Seef Trust an Illegal Combination. DEATH IN TROLLEY CAR Nine High School Pupils Killed

at Newark, N. J. Trade Review-Steamer Sunk In River They have until March 4 to discuss the Department of Commerce - Beei matter with their principals. If they Trust Declared Illegal-Explosion Ir

Fort Lafayette-Docks and Termin

als at Buffalo. A fast express on the Lackawanns railroad cut through a trolley car crowded with school children at the Clifton avenue crossing in Newark N. J., Thursday.

Eight of the children were killed and a score or more of them injured permanent. The motorman of the car, who stuck to his post, will die, and the engineet of the express was so badly hurt that there is little hope of his recovery. Both the express and the trolloy were on steep grades going at right angles. The express was signalled and the crossing gates were lowered while the trolley car was yet half way

down the hill. The motorman put off the power and applied the brakes, but almost im mediately the car began to slip along the icy ralls. It gained tremendous momentum and at the bottom of the hill crashed through the gates, di rectly in the track of the oncoming train

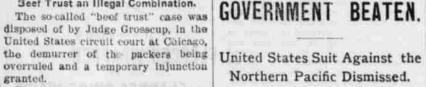

The locomotive ploughed its way through the trolley, throwing the children in every direction.

The accident happened within three blocks of the high school building and in the car at the time were nearly 100 pupils. As many as 30 others had managed to throw themselves from the car before the crash came.

The wreck of the trolley car was complete. The pilot of the engine struck it almost in the center and turned it partly around, and then the ponderous engine cut it in two. The upper part of the trolley was reduced

to fragments under the drivers of the locomotive. One half of the car was thrown to one side and lay on the tracks. The other section was hurled some distance away.

In every direction lay dead and injured. The engine was brought to a rescue. The spectacle was appalling contained eight items of news, in all and many who started to work had 116 words.

The attorneys for the packers made no announcement of their intentions. deny the facts upon which Judge Grosscup based his decision, the matter will go before a master in chancery, who will hear the evidence, and the case will again be argued before Judge

Grosseup. An appeal may be taken, in order to hasten the firre adjudication of the case. It is not believed likely that the packers will let the matter go by default, thus making the injunction

Shamrock III Nearly Completed.

Large gangs of workmen at Glasgow are rapidly pushing the completion of Shamrock III. The challenger is designed to carry less sail than any challenger since Valkyrie III. All efforts have been turned towards the production of a yacht which will drive easily in all weathers, especially in turning to windward through a head sea, the lack of which quality proved fatal to Shamrock II. With this aim in view the challenger will be more shallow, fuller bodied, with a trifle

more beam, wider aft and with less overhang forward. All the hollow The riggers are preparing the running and standing gear, and finishing gangs railway system. are working on the hull. The prepar-

ations for the launch are well under way.

Newspaper Printed In Midocean. The Cunarder Etruria arrived Sunday

from Liverpool and Queenstown. She reports having encountered very stormy weather and squalls of hurricane force during the passage.

The Etruria is the first steamer on which a newspaper containing news received by wireless telegraphy was published. On Feb. 7, while bound from New York to Liverpol with Signor Marconl as one of the passengers, vari-

ous items, principally of American news, were received from the Marconi station at Crookhaven when the vessel was 20 miles west of Fastnet, These messages were printed and standstill and from the train and copies distributed among the passenfrom nearby houses men rushed to the gers. This first mid-ocean newspaper

leged improper relations with Mrs For Violating Act of Congress In Not Carrying Commercial Messages Over Its Wires-Judge Amidon Finds That the Company Has Done So Since Passage of Act,

St. Paul, Feb. 21.-Judge Amidon of the United States circuit court dismissed the suit brought by the United States against the Northern Pacific Railroad company, the Northwestern Telegraph company, the Western Union Telegraph company and the Northern, Pacific Rallway company, The suit involved a quistion of the Northern Pacific violating that portion of its charter dealing with the commercial use of its telegraph lines.

The government sought to revoke the franchise of the Northern Pacific Railway company, which, it alleged, violated the act of congress of Aug. 7, 1888, by not carrying commercial messages over the company's wires. Judge Amidon finds that the company at all times since the passage of the act of 1888, by and through Its own respective corporate officers, maintained and operated for rallroad, governmentsteel spars are practically finished, al, commercial and other purposes, a line of telegraph co-extensive with the

Head is Free.

shooting Bruce Head on account of al-

seeming absence of a motive for it. The first inkling of the motive was made public on the first day of the trial here, when Dr. Duncan went on the stand and testified to alleged improper conduct on the part of his wife and Bruce Head, who had been a lifelong friend of the family. Both Dr. Duncan and Head are wellknown Kentuckians. It is reported that Dr. Duncar will now secure a divorce, and as so as the legal formalities are over

Mrs. Duncan will become Mrs. Bruce Head. The testimony of the two days' trial

turned public sympathy to Dr. Duncan, and when the verdict of not guilty was announced in court there was general rejoicing. Dr. Duncan's testimony seems to have had the most weight with the jury, which gave him the benefit of the doubt as to whether

he shot in self-defense or not. A strange feature about the return of the verdict was the fact that neither the doctor nor his attorney, Clarence Burleigh, was present when it was received. Had he not been present and a verdict been rendered finding him guilty of an offense the court would have been bound to grant a new trial for taking the ver-Philad Iphia, Feb. 24 .-- Justice Dean dict in the absence of the defendant in the supreme court handed down a or his counsel. to give up unnerved. Jennie E. McClelland, one of the in jured in the trolley accident, died Friday.

Price Situation Remains Strong. Wintry weather has retarded but not checked spring jobbing trade, which despite drawbacks is still far in ad-

vance of a year ago. The favorable side of the weather situation is unquestionably the heavy snow which has covered the entiry surplus-producing winter wheat belt. The price situation, indeed, taken as whole, is a remarkable one. Country produce, particularly butter and eggs, has displayed exceptional strength while the great majority of staples

retain all their old steadiness, except where further advances are noted, as in the case of cotton goods, which are very strong at the highest prices in years.

The vexing transportation problem, however, overhangs the entire trade, and no really new developments, certainly none in the direction of lower prices, are possible until this situation is improved.

Wool has been dull and firm on reports of active employment for mill from Pittsburg as new general superinmachinery and small available stocks of the raw material.

Steamer Overturned by Cyclone. A cyclone struck the steamer Olive

which plied between Franklin, Va., and Edenton, N. C., at 9:30 o'clock Monday night and sent her to the bottom of the Chowan river off Woodley's pler, between Mt. Pleasant and Oliver's wharf.

Seventeen people are known to have been drowned and others who were rescued are in a serious condition. The whirlwind, when it struck the

Olive, threw her on her beam's end When she righted it was only to sluk on account of the water she had taken

A majority of the passengers and crew were below at the time and had no opportunity to reach the pilot house of the vessel, which alone remained above water. Captain Withy and five others saved

themselves by standing all night in the pilot house in water up to their waists. No complete list of the dead has been obtained, but it is known that 17 perished.

J. Corr. a sister of Grather. toonthly salaries.

Washington, Feb. 24 .- The war dopartment has sent notices to the governors of each state that it is prepared to supply them upon demand, and according to their legal allowances, with "riot cartridges." This is a new form of ammunition propared by the experts of the ordnance bureau, to enable officers of the law and soldiers to repel rioters with the least possible loss of life to the "innocent spectators." The shell is like that of the regular one used in the army rifle, with the important exception that instead of the long nickel plated and steel clad build, two balls are placed in the mouth. The design apparently is to secure something of greater range than buckshot, yet not dangerous to persons at a distance. It is effective as to accuracy up to 200 yards.

Revolutionists Defeated.

Higuerote, Venezuela, Feb. 24 .-- General Olivares, at the hoad of the government troops from Barcelona, Sunthe navy appropriation bill, providing for four new fighting ships, three trainday attacked, at Tacarigua, the rear ing ships, additional officers and 3,000 guard of the revolutionist force commanded by General Caribe Vidal.
