—An alumnus association of the borough high school was organized Tuesday evening, and arrangements were perfected for the holding of its first annual banquet in the hall of the W. R. C. next Wednesday evening, 29th inst. It will doubtless be a very enjoyable affair.

License Court.

Court was called yesterday afternoon for the disposal of the license question in this county. Remonstrances had been urged against the granting of licenses in Byrontown, Marienville and Clarington.

The applications of Hotel Weaver, and the Central House, in this borough were granted. That of J. J. Young, Hotel Marien, Marienville, was held over till May sessions. The license asked for by L. E. Branch, Central House, Clarington, was refused after hearing considerable testimony on both sides.

Court meets this morning at 9 o'clock, when the applications of the Keystone House and the Forest House, Marienville; and the American House, Pigeon, and Diagonal House, Byrontown, will be taken up.

In the matter of the petition for appointment of a constable for Jenks twp., the court was not aware that a legal vacancy existed, hence no appointment was made.

Fatal Accident to Daniel Carson.

The Clarion Republican gives these particulars of the tragic death of Daniel Carson, brother of J. T. and Angus Carson, of Tionesta, brief mention of which was made in these columns last week:

Wilson's big mill below town at the mouth of Toby started up Monday morning, April 13th, for the season's run. At a few minutes after five o'clock in the evening the belt which runs the slasher came off the pulley. Mr. Carson went down under the mill to put it on. He turned down the engine till it was running slowly and told the fireman not to let the engine stop and then went to put the belt on. He was out of sight of the fireman who immediately heard what he supposed was the loose belt striking or flapping on the plank or boards. It, however, proved to be Mr. Carson's feet striking the plank above the line shaft as he was whirled rapidly around. He had evidently reached over the shaft to catch the belt, and a small set screw on the line shaft caught some loose part of his clothing and he was drawn over and around the shaft. He made no outcry and it is believed that during the first revolution his head struck a brace or support to the line shaft and knocked him senseless. The noise of his feet striking was heard all over the mill and out on the pond but was ascribed to the flapping of the belt. After waiting a short time the fireman, Mr. Walters went and looked to see what the trouble was and was horrified to see the body of Mr. Carson whirling round the shaft. He shut the engine down and gave the alarm. Mr. Carson was taken from the shaft and carried to his home a short distance from the mill. Drs. Frank and Charles Ross and B. G. Wilson were hastily summoned and did all that could be done for the sufferer. Four or five ribs over his heart were crushed, his feet and ankles crushed and broken and his shoes worn and torn from his feet. The accident happened at about 7:30 and he died soon after 7:00 without recovering from the shock though he seemed to be conscious most of the time.

Mr. Carson was a son of Hugh Carson and was past 44 years of age. He has been in the employ of S. Win & Ed. M. Wilson for about 28 years, and was one of their most trusted and respected employees. He is survived by his wife and two sons, aged respectively 16 and 19 years. Mrs. Carson's maiden name was Alice Mays, a daughter of D. R. Mays, of Leeper.

Daniel M. Carson was known and respected by a large circle of friends. He was a Christian gentleman, genial, sober, honest and reliable. He was a member of the Clarion M. E. church and for the past six or eight years served as a member of the Board of Stewards. He was a member of Yokahoma Lodge, I. O. O. F. located at Tylersburg, Pa., and a large number of his brethren in the lodge attended the funeral which was in charge of Clarion Lodge, No. 222.

Quality!

While others talk price, we talk quality and price. Our position is this: A man may forget what he paid for his clothes, but never how they look, fitted and worn.

Our clothing is the safe middle ground. It saves a man paying made-to-order prices, and the unhappiness of wearing ordinary ready-made. It is the cheapest clothing to buy, because it will outlast any other at the same price—suit or overcoat—and looks well all the time it is being worn.

To put it in a nutshell, when you buy our clothing, you get a quality of fabric and workmanship, an individuality of style and an exactness of fit, with which only the handiwork of the best merchant tailors is comparable—and all at the ready-made price.
