COAL PRODUCTION.

Additional Mines in Operation in the Anthracite Region,

Wilkes-Barre, Pa., Oct. 27.-Today saw a further increase of coal production in the anthracite regions. The estimated output is 120,000 tons. The increase came principally from collieries that have been in operation since Thurs av and which are th good condition now. The largest output came from the mines of the Delaware, Lackawanna and Western and the Delaware and Hudson, Reports received show that 14 additional mines were started up. Four of these were in the Schuylkill region and balance in the Lackawanna and Wyoming regions. The number of men and boys at work is placed at 91,000. The Lehigh Valley Coal company has all of its collieries in the Wyoming region in operation, with the exception of one. The company's output of coal was 60 per cent of the normal.

Nearly all of the steam men formerly employed by this company, it is said,

The Lehigh and Wilkes-Barre company sent considerable coal to market Saturday. Today it expects to have all of its mines, with the exception of the Stanton, at work.

The Susquehanna company also made good headway. By Monday it is believed 90 per cent of the mines will be in operation. All the collieries years. where water has not accumulated in large quantities are now in shape to receive the full working force.

President Mitchell was busy getting ready for his trip to Washington. He declined to discuss the action of the independent operators in the Lehigh region who insist on their miners signing certain agreements. Nearly all of the coal and iron policemen. who were hired by the coal companies when the strike began, have been laid off and dismissed.

The employes of the Lehigh and Wilker-Barre Coal company decided to return to work Monday in the ex- D. Wright, recorder of the commission, pectation that the company will reinstate the steam men for whom no places could be found when they re ported on Wednesday.

Butter In the West Indies

Every pound of butter that goes to the West Indies is colored a brilliant sed. The darkies over there won't have any other color. They like red butter, just as they adore red shirts and red ties or the red label on a tomato tin. Grocers say that if a black and white label should be placed on tinned tomatoes, there would be no sale at all .-London Chroniele.
