It is only six months to 1904, and the Democratic prospect of harmony has reached zero, with a downward tendency.

MAKERS OF CANDIDS have a hard time starting any yards that can stand up against Uncle Joe Cannon's record for common-sense statesmanship.

A LONG debate over the Isthmian canal treaty is predicted in the Columbus Congress. If the discussion is along sensible lines confirmation will not be long delayed.

SENATOR STEWART, of Nevada, who lives in Virginia, had his pocket picked in Washington and claims to have lost \$20, a number of bank notes for notes due, and several railroad passes. The Senator would appear to be poor, but honest.

If we had to take choice between Cleveland soup and Bryan starvation we would prefer to commit suicide. A man whose tasting apparatus is so badly out of whack that he can't tell the difference between Republican biscuit and Democratic soup - well, you can put some gravy on a rubber overcoat and the fool would eat it for salad. -Yellow Jacket.

SINCE it has been shown that there are ways to get at the trusts through the present laws without reducing import duties, the Democratic politicians have lost much of their righteous zeal against these terrible trusts. Their indignation was really against the tariff, but they pretend to be after the trusts simply to get a chance to attack the tariff.

This story of wholesale desertions from the American fleet when it was in Kiel makes rather unpleasant reading. If true, it shows that service in the navy is less attractive than it has been commonly supposed to be. As there are good reasons why the navy must continue to be increased, it would seem to be imperative on the men in charge of it to make service in it as desirable as possible. This is a matter which demands the attention of Secretary Moody.

MR. CLEVELAND, in his letter to Tammany expressing his regrets at not being able to be present at the Fourth of July mass meeting that society, said that the wigwag, "as a political organization of vast influence, can not escape the responsibility which its power and its glorious traditions create." This looks like sarcasm. The ex-President is about the only man now alive who ever heard that Tammany had "glorious traditions." This is certainly new to the men who have been running it in the past thirty or forty years. That sort of additions were never heard of by Tweed, Kelly or Croker. What kind of traditions were influencing Tammany in 1854, 1858 and 1862, when it was opposing Cleveland for President?

New System of Highway Robbery.

The news from Kansas is of the most startling character, and unless read with discrimination is certain to lead to wrong conclusions. Thus, when we read that the farmers held up a train and went through the passengers trying to kidnap at high wages any possible farm-hands we are obliged to admit that a new state of affairs has been reached - one not contemplated by the Constitutional Fathers. Then, when we note daily auctions of laborers it would seem that slavery and peonage had returned, until we find that the auctioneers are the workers themselves who go to the man making the highest bid for their services.

Really, this is a situation that is extraordinary and one which ought to be remembered for a long time to come. Wheat in Kansas is averaging nineteen bushels to the acre, and the only trouble is the lack of hands to harvest it. After all the talk about bad weather and the damage by frosts and rains, it appears that, on the whole, the farmers are going to have a bumper crop. When it is necessary to hire men at auction or hold up trains to get harvesters we must say, an astonishing condition of things has come to pass. We remember that about eight years ago the people of this city were besieged to send out money and clothing to care for the Kansas destitute. We read in a Kansas City paper that more Kansas and fall-top buggies were sold in Kansas in the last year than ever before in the history of the State, and it is claimed that no State in the Union has reached this record.

Our friend the farmer is apt to grumble occasionally because things do not go to suit him, but of late he has had no reason to complain. In the West it seems that the farmer is dissatisfied unless he makes clear (above living expenses) fifty per cent. of the cost of his farm. No wonder that he is holding up trains to get workers in his fields that yield so much. No wonder that Mr. Bryan has become a sawdust prophet in his own country, since the man who is prosperous has no time to listen to the wail of the calamity howler.

The farmer is going to have a mighty good year, and there is not going to be enough coal and iron produced in the country to meet the demand. That is about as good a political platform as could be wished by any party. -Phila. Inquirer.

Base Ball.

The ball team from here went to Marienville Tuesday of last week and lost a game to the team of that place, the score being 8 to 11 in favor of the Marienvillians. The game was practically featureless, except that our boys did not seem to play with their usual speed on that occasion, and to use the words of the Express on a former game, "the boys think if they had received their share of the close decisions the result might have been different." This game leaves the teams tied, and one more will be required to decide the championship of the county.

On Friday the Tidoute nine came down to try conclusions with our team, and were literally "eaten up" by the locals. The game started with Tidoute at the bat, and by a succession of wild throws, fumbles, and one thing and another on the part of the home team, the visitors piled up four good runs. This made a bad looking mess for the locals, but when they came to bat the scale was turned, and they "lined 'er out" for four of the same kind, tying the score. Tidoute's second time at the bat was even more of a luck streak than his first, for a wild throw let in three runs. And there, where the run-getting ended for them, while Tidoute steadied down and from that on "played the game," and the manner in which they slugged McMillen was heartrending, while "Billy" fanned them out in one, two, three order, allowing the visitors but one hit, which was made by McMillen, the home team piling up 13 big hits in the meantime. Score, 17-7 in favor of the locals. Batteries, McMillen and Allen for the visitors; Bankhead and Lawrence for Tionesta. The game was called at the end of the 8th inning to allow the Tidoute boys to catch the afternoon train. There was no kicking, so the game was a nice one all through.

Grandville.

Reed Cassel of Clarington was visiting among friends here lately. E. L. Davis Esq., of Buffalo, N. Y., recently spent several days pleasantly with his Tionesta friends at this place. A fourteen-year old boy named Honhart was drowned while bathing in the Allegheny river not far from here Sunday before last. Lewis Sparks of Eagle Rock and Miss May Walsh of Seige were married at Jamestown N. Y., July 2. Ralph Henry of Tionesta, spent a few days with his friend A. J. Lawrence and visited the Carnival in Warren. M. Hildebrand of Garland and Miss Jessie Keister of this place were married July 2d at Jamestown N. Y. Miss Florence Hagerty of Tionesta accompanied Misses Mary and Bessie Morgan on a recent visit with the latter's sister, Mrs. W. N. Ball.

Leslie Dawson of Nietown was badly bruised and shaken up in an accident on the log road two days before the Fourth and that he escaped instant death is almost a miracle. In company with two others he was bringing a heavily loaded car of bark from the woods, and was breaking on the forward end. The car was running by gravity and nearing the terminal of the line had reached a terrible velocity, when some one had thoughtlessly turned the switch throwing it into the locomotive shed, smashing in the doors and knocking the locomotive through the lower end of the shed with a crash. When the car struck the sudden stop slid the bark rack forward on the trucks, and Dawson being between the rack and the doors, his position was certainly a critical one, and that he escaped with severe bruises only is very fortunate indeed.

When the Nerves Are Shattered.

When the nerves are shattered one cannot think, work, eat, sleep or accomplish anything. It is a case of force all the time - a continued effort to keep going - no life - no energy - no ambition - upset at anything - nervous headaches - crying spells - fits of depression and other despondency. Dr. A. W. Chase's Nerve Pills cure this condition to stay cured by rebuilding the nerve centers and resupplying what is lacking - the active principle of life - Nerve Force. Mr. William Klimer, of Mercer, Pa., says: "Some time ago I had an attack of nervous prostration - recently I began to feel unsettled, nervous, restless and depressed I was told of Dr. A. W. Chase's Nerve Pills and can say that they stopped all further trouble. Since using them I feel settled, nerves steady, strength good and generally well. I can consequently recommend the medicine. For further information call at J. C. Dunn's drug store, Tionesta, Pa. 5c a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M.D., are on every package.

How Trees Cool the Air.

We think of a tree as a cooling agent because its shade protects us from the heat of the sun, but it cools the air in another way that is not generally known; in fact, it cools the air around it as a lump of ice cools a vessel of water. The tree has a body temperature of about 45 degrees, just as we have a body temperature of 98 degrees, which is not affected by outside influences. It is the tree's blood heat, so to speak. So that the air around it is cooled by the tree itself as well as by the shade it makes. When a tree in full leaf is struck by a strong wind we wonder that it is not torn all to pieces. And so it would be for the way the limbs and twigs are arranged by nature. That arrangement is such that the effect of the wind is broken, for the limbs sway and move in a hundred directions instead of one, and the force of the blast is so scattered that it is comparatively harmless. If the limbs all moved at once in the same direction no tree could escape being torn apart.

More Than Familiar.

"Is my daughter familiar with the great composers?" asked Mrs. Cunnrox. "Madam," said the music teacher, "with a look of desperation, she is not merely familiar with them; she is impudent!" - Washington Star.

Not Too Self Confident.

"Young Dr. Fiedelgung doesn't seem very certain of himself." "Why, no. I think he feels like calling a consultation every time he has to make a diagnosis." - Brooklyn Life.

En'f'nd.

"Is that my umbrella you have?" "Most likely. I've just bought it in a pawnshop."

Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan Texas. "I got temporary relief, but it came back again and again, and for six years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bessemer county our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by Dr. Dunn, Tionesta, W. G. Wilkins, West Hickory.
