#### Legislature Harmoniously Organized.

AT Harrisburg yesterday the House was organized by the election of Henry F. Walton, of Philadelphia, as Speaker. Thos. H. Garvin, of Delaware, was reelected chief clerk and Chas. B. Johnston of Montgomery, succeeded himself as resident clerk, John M. Scott, of Philadelphia, was chosen president pro tem of the Senate. Edward W. Smiley, of Franklin, was re-elected chief clerk. United States Senator Penrose was nominated by acclamation to succeed himself by the joint caucus of the Senators and Republicans.

ted his right to be known as the greatest American diplomat.

Nor least among the triumphs of old 1902 was the decision to march along steadily with the party of prosperity.

THERE are growing indications that Judge Alton B. Parker of New York will be the Democratic choice for the presidency.

It begins to look as though Ex-President Cleveland thought it was time for the democracy to look Princetonwards for a leader.

PRESIDENT ROOSEVELT bids fair to be known as "the great peacemaker." First the coal strike and then the Venezuelan difficulty.

## The Old Out, The New In.

The most complete change that has occurred in the official family at the court house in many years, took place on Monday of this week, when the old stepped out and the new stepped in, With the exception of the two Associate Judges and the Treasurer, the change is complete. Prothonotary J. H. Robertson, who has for the past six years very efficiently conducted the affairs of that important office, makes room for his successor, J. C. Geist, who comes to the to the people that they made no mistake will go down, when they elected him.

Sheriff Jamicson, one of the popular whose pleasing, genial manners won for him many friends, delivered to his successor, Geo, W. Noblit the keys to the in its normal state-empty, the retiring Sheriff having started south with his last prisoner on Friday evening. Mr. Noblit's pleasant ways won him the esteem of the voters by a good majority, and we have faith to believe he will carry this

steem to the end of his term. In the County Commissioners' office the change is the most complete that has taken place in a number of years, all retiring to make room for an entirely new board. The Commissioners' office is undoubtedly the most irksome and difficult to fill with any degree of satisfaction that exists in the county, and it is no uncom-Ished mon thing to hear these officials roundly criticized no matter how well they may perform their trying duties. We think in the years to come the official acts and the general conduct of the county's affairs, by the retiring board will bear the closest s rutiny, and it will be found that they have done much that will be looked upon as a lasting good to the county. Their successors are men of mature years and ripe experience, and their administration of the onerous affairs of the county will doubtless be highly satisfactory to

their constituents. They have elected as their clerk Samuel M. Henry, which is a guarantee that the clerical department of the office will be in good and efficient

The new board of Auditors assumed their duties Monday, and are at work on the various accounts affecting the county. IF The Hague tribunal were to award Great Britain and Germany each a large slice of Venezuelan territory in payment of their claims, it would be rather awk-ward, in view of the fact that President A CAREFUL canvass of the democrats in Roosevelt insisted upon leaving the mat-ter to that tribunal. A nice point has arisen with regard to the insurance. All of the wrecked bul'dings were more or less damaged by fire, but it is said that the companies will resist payment on the ground that the loss was occasioned by a cave-in. The miners who were clearing away the debris down in the mines were having a high old time Saturday afternoon. Their shovels uncovered bottles and barrels of beer. As a result there were more applications to do this sort of work than the company could accommodate. The iquors came from the O'Brien hotel that had been restocked lately.
