They may leave about the first of March. —J. G. Terrill of Bowmanville was a visitor to town Monday and gave the REPUBLICAN a friendly call during his stay. "Garner" is one of the steady kind, very seldom leaving his post at the saw when there's anything doing in that line.

—Mrs. Alice Stowel, of Buffalo, died in a hospital in that city last week where she had been undergoing an operation. The remains were brought here on Thursday morning and given burial in Riverside cemetery, the funeral services being held in the M. E. church, conducted by Rev. O. H. Nickle. Mrs. Stowel was a sister of Mrs. James Smith and Mrs. John A. Jones, of Nebraska, and had spent a part of the winter with the former, and the news of her death came as a shock to many friends and acquaintances made during her visit in the community. —Miss Alice Stitzinger, formerly of this city but now of the Brooks Memorial hospital, Dunkirk, gave a private masquerade Tuesday evening at the Y. M. C. A. rooms in that town which, according to the local papers, was a grand affair. The Dunkirk Herald devotes nearly a column of space to the function and describes it as something out of the ordinary and one of the social successes of the season. There were at least 200 maskers and nearly as many spectators present many of whom were from other towns. The popularity of the young lady was clearly manifested by the number and class of people present. —Titusville Courier. Miss Stitzinger is a Forest county girl who has many friends who are always glad to hear of her success.

Young Wife Foully Murdered.

Mrs. Boulah Zillifro, aged 18 years, was shot and mortally wounded while entering the back door of her father's home at Brady Bend, about 9 o'clock Saturday night, and her husband, Harvey Zillifro, aged 20, is believed to be the perpetrator of the foul crime.

Until two weeks ago the pair made their home with the wife's father, Sylvester Rohmrosch, who is postmaster of the place. Then the father drove him away. Zillifro went to Ford City, where he was employed in a livery barn.

On Saturday night about 9 o'clock Mrs. Zillifro, who was at the store and post-office with her father, accompanied the latter home. When they reached the rear door, the father carrying a lighted lantern, a shotgun was fired from a small shed built onto the side of the house and the woman fell. The father chased the murderer a short distance and then returned to care for his daughter, whom he carried into the house where she died in about two hours. There were 90 lead pellets in her abdomen and stomach.

Monday morning about 10 o'clock Zillifro was captured at the home of a relative about two miles from the scene of the murder, in bed fast asleep. He made no resistance and would not talk. His clothes were still wet and bespattered with mud, evidence that he had traveled about a good deal the night before to elude capture. The relative with whom he had put up the night before suspected him and gave the tip to the officers who captured him. He was taken to Kitzanning and lodged in jail. The shotgun was found in an outhouse on his brother's premises, where Zillifro admitted he had hid it.

It is believed insane and entirely unwarranted jealousy prompted Zillifro to commit the horrible deed. But it appears more like the act of a purely devilish nature.

An Interesting Case. A case interesting to liverymen and their patrons was recently decided by Justice A. R. Cyphert, of Clarion, being the case of Mrs. C. A. Wheelock vs. R. R. Christy, says the Derrick. It appeared that the defendant hired a horse and buggy from the plaintiff to go to Fryburg and return to this place, being a 24-mile drive; that he was seen in villages not in the direct line of travel between Clarion and Fryburg, and if at he and a companion drove the horse and buggy about 34 miles before returning to this town. It was not shown that the defendant had in any way abused the horse, but the evidence tended to establish that the defendant had hired the horse and buggy for a special purpose and that he had traveled with the rig in making the trip he declared he intended to make about ten miles more than was necessary to make such trip. When the defendant and his companion on their way home reached the Tobey Bridge, about a mile from this place, it was found that the horse was sick. They left the animal there and forthwith came to town and notified the plaintiff that they had left the horse near the Tobey bridge, by reason of its condition, deeming it unsafe to drive the animal to town. The plaintiff had the horse brought to town. Shortly afterward the animal died. The plaintiff's action was to recover the value of the horse. There was considerable controversy by the counsel concerned as to the law on the subject. As the justice was satisfied from the evidence that there was a hiring by the defendant to go from Clarion to Fryburg and return, and that the defendant had gone out of the direct line of a trip between the two points, he entered a judgment in favor of the plaintiff for \$75, with costs of suit. The defendant has taken an appeal from the judgment mentioned to the court of this county.

Granderville. How's your arm? One degree below zero Tuesday morning. A number of persons have been afflicted with sore eyes, but the epidemic seems past. E. V. Douglas, of East Hickory, was a welcome visitor with friends over last Sunday. School closed Wednesday an account of smallpox and Miss Katharine Nelson, teacher, returned to her home, Glade Run. Mrs. T. N. VanTassel, and Miss Katharine Kennedy, left Sunday for an indefinite visit with friends at Ludlow. John Barns, a pumper from the Greysville, Ohio, oil fields, visited his brother, Chas. T. Barns, first of the week. R. W. Hunter and Frank Swigart began Monday spinning the season's supplies of oakum and cotton for the barges. W. W. Callen received the sad news of the death of his sister, Mrs. Blanche Stallman. Reed Casset is getting along nicely, and is past the worst stage of the disease and unless something unexpected develops his recovery is assured. When it was discovered he had smallpox he was promptly isolated in a small building, with a competent nurse, John Bortner. Yet hoping to be more secure he was removed to an abandoned camp, about a mile and a half, and a more experienced nurse, Ernest Green, engaged, who reports him comfortable and contented as could be under circumstances. Dr. Pierce vaccinated nearly everybody and all are taking cream of tartar, etc., and with the place under strict quarantine since Monday night, the spread of this dread disease ought to be prevented from here at least. The Warren Mirror's account of the boys stocking up pretty well with liquor "for solace during quarantine" was an error. It was not "solace" they desired, but "prevention," and it is perhaps all gone ere this.

The Game Laws Again.

Local sportsmen are interested in a proposed amendment to the game laws of Pennsylvania, by which it is proposed to make the open season for grouse, woodcock and quail from November 1 to December 15. Heretofore July has been open for woodcock and the season for these birds has also been extended from October 15 to December 15, the open season for quail and grouse. The proposed change would take 15 days off the first part of the season, which would be all wrong. If the open season is to be shortened at all, it would be better to take the days from the latter part of it. It would be well enough to cut out the open month of July for woodcock. Most of the "woodcock" bagged during that month are young grouse, slaughtered while tame and unable to fly any distance. The proper thing to do would be to make the open season for grouse, quail, woodcock, rabbits and squirrels from October 1 to December 1—Oil City Blitzard.

The Blitzard is decidedly correct in its estimate of what should constitute the open season for game, but it is not to be expected that the legislature will do any such thing, but will make the game season to suit the city sports entirely. All the woodcock killed in this latitude after the 1st of November would not raise sufficient aroma in a frying pan to be distinguished across the room, for the birds have taken their flight for warmer climes long enough before that date in ordinary seasons. Why not be sensible and give us the pleasant month of October and top off all of December? The ideal months for hunting small game are October and November.
