SEARCHING THE RIVER.

Two Bodies of Spier Ferry Vic-
tims Recovered.

Rioting and Murder at Waterbury.
The Burdick Mystery—Expanding
Trade—Pope's Jubilee—Glass Blow-
ing Machinery—Extra Session of the
Senate—Spectators at Fire Killed.

Only two bodies of the victims of
the Spier Falls tragedy of Saturday
have been recovered, those of Fred
Ferron and Pasquale Caterelli.
Two of the 16 men not accounted for
Saturday night have turned up and
the latest information given out by the
officials of the company fixes the num-
ber of dead and missing at 17.
The accident happened as the met
were going to work early Saturday
morning. Spier Falls is 10 miles west
of Glens Falls on the Hudson river
and over 1,000 men are employed there
at present in the construction of the
mammoth power dam of the Hudson
River Power company.

Some of the men started toward
him presumably to prevent him from
falling into the river. The weight was
thus thrown into the upstream side of
the boat and it instantly careened and
filled.
Those on shore say that they saw
the boat tip and the next moment the
men were in the river. The Hudson
swollen by the freshet, bore the strug-
gling mass of men down the stream.
Many of them succeeded in grabbing
the side of the boat, which had righted
and hung on until it was pulled ashore.

Rioting and Murder at Waterbury.
Violence in worst form has broken
out anew in Waterbury as a result of
the high feeling in connection with
the strike of the motormen and conduc-
tors of the Connecticut Railway and
Lighting company.

Looking For Burdick Murderer.
Exploded theories and vanishing
clues do not discourage the authori-
ties of Buffalo, who are working on
the Burdick murder case. They have
turned with dogged determination to
establish the identity of the lone wo-
man met on Ashland avenue by Patrol-
man Meyer, and to establish, if pos-
sible, some connection between her and
the woman taken to the vicinity of the
Burdick home by Captain Joyce, on the
night of the murder, and the one who
lost her way near there. If they can
prove that they are one and the same
person they believe they will have the
woman who killed Burdick. If it turns
out that they were different persons
they believe one of the three will be
the right person.

Business Ahead of Last Year.
Business is ahead of last year and
still expanding. This is indicated by
the generally good reports received
from Eastern and Western trade cen-
ters, and is confirmed by largest on-
record February bank clearings and
simply enormous gross railway earn-
ings returns.

22 LIVES BURNED OUT.

Awful Accident From Burning
Cars Near Olean.

Take Fire and Series of Explosions
Occurred—Scores of Spectators Were
Caught Near the Spreading Fire
Many Bodies Incinerated—Doctors
Summoned From Olean.

Olean, N. Y., March 10.—A score or
more of people were killed and a
larger number were injured by an ex-
plosion of oil near here last night.
A freight train on the Erie, made up
principally of tank cars filled with oil
broke in two north of the city at about
9 o'clock. The two sections of the
train came together with a crash and
one of the oil tanks was demolished.

While they were lined up along the
tracks a terrific explosion occurred.
The flames communicated quickly with
the other tank cars and a second and
third explosion followed each other in
rapid succession. Sheets of flames
shot out in all directions.
Scores of persons were caught with-
in the zone of the fire and enveloped
in flames. Men and boys ran scream-
ing down the tracks with their cloth-
ing a mass of flames. Others fell where
they stood, overcome by the awful
heat.

Just how many were killed is not
known, as many of the bodies were
incinerated.
Sydney Fish, a prominent business
man of the city, returned from the
scene of the fire at midnight. He
said: "I was attracted to the scene of
the fire between 9:30 and 10 o'clock.
When I was within a quarter of a mile
of the wrecked train there was a ter-
rific explosion. Flames shot outward
and upward for a great distance.

"I saw several persons who started
to run away drop on the railroad tracks
and they never moved again. Others
who had been standing close to the
wreckage were hurled through the air
for hundreds of feet. The scene was
awful.
"Half a dozen young boys ran down
the tracks with their clothing on fire.
They resembled human torches. I
could hear their agonized screams dis-
tinctly from where I stood. They ran
some distance down the track and then
threw themselves into the ground, grov-
ing in the ditches in their frantic
efforts to extinguish the flames. Then
they laid still, some of them uncon-
scious, others dead. I don't know how
many were killed, but I counted 20
bodies before I came away."

Word was at once sent to Olean pol-
ice headquarters by telephone. Every
doctor and ambulance in the city was
summoned. Grocery wagons and car-
riages of all kinds were pressed into
service and everything possible was
done to bring the wounded without
delay to the city hospital for treat-
ment.

At midnight the first of the wounded
arrived at the hospital. They were
four young boys. Their injuries were
 frightful. Great patches of flesh were
burned off and hung in shreds from
their bodies.
A report from the scene of the acci-
dent says 22 bodies have been taken
from the wreckage. Some of them
are burned beyond recognition, only
the trunks and skulls remaining.

It will be difficult to ascertain the
names of a great many of the dead as
their bodies were burned to ashes in
the intense heat. A canvass is being
made of the city as rapidly as possible
to find out the names of the persons
who are missing.
As these missing persons turn up, if
they do, their names will be eliminated
and in the end a complete list of those
who lost their lives will be secured.
But this will take time and patience.
Besides, there was great excitement in
the city and the streets were thronged
with people until long after midnight.

Large crowds gathered at the hospi-
tal and the faces of the injured were
anxiously scanned as they were borne
into the building on stretchers.
Heartrending scenes were witnessed
when one of the poor, blistered bodies
was recognized by a father or a mother
or a brother and it was with difficulty
that the people were restrained from
invading the operating room.
The latest estimate of the casualties
places the number of dead at 22 and
the injured at 45. Some of the in-
jured will die.

cers of the Woman's Christian Temper-

REWARD FOR ARREST.

Many Bodies Offer Sums For Appre-
hension of Policeman's Murderer.

Waterbury, Conn., March 10.—The
board of public safety and the board
of aldermen held meetings last night
and the former recommended to the
latter that a reward of \$200 be offered
for the apprehension of the assassin
of Policeman Mendelsohn. They al-
so recommended that the state at
tonery be petitioned to offer a re-
ward of \$3,000 for the same purpose
the reward to be paid by the state of
Connecticut. Both these recommenda-
tions were unanimously adopted by
the aldermen.

These are not the only rewards of-
fered. Magnolia Lodge, Knights of
Pythias, has offered a reward of \$500
for the apprehension of the murderer
and a like amount has been offered by
Nosahogan lodge, I. O. O. F. Mendel-
sohn was a member of both these
fraternities.

The Connecticut Railway and Light-
ing company will also offer a substan-
tial reward.

The striking employees of the com-
panies at their daily meeting today
will decide upon the amount of money
they will offer for the apprehension of
the murderers.

HOMER BIRD EXECUTED.

For Murder of Two Companions in a
Mining Trip.

Seattle, Wash., March 10.—A special
to the Times from Sitka, says:
Homer Bird was legally executed
here Friday. The execution was void
of accident. Bird walked the hundred
yards from the jail and mounted the
scaffold without assistance.
On the gallows he made a short
speech without visible emotion, in
which he protested his innocence.
Thirty seconds after the trap was
sprung the murderer was dead.

During the great Klondike rush of
1897-98 Bird started up the Yukon
river with two companions. One day
his companions were missing. When
questioned, Bird stoutly maintained
that they had gone off on a prospecting
expedition. The bodies of the two
men were found, riddled with buck
shot. Bird's sentence was affirmed by
the United States supreme court and
President Roosevelt refused clem-
ency.

Chemical Filtration Plant.

Ithaca, March 10.—It was announced
from President Schurman's office that
Cornell university will at once es-
tablish a chemical filtration plant for
the water supply which is used on the
Cornell campus. A contract was
signed with the New York Filtration
company for the installation of a filter
at the university reservoir. The con-
tract allows the company 35 days to
complete the work of installation. Ne-
gative cases have been reported of
persons who drank only campus water
which is obtained from Fall Creek
but as an extra precaution the authori-
ties have decided to filter their supply.

Senator Platt Favors Regents.

Albany, March 10.—Verification of
the report that Senator Platt had writ-
ten a letter favoring the control of
the school system by the regents but
disapproving of the election of the
state superintendent of public instruc-
tion by that body was obtained when it
was stated that Chairman Dunn of the
Republican state committee had defini-
tely instructed from Mr. Platt to favor
the regents' side of the controversy.
Senator Platt's first letter defining his
attitude was written to Superintendent
Skinner.

Armed Guards on Mail Trains.

Cheyenne, Wyo., March 10.—The
Union Pacific Railroad company is pre-
paring to resist a threatened attack by
train robbers by sending an armed
force of men on fleet horses to Raw-
lins, from which place the location of
threatened attack will be patrolled.
Another precaution is the strengthening
of the force of armed guards on the
express and mail trains between
Cheyenne and Ogden.

rant was issued for the arrest of W. S.

let wound, self-inflicted 10 days ago.

Body Found on Wife's Grave.

Saratoga, March 10.—The body of
Tracy A. Record was found on his
wife's grave in Greenwood cemetery.

cide.

CATTLE QUARANTINE.

Order Prohibiting Shipment From or
Across New Hampshire.

Washington, March 10.—Secretary
Wilson has promulgated an order put-
ting a quarantine on the state of New
Hampshire on account of foot and
mouth disease. This order prohibits
the shipment of cattle, sheep or other
remnants of swine from or across
New Hampshire into other states or
foreign countries.

It also prohibits the shipments from
that state of hides, skins, hair, wool,
corns or hoofs of ruminants or swine.

Animals for immediate slaughter
may be shipped across New Hampshire
in cars which have been sealed by in-
spectors of the department of agri-
culture, providing these seals are not
broken until the animals reach their
destination.

This order is issued because of a re-
port received from the chief inspector
of the bureau of animal industry at
Boston stating that a number of ani-
mals had been shipped from New
Hampshire to Massachusetts which
were found affected with foot and
mouth disease.

Four diseased herds had previously
been found in New Hampshire but all
the animals in these had been de-
stroyed and the places disinfected and
it was supposed the contagion had
been entirely eradicated. It is be-
lieved the present outbreak is not ex-
tensive. It is now more than three
weeks since any case of the disease
has been found in any other state.
