

### SEARCH FOR MISSING MAN.

Nothing Definite Concerning the Whereabouts of Charles G. Dennis of Chicago.

Buffalo, March 24.—At Watts' detective agency it was reported that nothing definite concerning the disappearance last Wednesday of Charles G. Dennis, of the firm of Sidney Shepley & Co. had been learned.

It was also stated that an investigation was being made in Niagara Falls and vicinity as a result of a report received from that place to the effect that a man corresponding in description to Mr. Dennis had been seen there.

According to this report, the man took a trip down the inclined railway, remained at the bottom a short time, then ascended and was seen last going in the direction of the American end of the upper steel-arch bridge. This, it was stated, was on Friday afternoon.

Further investigation concerning Mr. Dennis's movements has revealed that he did not pay his bill at the Broeze House, as was reported first, and that, when he disappeared, he left his valise in his room. That it was assumed, indicated that he did not go away with the intention of remaining away for a great length of time or of making a journey.

It has also been learned that Mr. Dennis went to the Elliott Court Square building when he departed from the hotel. He met a friend at the Main street entrance of the building and spoke to him for a few minutes. Mr. Dennis's conduct was reported to be wholly rational at the time. He spoke about the serious illness of his life-long friend, James Gilbert Forsyth, who died later in the day, and then Mr. Dennis and his friend parted. The friend did not notice whether Mr. Dennis entered the building.

### Police Fired on Rioters.

Kingsston, St. Vincent, March 24.—A serious riot was in progress yesterday afternoon in Port of Spain, Trinidad, according to a dispatch just received from that city. A mob attempted to burn the government buildings there and the police had to fire on the rioters, killing or wounding several among them. The British cruiser *Pallas* was landing bluejackets. The rioting was due to the refusal on the part of the government to withdraw an ordinance concerning the new waterworks. A demonstration was made during the meeting of the executive council and finally the mob stoned the government building and set fire to it. The riot act was read and the police fired on the mob. The city is in a state of great excitement.

### Bears Ate Their Dinner.

Catskill, March 24.—A hungry cat skill mountain bear and two bald grubs came up the diners of a score of Philadelphia mechanics, painters, carpenters and bricklayers, who arrived at the Hotel Kenilworth on South Mountain. The men had been sent on by George J. Harding for the annual spring repairs to his summer home. The bears made their escape.

Wakeful Children.  
For a long time the two-year old child of Mr. P. L. McPherson, 22 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night, which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the while as if through. Two boxes of these Tablets effected a permanent cure and she is now well and strong. For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.

### QUAINT LONDON LEGACIES.

Some of Them Show the Old Time Estimate of Sermons.

Some curious glimpses into the life of old London are afforded by the reports made in the charity commission on the endowed charities in the county of London. For instance, in the reports dealing with the city parishes we have an estimate of the value set on sermons by city men in open times. That estimate varied from 3 shillings to 41 10s. One Thomas Bright had left a bequest for a sermon to be preached on the 5th of November every time it fell on a Sunday, the minister to get 13s. 4d., the clerk 3s. 4d. and the sexton 1s. 4d. But David Gittin had a more modest idea of the value of a sermon in the same parish. He required two sermons for 10 shillings, one to be preached on the second Sunday in Advent and the other on the second Sunday in Lent. The reader got 2 shillings, the churchwarden 2s. 8d. and the poor sexton fourteen pence on each occasion. John Ireland thought 13s. 4d. enough for two sermons.

In 1699 John Winn left a curious bequest to the parish of St. Bennet, Paul's Wharf. A pound was set apart for an annual sermon, the text to be taken from the fifth chapter of St. John and the twenty-seventh verse. He also left enough to buy twelve penny loaves for twelve poor people of the parish who attended a sermon every Friday in the parish church. But he expected more for his post than the annual sermon, for before or after the sermon the minister had to spend an hour examining or instructing the poor people in the Christian doctrine.

The most generous donor of the preacher was James Wood, who thought a sermon in St. Nicholas-Cole-Abbey was worth 41 10s. every alternate year. In 1625 he bequeathed to the Company of Boyvizers a sum to enable them, among other things, to repair to the parish church named, after they had sworn in their wardens and master every second year, there to hear a sermon and pay the parson 41 10s. and the clerk and sexton 1s. 5d. each. In the parish of St. Michael Bassishaw one Edward Heylin in the eighteenth century left money the interest on which was to be applied to purchasing two sixpenny loaves each Sunday for two poor men or women who should attend divine service.—London News.

### Discovering a Gold Mine.

Gold was discovered in California in 1848 and in Colorado in 1858. The discovery was accidental in both cases, and the fact created the impression that mines were "lying around loose." Adventurers drifted about in hope of "stumbling upon a mine." Mr. Thayer in his "Marvels of the New West" mentions several instances of lucky "stumbling." Three men while looking for gold in California discovered the dead body of a man who evidently had been prospecting. "Poor fellow!" said one of the trio. "He has passed in his checks." "Let's give him a decent burial," said another. "Some wife or mother will be glad if ever she knows it." They began to dig a grave. Three feet below the surface they discovered signs of gold. The stranger was buried in another place, and where they had located a grave they opened a gold mine.

### Ten Drunkards.

Ten drunkards are nearly as numerous as opium dens and social gamblers among our less guarded maids and matrons of the idle aristocracy of wealth. It is a terrible dissipation. Some of the victims boil the tea until every bit of the quercitannic acid is extracted from the leaves, which renders the beverage bitter and dangerous. It is so stringent that no mucous membrane can readily overcome its effect. Women who revel and luxuriate like it because it is a good "pick me up."—New York Press.

### Willing to Try.

"For the first year of our married life, dear, said the young man who was poor, but had prospects, 'we shall have to live principally on soup.'  
"Well, people can live on soup victuals, can't they, George?" she said, smugly closer to him.—Chicago Tribune.

### A Skillful Advertiser.

Many years ago Sir Thomas Lipton was a passenger on an East India steamer bound for Ceylon. While in the Red sea the boat was disabled, and it became necessary to throw overboard a part of her cargo. Lipton was an interested spectator of the preparations for lightening the ship. Suddenly he bolted the scum and by a twenty dollar dicker with the chief engineer secured a paint brush and a pot of black paint. Then, to the astonishment of the captain and passengers, he cheerfully labeled each box and bale thrown overboard "Use Lipton's Teas." The cargo, of course, floated ashore and for miles in Araby and other lands the natives saw that legend. Subsequently the passengers on the injured steamer were compelled to abandon it and take to small boats. On reaching land Sir Thomas was the first to make a cable office and wire the destruction of the boat and safety of the travelers to London. The message was signed "Lipton." Of course his name was in every English newspaper the next morning, signed to that message, and he was the best advertised man in the kingdom.

### Unappreciated.

The shrewdness of one of the founders of a famous estate in Maine gave rise to many amusing stories, one of which has recently been retold.

One day the man, who was a large lumber operator, was superintending a crew which was breaking up a log jam in the river. Suddenly the spruce on which he was standing slipped. The lumberman dropped out of sight in the water, and the logs closed over him.

The nearest Frenchman saw the accident. Hopping briskly over the slippery logs, he helped the "boss" to land. Nothing was said about the accident.

After an hour or so the Frenchman began to get anxious because the rowing which he considered due was not forth coming. He approached the lumberman and, pulling clumsily at his cap, stammered:

"I see you fall in, m'sieur, an' I run quick to pull you out 'fore you drown."

"Proby," snapped the lumberman—"proby if you'd been 'tending to business as you'd oughter you wouldn't have seen me fall in!"

### The Early Maine Schools.

The first schools in some Maine towns have been attended with romantic circumstances. The first school in Guilford, for want of a better place in which to fertilize the young idea, was held "in the left over Captain Bennett's open shed." In Dexter the first gathering of urchins for instruction was in "Lieutenant Stafford's barn." In Corinth the first school was held in the open air under a large tree.

The first schoolroom in Exeter was perhaps as unique as any. Crotched poles were set in the ground back of Mr. Barker's barn and on these other poles were laid, while around the sides loose boards were set up on end to inclose the space where the school was held. Scholars of the present day would look askance at such conveniences.

### An Old Legacy.

A Westchester (England) resident in the sixteenth century left \$1,000 to provide annually on St. Thomas' day three gowns and three coats to indigent persons of the parish. Following the custom of the times, the money was invested in land (in this case in mines), and the original legacy has increased in value to \$30,000. Instead of three gowns and three coats the church commissioners who administer the funds are able to present 200 gowns and sixty coats.

### Castor Oil.

A simple method of taking castor oil, according to Medical News, without producing any nauseating effects is to instruct the patient to wash out the mouth with water as hot as can be borne, swallow a little of it, then swallow the oil and follow this by rinsing out the mouth with hot water. The first swallow of the water cleanses the mouth, makes the membranes hot, so that the oil does not stick, and consequently slips down easily.

### Hard to Please.

Brown—"You don't look very happy, Dumley."  
Dumley—"I have just lost a liver on a bet."

Brown—"That's bad."  
Dumley—"Yes. I had an awful attack of rheumatism this morning, and that young squirt of a doctor, Tibbels, bet me a liver he could cure it before tonight, and I'll be hanged if he didn't win the money!"

### From the Courts.

High above the buzz of factories, the clang of trolley gongs and the clatter of traffic rose a crash that terrified the visitor to America.  
"I hear that noise wherever I go," said he. "What is it?"  
"Don't be alarmed," replied. "That's only somebody's relatives breaking his will."—Newark News.

### The Trouble With the Clock.

"What time is it?" asked his wife suspiciously as he came in.  
"About 11."  
Just then the clock struck 3.  
"Gracious! When did the clock commence to stutter?" he said, with a feeble attempt at justification and a joke.

Danger of Colds and Grip.  
The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case resulting in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold and avert the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.

### BAROSMA.

### THE GREAT KIDNEY AND LIVER CURE

Is perfectly harmless in its effects and pleasant to take. Thompson's Barosma cures by gently stimulating the liver and kidneys to excrete from the system all particles of matter that are poisonous, not only to them, but also to the stomach, heart, blood and other organs of the body. Barosma cures are permanent.  
When the liver is torpid or inactive the whole system must suffer, undergoing a process of slow poisoning; the stomach is filled with carbonic acid gas, inflaming the mucous membrane or coating of the stomach, causing heartburn, palpitation, indigestion, bitter taste on rising, a dull heavy sluggish feeling, a desire to sleep, fullness and dizzy-headedness. Thompson's Barosma is an excellent stomach tonic, assimilating with the food, neutralizing the acids and carrying the bile from the liver. If the bowels are costive or in liver trouble, Thompson's Dandelion and Mandrake Pills should be used with the Barosma. They are purely vegetable, and will not gripe.

### Inflammation of Stomach and Liver Permanently Cured.

Ever since I can remember, for twenty years or more, my back has troubled me, caused by inflammation of my stomach and liver first, then my kidneys became involved. At times the pain became excruciating. Having used a large number of so-called cures, I finally found a complete cure in Barosma Backache, Liver and Kidney Cure several bottles reducing all inflammation and consequently curing the pain. Thanks to Barosma, I have been perfectly well for THREE YEARS.  
H. G. OWEN, Troy Center, Pa.

P. S.—My wife's health has greatly improved by taking Thompson's Barosma. She has gained weight, and that yellow tint to her skin has been replaced by a fresher and healthier color. All druggists \$1.00 a bottle, or six for \$5.00.

### A Message from George H. Daniels.

Concertulates Chicago, Milwaukee & St. Paul Railway on New Line to the Coast.

To F. A. MILLER, General Passenger Agent, Chicago, Milwaukee & St. Paul Ry.

Dear Sir: I congratulate you on the improved service that you are giving and the fact that you now have a through line to California. This fulfills a prophecy which I made about 1873 or '74. The new departure for the Chicago, Milwaukee & St. Paul Railway will certainly bring it a great deal of business.

GEO. H. DANIELS, Gen. Passenger Agent, N. Y. Central & Hudson River R. R.

The above shows something of the tremendous interest taken in the inauguration of through service to Nebraska, Colorado, Utah, California and North Pacific Coast points by the Chicago, Milwaukee & St. Paul Railway, in connection with the Union Pacific Railroad. Railroad men to-day predict its great popularity, as Mr. Daniels, a generation ago, predicted that such a natural route would some day become so important part of the great transcontinental highway.

The new overland service includes three through trains, Chicago to San Francisco every day.

In addition to standard sleepers, Chicago to San Francisco, on all of the above trains, The California Express, at 10:25 p. m., carries a tourist sleeping car Chicago to San Francisco. The berth rate in this city is only 85¢ all the way. Only \$33 for a railroad ticket Chicago to California, via this line, every day until June 15, 1903.
