First Reported.

VOL. XXXVI. NO. 12.

Advance in Cotton Goods-New York's 250th Anniversary-Ohio for Roosevelt-August W. Machen Arrested-Reliance Won Again-Harry Elkes Killed In a Race.

The number of dead in the Topeka, Kan., flood and fire is known to be at least 34 and a larger number are yet missing. Several were reported burned to

death, but this could not be substantiated. From all over Eastern Kansas boats are being rushed here for the rescue of the sufferers.

In the B street Colored Baptist church nearly a hundred people have been standing since Saturday. Many of them have doubtless fallen from exhaustion before this and drowned.

The building stands intact, however, and those who are left alive may be rescued. As seen from a high place on North Tyler street, near the Rock Island bridge, the stream appeared to e widening.

North Topeka is a scene of utmost desolation. Not a square foot of land can be seen in any direction. There is but a small chance of any of the resi-

dences being left standing at the end of the flood period. Sherry, Oakland and the region about the Reform school north of North Topeka are all under the rushing waters, but the situation is favorable in these places compared with what

North Topeka is undergoing. Nearly all the fires have been put ut by the heavy rain, which has been falling nearly all night. The sky was overcast and the rain bids fair to coninue.

Hundreds of Topeka citizens who were rich are now poor, and the poor people are in distress. Many lost absolutely everything. They had the savings of years taken by water. Now they have only the titles to the water overed land.

By aid of the small steam and gasoine launches 40 men in South Garfield park were rescued. They had perched themselves in trees. They had had nothing to eat for 24 hours. These men were kept in a fenced grove where they could not keep a close watch of the situation. All they could see was the angry waters rushing about among

dent's judgment and expressed wishes Mr. Hanna demonstrates that his original position in the matter was at no time prompted by personal antagonism to President Roosevelt.

Indiana Heroine Dying.

Miss Jennie Creek, the heroine who saved a train carrying passengers to the world's fair at Chicago, is lying near death's door at her home at Converse, Ind. Her life, which once gave promise

of unusual brightnoss, has been one of sadness and she has been in ill health for a number of months. She was a demure country girl when

she used a red petticoat to flag a passenger train on the Pennsylvania road near Mill Grove, Ind., in 1893, preventing the fast flying train with numerous passengers from piling into an open chasm, made so by the burning of a bridge.

The little girl was praised and lauded for her heroic deed, and a party of Frenchmen aboard the train forwarded her a medal from a royal society of France.

August W. Machen Arrested. By far the most sensational development of the postoffice investigation

occurred Wednesday when August W. Machen, general superintendent of the free delivery service, was arrested on a warrant issued on the information of postoffice inspectors charging

him with having received "rake offs" from contracts made with the local firm of Groff Brothers for a patent postal box fastener.

The warrant specifically charges hinr with receiving \$18,981.78 since Aug. 8, 1900. It is alleged, however, at the department that this amount does not represent all that Machen obtained in connection with those contracts, it being charged that he has profited by them for several years prior to the date of the first contract mentioned in the warrant.

New York's Quarter Millennium. New York city officially commem

orated Tuesday the two hundred and fiftieth anniversary of establishment of municipal government in New Amand treaty between Holland and England New York

MRS. YOUNG'S TRIAL.

Jury Completed on the First Day-No Public Interest.

Rochester, June 2 .- The first day of the trial of Mrs. Lulu Miller Youngs, accused of killing Florence McFarlane November 18 last, closed vesterday afternoon at 4:45 o'clock when the 12 juryman had been selected.

The most remarkable feature of the trial was the absence of the usual curious crowd which might have been expected from the notoriety of the crime and the attention it has attracted. The only woman present outside of the defendant and her aged mother

the trunks of the trees. One of the men said that they could not hear the others speak above the roar of the water.

There is ground for hope that the worst of the flood situation has passed. The reacherous Kansas river is slowly receding and the five-mile wide stream is settling back into its rightful channe I. The official gauge was fluctuated up and down all Sunday. City Engineer McCable has issued a bulletin giving out the cheering intelligence that the waters had subsided to the extent of 71/2 inches.

Briefly stated the present condition of the flood is this: 34 to 40 people drowned; \$,000 people without homes; \$4,000,000 loss of property.

Advance In Cotton Goods.

Wholesale trade awaits crop, labor and price developments. Spring wheat conditions are practically perfect, and a record breaking yield of wheat is still in sight.

Winter wheat harvesting has begun The drought in the Middle Atlantic states has been partially relieved, but New York and New England still suffer for rain.

Unsettlement still characterizes the labor situation. Close to 100,000 men are idle in and near the metropolis as the result of the practical suspension of work in the building and allied trades.

Cotton goods manufacturers have met the advances in the raw material of nearly 2½ cents per pound with advances in bleached cottons and ginghams. Buyers, however, are slow to take hold at the higher prices.

Few cotton mills have shut down price of, cotton, though many say that the Platt contingent backed the presthey could make more money by selling their supplies of raw material of Johnstown. rather than working them up into manufactured forms.

Reports from the eastern section of the cotton belt are favorable.
