

1903 MAY 1903

Calendar grid for May 1903 showing days of the week and dates.

MOON'S PHASES table with columns for Quarter, First, Full, and Moon, and corresponding times.

Republican Ticket.

County. District Attorney - S. D. IRWIN. Coroner - Dr. J. W. MORROW.

The exportation of manufactured goods from the United States has increased more than one hundred per cent. since 1893.

Russia consumes a large portion of the world's output of olive oil. It is used extensively in the ceremonies of the Greek church.

MR. CLEVELAND still has the knack of making valuable enemies. Tillman has opened his batteries of coarse abuse upon the ex-President.

The real Iowa idea is to stand by Republican national platforms, a policy that has caused the state no regret since the organization of the party.

DEMOCRATIC editors are hard put these days in finding evidences of dissension in the Republican ranks. In their own ranks, however, there is as little evidence of harmony as ever.

We make a great to-do when a Chinese barbarian kills a missionary in China. But what have we to say when a mob of cowboys in western Texas murders a bible agent because he wears a silk hat?

As a result of wise pure food legislation, European manufacturers are to be deprived of the privilege of dumping on the American market the impure and adulterated goods which they cannot dispose of at home.

The utility of all attempts to defeat President Roosevelt's nomination and election is emphasized by the report from Nebraska that, should Governor Cleveland or any other "reorganization Democrat" be nominated, the Bryanites will support Mr. Roosevelt.

FROM an almost strictly agricultural community, this country has risen to a point where it now supplies one-tenth of the world's commerce in manufactured goods. And all this by means of the protective policy. What chance is there for a free trade party under such circumstances?

THE Postmaster General may have erred in minimizing the importance of the irregularities and dishonesty which has prevailed in the Postoffice Department, but the President will soon be in Washington and the public may rest assured that he will be content with no attempt at whitewashing.

SEVERAL Southern and Western Democrats, some of whom were Cleveland men through Bryan's days, are saying that Cleveland could not be elected for a third term. There is no need of getting excited about this. None of the Cleveland boomers are saying he could be elected. All they say is that he would reduce the Republican majority in the electoral college to a lower figure than would any other Democrat who could be thought of. There is not much satisfaction in this for Cleveland himself, however.

It is rumored at Washington that the United States is likely to acquire possession of Margarita Island, now owned by Venezuela, as a result of the friendly offices of this government and especially of Minister Bowen in the recent difficulty between Venezuela and her European creditors. The importance of Margarita Island as a naval base has long been appreciated by the state and navy departments. It is a well watered island just off the coast of Venezuela, in the Caribbean sea, and commands the northern entrance of the Panama canal.

THERE is room for thought as to what will be the outcome of the movement to civilize China and serious minded people are giving the subject much consideration. Left alone to follow its antiquated methods and its barbaric whims, China proved neither a benefit nor a detriment to the civilized world. Civilized, at least to the extent of having been taught to use modern methods, machinery, etc., with a teeming population capable of subsisting on rations on which a white man would starve, will the markets of the world be flooded with the products of cheap Mongolian labor and "the yellow peril" materialize despite Chinese exclusion and other laws?

The president of the Mississippi Valley Lumberman's Association, defining recently the relations between forestry and lumbering, said: "We have reached the point now when we are often unable to supply the enormous demand for lumber which we have fostered. We must look to the production of a second crop upon lumbered lands or prepare to stop lumbering when the first crop is gone. In the old days it was easy to lumber one forest and then to turn to another. To-day, however, we cannot count upon new fields to turn to. We must make the best of what we have, and wherever it pays we must lumber conservatively. Practical forestry means conservative lumbering. The question whether conservative lumbering pays depends upon whether the value of the second crop upon lumbered land is

sufficient to make it a profitable enterprise to foster and protect it, and in many cases the time has already come when practical forestry is a good business investment for lumbermen. We have received a good deal of abuse for what has been called our vandalism—abuse which was unreasoned and which was not accompanied by pertinent suggestions for reform, but now the Bureau of Forestry of the United States Department of Agriculture puts the question of conservative lumbering in a way which makes it worthy the attention of lumbermen. It is the attitude of this Bureau, that forestry and lumbering are allies, not enemies, and that the interests of one depend directly upon those of the other. The Bureau does not claim that forestry is the panacea of every lumberman's troubles, nor that it is now applicable to every timber tract in this country. It simply holds itself in readiness to assist lumbermen in applying practical forestry to their holdings in those cases in which it is evident that conservative lumbering will pay. The Bureau of Forestry does not deal with forest problems merely in a general way. It gives each timber tract upon which its assistance is requested a careful study on the ground, and it draws up its final plan for management with due regard to the purpose and point of view of the lumberman. In other words, its work is eminently practical and business like, not purely scientific and theoretical. The advice given by the Bureau of Forestry in its working plans for the handling of timber tracts is, in a word, the best business policy for their management based on a thorough expert examination."

The Iowa idea of tariff revision, which cut sufficient figure in that western political hub last year to contribute to the retirement of speaker Henderson, is not likely to occupy great prominence in the Republican party next year. Senator Allison has completed the draft of the tariff plank for the Iowa platform, and during his recent stay at Hot Springs, Va., showed to Senators Aldrich and Spooner the wording of the declaration, which met the entire approval of Mr. Aldrich, the leading authority on the tariff in the Senate. While the wording of the plank must for the present be treated as confidential, the fact that it met with the approval of Mr. Aldrich is in itself a complete refutation of the widely circulated story, under a Souix City date, that the Iowa idea was still uppermost in the minds of Governor Cummins, the President and Senator Allison. The facts are that there is complete harmony in the Republican ranks in Iowa, and there exists no demand for immediate tariff revision, which it is appreciated could not be taken in a presidential year without immediate danger to the prosperity which the nation is now enjoying.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, etc. Do care with Hall's Family Pills are the best.

Cream of the News.

The woman in the case never observes how awkward a man is when in love. Pure, well settled linseed oil is used in making the Lawrence paints. Sold by Dr. Dunn. After selecting your target in life it is up to you to become a crack shot. Zinc and lead in proper proportions with linseed oil make the best paint—Lawrence brand of Dr. J. C. Dunn's drug store. Lending money strengthens the memory; borrowing it causes forgetfulness. Never used Lawrence? Try it this spring—see about it. Dr. J. C. Dunn. It. A woman never puts anything in her pocket that she can hold in her mouth. Ask Dr. J. C. Dunn for information about Lawrence. It. Some people are too independent to take a hint. The Standard sewing machine is at the head of the list. For sale at Joyce's millinery. People who accomplish most make the least noise. Hats. Well, I've got 'em all kinds, straw or felt and a large assortment to choose from. Hopkiss. To pay compliments is much easier than to pay debts. We are still in the front row with the Wooltex shirts. They are guaranteed and I have the exclusive agency in Tionesta, Hopkins. It. The will of the people disinherits a good many candidates. Here's your chance, girls—A new lot of shirt waist suits just arrived at Hopkins' store. Come early. It. To-morrow is the happiest day in the life of the average man. If you have that tired feeling, go to Hopkins' store and get a hammock. All kinds. To have what you want is wealth; to do without it is power. Kitchen Queen bread is the finest. Get it during the hot weather fresh every day, at the White Star Grocery. It. In order to win success a man must first fall in love with his work. A set of computing scales, in perfect condition and good as new, may be had at a positive bargain by calling on or addressing the Postmaster, Tionesta, Pa. Idle curiosity is an unknown factor in the fair sex. It works overtime. "A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay for it," says C. P. Rayder, of Patten Mills, N. Y. "A few days later he walked in the store as a straight as a string and handed me a dollar saying, 'Give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.

COAL BY MILLIONS OF TONS.

Development of Starr Tract One of the Most Important in State Mining History.

Pottsville, Pa., May 25.—The development of the "Starr" tract in Brach and Rolly townships, seven miles west of this place, is one of the most important in the anthracite coal mining history of the state, and will add another town to the map of Pennsylvania. The property, which is owned and has been opened up by the Black Diamond Anthracite Coal company, is a mile and a half in length, and abounds in the finest quality of red ash coal, 15 veins in all, all of which have been successfully developed in the lower Schuylkill fields. The coal vein in the gangway now being driven is 11 feet in thickness. The total estimated contents of the tract is 18,000,000 tons. A mammoth breaker, having a capacity of 1,500 tons a day, is in course of erection, and the latest and most improved machinery for sorting and cleaning the coal has been contracted for and much of it has already been delivered at the mine. The Philadelphia and Reading railway has built a siding from its Mine Hill branch to the breaker.

RICH CHAMBERMAID ROBBED.

Woman Who Wouldn't Make Washington's Bed Chloroformed. Indianapolis, May 25.—Lulu Hadley, the chambermaid who refused to make the bed in which Booker T. Washington had slept, was chloroformed and robbed at her home at 630 Fulton street at an early hour Saturday morning. Mr. and Mrs. Smith, with whom Miss Hadley lives, were also chloroformed. The robbers, who are believed to be some negroes who have been hanging around and peering into the house for several days, secured Miss Hadley's purse, containing \$43. The house was ransacked. Bureau drawers were found on the floor and every effort was made by the robbers to find the money which Miss Hadley has been receiving for several days from all parts of the country.

Sticks to His Trade.

York, Pa., May 25.—The prospect that he will inherit \$1,000,000 and that he can now, if he desires, have an income of \$15,000 a year, has not moved young George Walls to give up his apprenticeship at the plumber's trade. After a search of two years Martin Walls of Pittsburg found his son working for J. A. Kunkle, a plumber, at Riverton. After the son had been forgiven for keeping his parent so long in ignorance as to his whereabouts, he went to his father to Sunbury, where a family reunion was held. From Sunbury the elder Walls returned to Pittsburg and his son went to Riverton and resumed work under Kunkle at \$11 a week.

Starving Himself to Regain Health.

Wilkes-Barre, Pa., May 25.—James McIntyre of Moosic is at present undergoing a 40 days' fast in order to try and benefit his health, which has been bad for a number of years. Mr. McIntyre commenced fasting on the first day of the present month and yesterday on the twenty-second day of his fast, said that he was feeling very well. At first he says he felt the pangs of hunger, but gradually got used to going without food. He says he will surely finish the other 18 days and will come out of the experience a strong man.

Petition in Bankruptcy.

Pittsburg, May 25.—Charles H. Bradley, a prominent business man, has filed a petition in bankruptcy in the United States district court, placing his liabilities at \$411,758 and assets at \$399,972. Of the assets there are \$373,100 in stocks and bonds principally of the Pittsburg Stove and Range company, of which Mr. Bradley is one of the largest stockholders and a director. A majority of his creditors are Pittsburg banks.

Color Line Abolished.

Indianapolis, May 25.—The national convention of Federation of Musicians adjourned. New York was selected as the next place for meeting. The color line was abolished and unions of colored musicians will not be designated as "colored" any longer. The international or low pitch, which is a half tone lower than high pitch, was adopted and made official.

Runaway Trolley Car.

Pittsburg, May 25.—Ten persons were badly hurt and a score or more bruised in a runaway trolley car accident Saturday night in Braddock on the East Pittsburg branch of the Pittsburg Railway company. The car had on board 80 passengers. In going down a steep grade the motorman lost control and the car dashed into a building.

Missing Girl Found in Hospital.

Chester, Pa., May 25.—Miss Martha Dunleavy, a young woman who has been missing from her home at Trainer, was located in the Chester hospital. She had fallen off a trolley car while on her way to this city, and was sent to the hospital suffering with concussion of the brain.

Threatened Tie-Up.

Shamokin, Pa., May 25.—The Shamokin and Mt. Carmel Electric Railway company refused to grant concessions to the employees, who decided to tie up the entire system on May 26 from here to Ashland unless their demands shall be granted by that time.

REDUCED RATES TO ASHVILLE.

For the benefit of those desiring to attend the meeting of the American Society of Civil Engineers, at Asheville, N. C., June 8 to 12, the Pennsylvania Railroad company will sell round-trip tickets to Asheville, and return, good going June 5, 6 and 7, and good returning to reach original starting point not later than June 15, inclusive, from all stations on its lines at the rate of a single fare for the round trip, plus twenty-five cents. For rates and conditions of tickets consult ticket agents. It.

THE ESKIMO DOG.

Alive, He Works For His Master, and Dead, He Feeds Him.

Of the Eskimo dog I could write a book. In all probability descended from the wolf, he is the Eskimo's one domestic animal, but is of as much value to him as all the domesticated animals of more favored races put together. He drags him and his family and their chattels from snow to snow or water, feeds him with morning scent to the tiny orifice in the snow which indicates the breathing hole of a seal, drags him for miles in pursuit of the bear and finally brings the huge brute to bay, rounds up the musk oxen till his master can come up for the kill, and then perchance in the darkness of some long winter night, when the hand of hunger grips the settlement relentlessly, he yields up his life to feed his master and his family and his coat to keep them warm. Though mixed now with other strains, so that black and reddish and spotted dogs are to be seen as well as the pure blooded grays and whites, this animal still retains to a large degree the strength, endurance and fierce lust for blood when in pursuit of game that characterized its wild ancestors. Combined with these traits are an intelligence and faithfulness that make many of these animals the peer of any of their more favored brothers in more genial climates.—Leslie's Monthly.

Don't

Sweater and wear on account of unseasonable underwear. Get out of it, and into some of the excellent values we are offering. A good Brown Balbriggan garment for 25c. Better ones for 50c. These include Brown, Black and Black and White stripe Balbriggan, Cellular Knit and Lace Stripes
