre and Secretary Wilson departed for Indianapolis. Senator Quay was not in the city and Senator Penrose, denied having had any communication directly or indirectly with Mr. Mitchell. Before leaving the city Mr. Wilson said: "You can state emphatically that Mr. Mitchell's visit has nothing to do with politics and is without political significance."

President Mitchell declined positively to make any statement concerning the object of his visit here. Conference with Striking Employees. Scranton, Pa., Sept. 30.—The Sheridan troop of Tyrone arrived at Olyphant and was placed under command of Colonel Waters of the Thirteenth regiment who will use the cavalry in flying trips to any points of danger. Mine workers' officers made efforts to prevent the men from meeting Mr. Loomis and succeeded in many instances.

FRENCH CABLE CUT.

Caracas Government Has Caused Arrest of Office Force at Carapano. Port of Spain, Island of Trinidad, B. W. I., Sept. 30.—News has been received here from Venezuela that General Voluntini acting as special delegate of the Caracas government, has caused the arrest of the manager of the office of the French cable company at Carapano, as well as the company's clerks at that point.

It is said in Carapano that General Voluntini had no right to take the action he did. The French consular agent at Carapano, who intervened in behalf of the manager and clerks of the cable company, was also placed under arrest. The cable office at Carapano is closed and coastwise cable communication has been interrupted for the last five days. The Venezuelan Restaurador is suspected of having cut the French cable in order to prevent the revolutionists from using it.

The managers of the offices of the cable company at Caracas and La Guaira have protested against what they term the "arbitrary action of the government." M. Quevieux, the French consul at Caracas, has also protested strongly against the arrest of the cable employees at Carapano and the cutting of the cable without notice. The French cruiser Taze is expected shortly to reach Carapano. The German cruiser Vineta is expected at La Guaira to replace the German cruiser Falke, which is going to Hayti.

APPEALS BY MINISTERS.

President Asked to Appoint a Commission of Mediation.

New York, Sept. 30.—After a stormy session Roosevelt calling upon President Roosevelt to appoint a commission of mediation looking to ending the coal strike, were adopted at the weekly Methodist preachers' meeting. The resolutions recite that the strike "has reached a stage which calls for the most serious attention of all Christian men; that the interests of many of our people are specially involved, as well as those of the churches now under our care; that if continued much longer the strike will result in unparalleled suffering among the poor of our great cities, and the time has now come for honest, earnest efforts to bring about such a settlement as will be acceptable to all parties."

The Presbyterian Ministers' association of New York city at their meeting adopted a resolution on the coal strike to the effect that the ministers of the association be required to offer special prayer for divine guidance and the right solution of the question.
