This is the week of the millinery opening at Joyce's, 23, 34 and 4th, Thursday, Friday and Saturday. Don't miss it. Lawrence uses special improved machinery for grinding and mixing—that's why the paint is so uniform—sold by Dr. J. C. Dunn. W. H. Hood, Tionesta, Pa., has a fine pen of buff Orpington chickens. Any one desiring eggs for settings should make their wants known. Chautauque Lake steamboats began making regular trips on Tuesday of last week. Seldom in the history of the lake has navigation opened so early. Remember that Thursday, Friday and Saturday of this week, 23, 34 and 4th, are opening days at Joyce's millinery store. You have a cordial invitation to call. WANTED—Men of brains, energy and integrity, to represent a large corporation. Address with references, Chas. Wilson, 112 N. Broad Street, Philadelphia, Pa. 318-23. It is a delight to know you can get fresh, crisp, vegetables when your appetite craves such, and the place where the most of these are sold is at the White Star Grocery. Trailing arbutus, the most fragrant and one of the earliest of spring flowers, is now being worn by many as a boutonniere. The pretty little creeper will be at its best in a few days. Proper Bros. brought in two producers in their Green twp., German Hill, operations during the past week. One on the Winker farm is said to be good for five or six barrels. Wolcott & Son finished yesterday what promises to be a fairly good bumper on the head of Bates run, on the Osmer tract. This will likely rejuvenate operations in that locality. Chas. H. Henderson, practical piano tuner, of Warren, Pa., will be in town April 27. Orders may now be left at Joyce's millinery. Recommended by Miss Anna Maffett, and best people in town. A Young Woman's Christian Temperance Union has been organized at East Hickory by Mrs. S. E. Warden and Mrs. Mabel Henderson. Miss Julia Anderson is president of this new Union of 17 members. Leonard Agnew has sold his comfortable cottage home, at the foot of Highland street, to Liverman A. C. Urey, who will take possession of the same as soon as the former can vacate. Mr. Agnew will for the present occupy a part of Mrs. J. B. Agnew's house on Vine street. Rob. C. Shriver is at the head of a company which will begin without delay an active campaign in drilling operations in the vicinity of his mother's home in the southeastern portion of Tionesta twp. Leases have been secured covering what is considered pretty safe territory, and the probabilities are that five or six wells will be drilled within the next six months. The well near Mrs. Harkness' home, drilled some time ago, will be cleaned out and pumped. It is believed this well will put out from 3 to 5 barrels per day.

G. G. Gaston's mill a mile up the creek from town tooted the whistle for the first time this season on Monday morning. Mr. Gaston has considerable stock in the pond for the season's cut. George Holeman with his crew will begin work on the boat scaffold there in a few days. Dr. Walter E. Weyl's article in the April Review of Reviews on the coal strike award is a clear presentation of the main points decided by the commission, with a straightforward, untechnical statement of the practical results of the award in the relations between operators and miners. The pension department of the Pennsylvania Railroad has closed its third year and the total amount which has been paid in pensions during these three years is \$864,610. One thousand eight hundred and fifty-one employees have been retired and put on the pension rolls, and of that number 381 have died. The housecleaning epidemic is about to assume a virulent form in this community. If the weather in the next few days should not be propitious for the spread of the complaint, now that April has been ushered in, it is feared that many an anxious housewife may be thrown into spasms by the delay. A company of Tionesta gentlemen which had purchased some of the holdings of I. N. Patterson of the Poseyfield district, Hickory township, among which was a pretty good gasser, and which it is proposed to pipe to the county home, finished a well in that territory last week which proved a duster, having neither gas nor oil. The swindler who goes around selling common salt as a wonderful new discovery, a patent powder, for making kerosene oil last four times as long as it otherwise would if a tablespoonful is dissolved in a gallon of the oil, is at work in neighboring counties. It is said he finds a small package for ten cents and sends a lot of victims who ought to know better. At least four new dwelling houses are projected for the coming season in Tionesta, two of them by Cashier J. C. Bowman of the Citizens National bank, one by Burgess Lanson and H. M. Foreman in the north ward, and one by W. G. Wyman on his lot next ye editor's domicile. Besides these K. C. Heath is starting a large addition to his house on May street. If the town had a score more they could all be readily rented at a fair figure. If any of our farmer friends would like to try the experiment of sugar-beet raising we should like to have them call at this office and get a quantity of seed, which comes direct from the U. S. Department of Agriculture, through the kindness of Senator Penrose. The sugar-beet industry is rapidly growing in this country, and it is likely this section is as well calculated as any for the cultivation of the beets. At any rate it will cost very little to try it. We will pass out the seed to those calling for it as long as it lasts. Easter day this year will be neither very early nor very late—April 12th. The earliest date on which Easter can possibly fall is March 22d, but this has not occurred since 1818, and will not again occur until the year of 2000 has again left behind. The latest day for Easter is April 25th. This was the date in 1880, and will be again in 1942. April 12th is quite a favorite day for Easter. Besides in 1903, it will occur in 1914, 1925, 1936 and 1998—five times in one century. Good Friday falls on April 10th and Whit Sunday on May 31st. On account of the meeting of the National Manufacturers' Association at New Orleans, April 13 to 17, the Pennsylvania Railroad Company will sell excursion tickets to New Orleans and return, April 11, 12 and 13, good going out date of sale, and good returning to reach original starting point not later than April 19, from all points on its lines, at reduced rates. By depositing ticket with Joint Agent at New Orleans between April 12 and 19, and payment of fee of fifty cents, an extension of return limit may be obtained to reach starting point not later than April 30. Captain Lewis E. Clark, of Warren, was killed last Sunday in the village of Suriago, in the northwestern part of Mindanao province, Philippine Islands. He was an inspector of constabulary and was ambushed and shot down by a dozen escaped ladrones. He was 36 years of age, a gallant soldier and officer, and leaves a widow and children in Warren. He had anticipated the removal of his family to the Philippines within a few months. Capt. Clark was known to a number of our citizens, being an officer of Co. I, 16th regiment, in the Porto Rico campaign, and of which our former townsman, George Birtwell, was a member. Last Wednesday evening the members of the congregation of the M. E. church tendered their pastor, Rev. C. C. Rumberger, and his wife a reception at the church, that day being the birthday of Mr. Rumberger and also the thirty-third anniversary of their wedding. The reception was made a surprise to them, the large company assembling at the church while they were absent. During the evening a fine concert was presented to Mr. and Mrs. Rumberger as a gift from the congregation, and it was accepted in happy speeches by the recipients. Splendid refreshments were served. Dr. Rumberger has been a faithful worker in the vineyard which has been given into his charge, and the evidence of the love and sympathy of his congregation shown on this occasion will greatly encourage him in his work.—Emlenton Herald. Ex-Sheriff Walker of this county is in receipt of a letter from his brother, George W. Walker, of whom he had not heard for a number of years, and who is remembered by many of our townspeople, having passed part of a summer here several years ago. George is located in West Superior, Wisconsin, where he is connected with a newspaper. He is still inclined in a musical direction as is evidenced by the following item, which was accompanied by a picture of the subject and clipped from the paper with which he is connected: "George W. Walker, of the Evening Telegram will be the soloist at the Flauto orchestra concert, Sunday, March 8, at the Lyceum theatre, Duluth. His first number will be 'The King of Kings,' by H. B. Shelly; the second will be, 'I Will Extol Thee, O Lord,' from the oratorio Elijah. A new song is being composed for Mr. Walker to be sung by him in Minneapolis at Easter time."

An exchange prints the following marriage ceremony, which was said by a Tionesta 'squire a short time ago: "Will take her for thy pard, for better or worse; to have, to hold, to fondly guard till hauled off in a hearse? Will thou let her have her way; consult her many wishes, make the fire every day and help her wash the dishes? Will thou comfort and support her father and her mother, Aunt Jimima, Uncle John, three sisters and a brother?" His face grew pale and black; it was too late to lift; as through the floor he sank, he merely said 'I will.' The secret service division of the treasury department at Washington has received a new counterfeit two dollar silver certificate, series 1899, check letter 'C.' Lyons register, Roberts treasurer. The counterfeit seems to have been printed from photo-etched plates on two pieces of stiff paper with silk threads between. On the back of the note the word certificate is spelled "certificae," public is spelled "purlic," when "wden," and may "mai." The thickness of the paper should immediately attract attention.—Ex Any fool that could be taken in by such a "counterfeit" ought not to be allowed to run at large very long at a time. Wesley Walford, in attempting to alight from a northbound freight a short distance above Hickory station on the P. R. R. yesterday morning, was thrown and received a severe cut on the back of the head, rendering him insensible for a time. He was found by the track-walker about 8:30 and cared for till surgical aid arrived. He is making his home with his sister, Mrs. Mike Strain at Trunkerville. From appearance it is thought he was struck on the head by a car and thrown away from the track, otherwise he might have been mangled by the train. A rope which he was carrying was run over by the train. At last accounts the injured man was doing fairly well, and will doubtless recover. U. S. Naval Cadetship Examination. Hon. Joseph C. Sibley, of this, 28th, Congressional district, has named the following eminent scholars as a board of examiners to hold the competitive examination for entrance to the U. S. Prof. C. Monday Dead. Prof. Christopher Monday, well known to many of our people, died at St. Vincent's Hospital, Erie, Pa., March 28, 1913. He had been a resident of Erie for several years, having previously lived in Franklin, where he taught music, piano and violin. During most of his residence in Erie he was organist at St. Michael's church, and it was from there the funeral took place yesterday morning at 9 o'clock. Prof. Monday was a brother of the late Frank Monday of Tionesta township, and often visited here where he was highly esteemed by all who had the pleasure of his acquaintance. His nephews, George Monday and Melchior Jaun, attended the funeral. Deceased was aged about 50 years. Letter to J. B. Eden. Tionesta, Pa. Dear Sir: The cost of labor in painting a house is three times the cost of the paint. You seem to save a little when you buy a lower priced paint, but you certainly add to the cost of labor when you pay for spreading more gallons. You don't even save on the paint. Devco Lead and Zinc costs a little more than mixed paints, but it takes fewer gallons, and the cost is actually less. Wears longer too—longer than mixed paints, longer than lead and oil. You don't save a cent. Mr. C. Loch, a painter in Magnolia, Miss., writes: After years of experiments with mixed paints, I find that your paint covers more surface to the gallon than any I have ever used. For density and wearing qualities it cannot be excelled. Compared with lead and oil: A house belonging to the late President of the Croton River Bank, at Brewsters, N. Y., (cost \$31,000) was painted with lead and oil in '84 at a cost of \$400. In '87—three years—it was repainted with Devco at a cost of \$350. In '97 the house was still all right. Results: lead and oil—cost \$400, wear three years; Devco—cost \$350, wear ten years. Yours truly, F. W. Devco & Co., New York. P. S.—Jas. D. Davis sells our paint. Cream of the News.
