

THE FOREST REPUBLICAN.

J. E. WENK, - EDITOR & PROPRIETOR.

WEDNESDAY, APRIL 8, 1903.

Calendar for April 1903 showing days of the week and dates.

MOON'S PHASES table showing moon phases for the month of April.

WITH Congress out of the way and public attention turning rather to politics than legislation the evidences of President Roosevelt's wide spread and remarkable popularity are increasing daily.

THE trade of the United States with China shows a most remarkable growth. In 1900 this country exported to the Chinese Empire goods valued at \$11,000,000.

THE President's determination to go to the bottom of the postoffice scandal and to permit no guilty person to remain in the service may receive the condemnation of the politicians whose favorites are in danger, but it will command the respect of the vast majority of the voters.

SECRETARY WILSON says this country last year paid \$122,000,000 for imported sugar. In his opinion that vast sum ought to be expended at home to support the growing American industry, and he is confident that we will at no distant day produce our own sugar and have a surplus for exportation.

Of all the odious and disagreeable vices that afflict mankind the most obnoxious is that of lying, says the Pansy Spirit. Character is built on truth, and the man whose word is a spurious coin, without a redeemer, has no claim upon the respect, or even the toleration, of his fellows.

A NEWSPAPERMAN was recently questioning Secretary Hay regarding a somewhat delicate diplomatic question. Knowing that he was on delicate ground, he said, "Mr. Secretary, I am afraid my questions are not quite proper from a diplomatic standpoint."

THE new immigration law is already producing an improvement in the class of immigrants coming to this country. While not as far reaching as it had contained the educational clause, it makes it dangerous for steamship companies to bring over undesirable people with the liability of losing all profit by having to take a considerable percentage back and this operates to make the transportation companies more careful.

OCCASIONALLY Pension Commissioner Ware receives some peculiar letters. This is a sample: "Paradise Hill, O. Asst. Surety Interier Ware, Washinton, U. S. Sir: Yen address me at Paris will you out to address me at my country seat at Which I am at all times, tacking the air (taking the air), and then to cure my cough with the dandelion coffee affect-ed to annie one person, soldier, saylor or citizen on behalf of Lord-a-miltey, so pies sir address me at Paradies."

DR. S. C. SWALLOW, of Harrisburg, at one time active in political affairs, was very abruptly removed from office and his place among the active clergy of the Methodist Episcopal Church by the Conference at Altoona last week. The body first refused to receive his annual report as Superintendent of the Methodist Book Room at Harrisburg. Later it refused the request of the managers of the Book Room that he be continued in charge of the room, and finally it was voted to take the unusual course by which a clergyman may be ordered placed on the superannuated list without his request or consent.

CONGRESSMAN JOSEPH C. SIBLEY, of Franklin, Pa., passed through Pittsburgh last night to Washington over the Pennsylvania railroad. Mr. Sibley stated that he had a great deal of work to do in the different departments at the national capital, and that he was going down there now, when there was no session of Congress, because he could devote his entire time to his work.—Pittsburg Times.

There is one thing that cannot be laid to Mr. Sibley's door as a Congressman, and that is that he neglects the demands of his constituents. While other Representatives are at home during the recess of Congress attending to their private business or taking their private train, Mr. Sibley is in Washington looking after the wants of his people. The 28th district is very well pleased with its representative, thank you.

Mr. CLEVELAND still believes that the tariff is the root of all our evils; and if there were some way by which he could make his part-and not the whole country suffer for this halucination he might be forgiven partly.

ACCORDING to reports, Senator Gorman has learned that recently many Democrats have become "modified protectionists." This probably does not bother the Maryland man much. Gorman and two or three other Democrats in 1894 changed the Wilson free trade bill in such a way that its author did not know it, and repudiated it. Mr. Cleveland's opinion of Gorman's work at that time is on record, and does not make pleasant reading for Democrats. The "modified protectionists" are much more numerous in the Democratic party to-day than they were when Cleveland was denouncing them nine years ago, or even than they were when Randall, with the aid of the solid Republican vote, was laying poor Horizontal Hill Morrison out cold. Even Frank Hurd and Roger Q. Mills, if they were in Congress to day, would be "modified protectionists."

For the first time in our history manufacturers' materials have in the month of February, 1903, constituted more than half of the total imports. Twenty-one years ago the proportion of manufacturers' material was 33.9 per cent. of the total imports. In February the percentage had reached 51.3. In that month our manufacturers bought of foreigners \$12,000,000 worth of materials, to be converted into finished products by American labor. The total of this class of importations for the fiscal year ending June 30, 1903, will be at least \$150,000,000, or \$35,000,000 more than in 1902. This does not indicate the need of any change in our tariff system looking toward increased purchases from the outside world. We are already the most liberal buyers of foreign commodities of any nation on earth. Lower tariff duties would result in our buying much more of finished products in which we buy of material used in manufacture. Better leave the tariff as it is.

SUNDAY NEWSPAPERS WIN.

And Sunday Ice Cream, Too—Court Says Philadelphia Will Have 'Em. Philadelphia, April 2.—Magistrate James E. Gorman rendered his decision in the cases against employees of several city newspapers, the Union News company and the Crane Ice Cream company, who, it is alleged, had violated the Sunday blue law of 1794. In an elaborate opinion, supported by many legal authorities, he dismissed the charges.

Among other things he finds that there is a defect in the complaint by the omission to aver that the publication and sale of the newspapers on Sunday was not a "necessity" and "charity"; that this omission is fatal to the prosecution and that if for no other reason he would be compelled to discharge the defendants. "If it were necessary, however," he says, "to determine this question, I should certainly be inclined to decide it as a matter of fact only in the affirmative. Perhaps no enterprise, whether we view newspapers commercially or in a literary sense, has made such rapid and marvelous strides as the public press. It has kept abreast and sometimes ahead of the wonderful development of the commonwealth in growth of population and in the various trades and business enterprises, and in a great measure has assisted in this development."

Dirtiest Town to Be Cleanest. Conneville, Pa., April 2.—Conneville, known for years as the dirtiest town in the coke region, is to be the cleanest. Stringent measures are being taken toward this end. Anti-spitting and anti-swearing ordinances are being passed, as well as provisions regulating the throwing of refuse on the streets, and loading on the sidewalks. Spitting on the pavements and in street cars and other public places is made punishable by heavy penalties and notices in various languages, owing to the cosmopolitan conditions existing in the coke region, will be posted broadcast. Regular washing of streets is another feature that is being pushed vigorously.

A Human Pin Cushion. Ashland, Pa., April 3.—At a clinic in which three prominent county physicians participated at the state hospital here, Surgeon-in-Chief J. C. Biddle extracted two needles from the hand of 16-year-old Mary Fessler of Mt. Carmel. At various times during the past three years the young girl has been operated upon for similar reasons and in all 119 needles are said to have been taken from her arms and legs. A peculiar mania has caused her to puncture herself with needles. Aside from occasional stiffening of the arms she suffered no great inconvenience.

Falls Into Caldron of Hot Pitch. New Castle, Pa., April 2.—C. H. Hammill of Peru, Ind., had a narrow escape from being boiled alive in a caldron of tar and pitch at New Castle Junction. He was employed tarring the roof of the new round house now being erected there by the Baltimore and Ohio railroad when he fell in the midst of the molten pitch. His clothing protected him and he was only burned about the left hand, where the pitch ate through his glove.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75. Hall's Family Pills are the best.

To Meet Mine Awards. Scranton, Pa., April 4.—Thirty-five independent operators, representing the whole anthracite region, met here to consider the award of the commission. A committee was appointed to confer with a committee of the superintendents of the big companies with a view to securing a concerted understanding about putting in operation the various recommendations of the commissioners.

Prevented Lynching. Williamsport, Pa., April 4.—A mob of farmers tried to lynch Walter Hepburn, after it was charged, he had attacked a young girl named Dapp Hepburn. It is said, confessed guilt, and a crowd soon collected. The prisoner was finally landed safely in Newberry through the bravery and determination of Constable Clark of Linden, who kept the mob at bay.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c. 1-14-ly

The best physic: Chamberlain's Stomach and Liver Tablets. Easy to take; pleasant in effect. For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.

Notice to Stockholders. The annual meeting of the stockholders of the Tionesta Gas Company will be held at the office of the company on Monday, April 20, 1903, at 2:00 p. m.

SEVERE ATTACK OF GRIP. Cured by one Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the first time in my life I had ever cured myself by pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.

20 YEARS OF LIFE is the average time allotted for a well cared for plow. If a plow is to be your working companion for so many years, why not keep good company, the best is none too good for you. It is also very necessary to know that you can be supplied promptly with extras of all kinds to fit your plow. Hundreds of the best farmers insist the "Le Roy Plow" is the best made. "Easy Draft" and "Easy to Hold." They are made by a strong Company Not in a Trust. You can see them at Lanson Bros., Tionesta, Pa.

"Forewarned is Forearmed"

We warn you now that in spite of the tremendous selections which we made for this Spring Season in our Men's and Boys' Clothing department, there are many exclusively confined patterns of fabrics that we cannot duplicate, and if you want one of these you had better come quick. Our collection of both Suits and Top Coats for the Spring is simply beautiful, and the most comprehensive in every way that even we have been able to show.

We want you to come in and see one choice selection in particular of extremely fashionable, well-tailored, perfect fitting, ready-to-wear Suits and Top Coats. These are suits that should be sold for from \$15 to \$20, but our methods of purchasing enable us to offer you the choice of this superb line at \$15

Boys' Clothing.

This department is a very prominent feature of our business.
