Oil market closed at \$1.56. Oil and gas leases at this office. Hopkins sells the Douglas shoes. The annual Sunday school excursion to Chautauqua will leave on Friday, August 15th.

Remember you can buy your boy a suit of clothes at cost price at our store, Heath & Feit. Ex-Sheriff J. M. Steltzer, of Clarion, died at his home on the 5th inst., after an illness lasting about three weeks.

The latest styles in hats can always be found at F. Walters & Co.'s. See the new line of mid-summer felts just received. The Maccabees held a monster picnic at Monarch Park last Wednesday which was largely attended by members from this section.

Melons, canteloupes and all the tropical fruits, besides an ever fresh supply of best groceries at the White Star. Call or phone. Your wants will be speedily met. Glenn Henry dislocated his right wrist in a friendly scuffle with one of the boys at the court house last Thursday, in consequence of which he is off duty for a while.

Fish are biting a little bit hereabout, Sam Fitzgerald having pulled a two-and-a-half foot pike and a 3-pound bass out of the river at the bridge last Friday morning. Mrs. F. Wenk received a telegram Saturday conveying the intelligence of the death on that day of her cousin, Dr. Bricker, one of the prominent physicians of Butler, Pa.

The Pleasantville campmeeting is attended by immense audiences, the crowd on Sunday last being a record breaker. The meeting will continue over next Sabbath, closing on Monday. Following is the list of letters lying unclaimed for in the post office at Tionesta, Pa., for the week ending Aug. 12, 1903: J. C. Higley, Wm. Stearns. D. S. Knox, P. M.

The New Dormitory at Edinboro Normal School is the most modern in equipment in the State; electric light, haul system of heating, wire for catalogue. John P. Bigler, Principal. It is whispered around that Tylersburg trimmed Marienville in a base ball game last Saturday to the tune of 11-0, on the grounds of the former. If this be true it makes Ed for the "champions of Forest county."

A horse hitched near the campmeeting grounds at Pleasantville Sunday took fright at E. W. Bowman's 'mobile, tore loose, ran away, and demolished the rig to which it was hitched. No one was hurt in the mix-up. The good luck of Bowman, Carnahan & Co. still continues. Another good well was brought in on their Pitohole lease last Thursday that started off at about thirty barrels and it is expected that it will settle down to about twelve barrels steady.

If anyone asks you about it you can tell them the Jeffries-Corbett prize fight takes place on August 14 and the first international yacht race on August 20. 'Tis hard to say which of the two events will arouse greatest interest in the average American breast. The faithful stay-at-home hubby is reported by an exchange as sending this to the absent wife: "Socks all gone, sour milk in ice-box, dishes all dirty, house full of flies, cat won't stay home, sent \$10 to-day, pretty lonesome, don't hurry. When are you coming home?"

Our Grunderville correspondent notes the marriage of one of our Tionesta young gents to a young lady of Clarion, which will interest many of the friends here of the groom, Alvin Thomas, and they will join us in extending best wishes to the happy young couple. We had a very pleasant visit from our old friend Conrad Paul, of Newtown Mills, yesterday, who was transacting business in town. Mr. Paul is well preserved at the age of 72 years, and considering the many hard days' work he has seen, retains his vigor in a remarkable degree.

The Odd Fellows of several counties in this end of the State are holding a reunion and a picnic at Monarch Park to-day, and a few from this vicinity are in attendance. The lack of railroad accommodation in getting back home kept many away that would otherwise have gone down. During a storm Thursday afternoon lightning struck the butternut tree which stands near the tennis court, and well nigh ruined the old landmark. The players and spectators had been driven off the ground by the rain only a few minutes before the bolt came down. Perhaps it's a warning to those players who allow their tempers to get the best of them and say cuss words in an undertone occasionally.

Scandals are rare in a village. And the plebeians all feel gay. When the ladies' clubs take a vacation And the big bugs all go away; When the ministers close their churches And—just to make this rhyme—He themselves up to Chautauqua, In the good old summer time, Oil City Blizzard.

—Yesterday afternoon, at her home on Vine street, Mrs. Wm. Mealey pleasantly entertained the superintendent and Junior League of the M. E. church, the party being in honor of the birthday of her daughter, Marie, and grandson, Master Aubrey Feit, the little folks enjoyed themselves immensely.

—The perfecting of a double tennis court down on the mantle factory lot has greatly stimulated interest in the game in this place where it was already running high. The courts are very fine, and if something is not done to check the excitement it will soon be worse than the tulip craze of the 17th century.

—Judging from the tone of the local papers there is some slight objection to the farm recently purchased by the Commissioners of Clarion county on which to build a county home. It would appear that the officials did not take all the people into their confidence when they made the dicker. A fatal blunder.

—The 30th Annual Great Grangers' Picnic Exhibition will be held at Williams' Grove the week beginning August 24th. These great events are increasing in interest from year to year and the immense crowds which are drawn thither is evidence that the exhibition is well worth the time trouble and expense of getting there.

—The citizens of Fryburg, Clarion county, have subscribed to a fund of \$200 to be offered as a reward for the apprehension of the thieves who recently robbed the Dietz hotel and the store of George Fletcher at that village. It is suspected that some of the parties may be located not far from the scene of the robberies.

—Hon. N. P. Wheeler writes us from Manistiquie, Mich., that he has had the pleasant privilege of looking over the "Tionesta," the handsomest lakeship and namesake of our town, while she was lying at the wharf at Mackinac Island. He says it is a fine ship, the best by far of any of the Anchor Line, as well as the fastest on the Great Lakes.

—An Armstrong county farmer's bee hives were robbed the other night. The next day the farmer followed some of his bees into a dense forest nearby, and directed by the bees, found his honey under a rock. He waylaid the thieves, when they came after the honey the next night, and filled them with bird shot and then took his honey back home.

—V. G. Armstrong, for some months employed at Conneaut, Ohio, has concluded to make that his home, and accordingly Mrs. Armstrong and the children left for there yesterday. The removal of this estimable family from among us is generally regretted by our people, all of whom will wish them prosperity and happiness in their new home.

—To remove fruit stains stretch the fabric containing the stain over the mouth of a basin and pour boiling water on the stain. In cold weather fruit spots may frequently be removed by hanging the stained garments out of doors over night. If the stain has been a fixed one by time, soak the article in a weak solution of oxalic acid or hold it over the fumes of sulphur.

—Friends in this section of Rev. Forest F. Shoup, of Buffalo, N. Y., will be interested to learn that he has recently returned from Glen Ellyn, Chicago, where he was successful in his final examinations in a four years' course of study in the extension department of the Ruskin University, admitting him to the degree of Ph. B. Mr. Shoup is to be congratulated on his successful efforts.

—Frederick Grubbs, son of Andrew Grubbs, who resides on the old Gordon farm below Newtown Mills, died on Thursday last of typhoid fever, aged about 23 years. He was a young man who bore a very honorable reputation in the community in which he lived, being highly esteemed by all who knew him. The funeral was held on Saturday last, the interment being in the cemetery at Guitonville.

—Friday afternoon a heavy iron beam which laid across the arch of the old bridge span, came down as the Hotel Weaver bus was passing under, frightening the horse and causing him to run away. In the mix-up Joseph Sutter, who lives in the house at the east end of the bridge, was caught and thrown to the ground, striking on his face and cutting a bad gash over his left eye. His injuries were not serious and no others were hurt, but it is something in the nature of a miracle that all escaped serious injury.

—On account of the meeting and parades of the Northwestern Pennsylvania Volunteer Firemen's Association, at DuBois, Pa., August 19 to 21, the Pennsylvania Railroad Company will sell excursion tickets to DuBois, August 18 to 21, good to return until August 22, inclusive, from Erie, Sunbury, and intermediate stations on the Philadelphia and Erie Railroad Division, including branches, and from all stations on the Buffalo and Allegheny Valley Division in the State of Pennsylvania, at rate of single fare for round trip.

—The editor of an exchange who was evidently a little in "the tight" expressed his feelings thusly: "The subscriber who comes in these days and pays the printer is blessed, and in the kingdom to come he will be given a place higher than the angels. His name will be written at the top of the column next to reading matter, and nothing will be too good for him. He will get comps to all his recitals and have a reserved seat beside the editors, while the delinquent subscribers will have to carry water for the performers and sit up in the gallery."

—George Crider, foreman of Wheeler & Dusenbury mill at Endeavor, met with an accident Monday morning that will give him considerable trouble for some time, and will maim him for life. He was doing some work about the machinery in the under portion of the mill when his hand was caught in a cog gearing and his right thumb so badly lacerated that Dr. Dunn and Morrow, who were summoned, found it necessary to amputate that member, taking it off at the socket. They think Mr. Crider will get along without any serious results from his painful injury.

—Rev. and Mrs. Hollister, of East Palestine, Ohio, were guests at the home of the latter's brother, G. G. Gaston, a few days of the past week. Rev. Illingworth drafted his brother minister into the service at the Presbyterian church last Sabbath, and he preached to a large and well pleased congregation.

—The new catalogue of the Clarion State Normal gives a clear description of the courses of study and the aims and plans of the school. The school is organized for efficient work. There can be no doubt about the success of the institution. Dr. Weir has set a high standard of efficiency in the instruction and government and this standard will be maintained. Serious young people desiring an education can find the opportunity they wish in this school.

—A private letter from S. Willis Brace, a former well known citizen of this place, but for some years past residing at Port Wing Wis., states that he and his two sons, Harry and Fred, have taken up timber claims near Union, Oregon, and that he and his family will move to that place this month, where they will "prove-up" and take possession of their property. Willis and his boys have many friends in this community who will wish their abundance of prosperity in their far western home, where there are great possibilities in store for those who care to take them up.

—When do the "dog days" commence? We always thought they were an August affair, but that pestiferous being, the weather expert, says they began on July 12th. How long do they run? There seems to be no means of ascertaining their limit or of shutting them off. They say these dog days are baleful and unhealthy, making us all doubly liable to attacks from disease, blues, bile, etc. Well, really, judging from the cool nights and the general comfort, we'll bet a litter of pups that there's a lie out somewhere in regard to these deadly dog-days.—Franklin Spectator.

—The editor of one of our exchanges truthfully says that "you might as well get your horses used to automobiles, for they have come to stay. If you should happen to meet one in the road while driving, just motion for them to stop if your horse is frightened, and if the driver of the machine does not comply with your wish give him fifteen minutes to say his prayers. It is safe to assume that inside of ten years a large proportion of conveyances that travel the public highways will be automobiles." All of which may be true and yet that's what we all thought about bicycles ten years ago.

—An Associated Press dispatch says: "A check for \$100 has been received from President Roosevelt for Theodore Roosevelt Signet, the boy born to Mr. and Mrs. William H. Signet, of McKeesport, some weeks ago, and is the 20th child born to Mr. Signet. The money has been placed in a bank to the credit of the baby, the interest to accumulate until he is 21 years old." This does not necessarily mean that Mr. Roosevelt will send a \$100 check to every new namesake, but where it happens to be the twentieth one in the family we presume he'd feel like he ought to in order to sustain his well known ideas on the "race suicide" question.

—Since their return home from Tionesta Tuesday, the Tennis Club of this place are in receipt of several challenges to play a tournament. During, Frost Town, Penokee, Seldom Seen, Gilfoyle, North Pine Grove all want in on the fun. While our gun club is recovering from its severe attack of buck fever the Muzette boys are practicing for a bout with them. That's all right boys, have your fun now, we may turn the tables some time. "In the good old summer time," our girls say they would like to play tennis with this club but for shooting the shoot they would prefer to loop the loop.—Marienville Express. It's no fair to kick a fellow when he's down.

—No observant person can have failed to notice the gross laxity in the ordinary American home in the training of girls, even where the parents are sound-hearted and respectable. Young girls in Philadelphia or in almost any city, may be seen parading the streets free from all guidance and supervision in a way which forbids evil results, at the very least in bad manners. Many of these girls have no thought of evil; but the flippant manner, the lack of reserve where strangers are concerned, the reckless behavior, and the habit of gadding about at their own free will on city streets and in public places, lead inevitably to a hardening of character and a hopeless vulgarization. Many a tragedy, too, has its beginning in this way. Parents who have toiled and milled for their children, and who would give, in fact, literally have given their own lives for them, fail; and their failure is directly traceable to the lack of restraint upon the too great freedom of young girls.—Philadelphia Ledger.

—Everybody—that is everybody who assumes that life is worth living—takes a bath at night, but a good many people feel too many duties pressing consistently upon them to stop for a bath when they rise in the mornings, says the New York Tribune. And yet the moment when she lifts her head from the pillow is the worst of the day to many a woman, especially in the hot weather. She feels languid and "headachy," lethargic and carries dull eyes and face to the breakfast table. A cold shower bath and a brisk rub would brighten her eyes and enable her to begin the day with a smile. Failing the shower, a plunge bath will serve, and it is this inconvenient a brief sponge at the washbasin will set the blood circulating to let the heavy head. Then drink something immediately on rising. A quantity of cold water is beneficial. Some people get a better effect from a glass of hot water with half a lemon squeezed in it. The principal of the early morning drink is that it washes out the stomach, which during the long hours of night becomes coated with mucus. It tones up the digestive apparatus and gets it ready for work. Then if the woman puts on perfectly clean clothes and gets five minutes in the fresh morning air outside, taking full, deep breaths, she will feel like a different creature. This may sound like a good deal of time for a busy woman to spend at the beginning of things, but it will not amount to more than 10 minutes extra, and that number of minutes could be deducted from the time taken scoring the ice man on account of shortage in weight.

—A man could talk almost as well as a woman if he had time to practice.

W. and Q. Jamieson, was here during the past week on a visit. "Wils" had many of his old friends while here, all of whom were glad to see him.

Mayburg.

The word came to-day that Fred Grubbs was dead from typhoid fever. It was received with real sorrow. The boys here all knew Fred, and liked him very much. About the first word we got was for Rev. A. Smith to come down to see him. The next word was, he's dead. A young man of bright prospects, but he is gone into the great beyond.

Frank Parker is reported better. The filer and inside foreman of the Watson Lands Lumber Co. mill, W. A. Reese, was taken sick on Tuesday, which shut the mill down for half a day, when Mr. Whisner, of Buck Mills, was gotten for a while; then the mill was started up again. Mr. R. was on the street to-day but, looking poorly.

Wm. Hood, of Tionesta, is here doing some piping for the Richards house. Tionesta is represented now by three good workmen, James A. Huling, John Saylor and Wm. Hood. We are glad Tionesta can spare them for a while. Mrs. Belle Christy is here on a visit to her father's home. Ed is drilling in Kentucky.

Wm. Tobey and his daughter-in-law just passed through with a load of huckleberries. By-the-way, berries are a good crop in this neighborhood. Dr. Detar is kept very busy just now, but we hope his time will not be taken so steadily in the future, having hope that the sickness will subside.

Clifford Habb is sick, but reported better. That reminds me of a gentleman who lived here some years ago, who was having a hard time of it all one winter. His convalescence was very slow. A kind neighbor sent over nearly every morning to enquire of the state of affairs by his son. The report generally was "a little better," till one day the boy who carried the message said, "father almost always get the word 'he's better.' I should think he would soon be well." The boy got tired tramping through the snow to inquire about sick folks.

Mr. Johnson resigned his position of superintendent of the Mayburg Supply Co. store. Expects to engage in business for himself. Sorry to lose you, Charley. George Deshner, who was engineer of the switching engine, resigned to-day. Wm. A. Long, the erstwhile boss at the lumber yard, but who resigned about a year ago to accept a position with the Oil Well Supply Co., of Oil City, is back again in his old position, William will take care of all the lumber that is manufactured and put it on the cars, and if necessary do it as fast as it is put out. The right man in the right place.

James Long is here on a visit to his brother John. He says that he would rather spend his vacation at Mayburg than any place he knows. James has a very nice position with the Oil Well Supply folks, at Oil City. Mrs. Martha Turner, mother-in-law of John Long, went away on the train to-day.

Speaking of the train, we fully appreciate Mr. Collins' road, the Sheffield and Tionesta. It is a great convenience to be able to leave here in the morning, take some hours in Sheffield and Warren and return the same day. The road-bed under the care of Road Master Lawton, is improving all the time. Then to have your freight and express goods delivered right at your door. Why, it's just the thing. I think this railroad has taken some of the wilderness smell out of this section of woods. Anway we feel that way.

Express goods calls up recollections of some years ago. A preacher lived here, I knew him well. He was putting up quite a stiff fight against the granting of liquor license for Hallowtown—had some men out getting signers to remonstrances, etc. Major Goodman was then carrying the mail between Cherry Grove and Hallowtown, and incidentally bringing in packages of Express goods, and anyone who knew the Major can appreciate his remark: "Why So and So needn't make such a fuss about our wanting whiskey at Hallowtown. I bring in a good many express packages for him!" Major was getting off one of his dry ones, for before he died he called upon this same preacher to preach his funeral sermon.

I hardly ever pass Buck Mills, but my eyes wander over to where the old rock stood for so long a time, may be centuries, may be thousands of years. It was called Panther Rock on account of a legend of the panther. You may remember it. If not, some day I may relate it. It seems to me that old land marks, legendary stones and interesting places in our county should be dealt with kindly, and while the progress of the county must have its way, may there not be some way around, by which these old things of precious memory may be preserved. Frog rock in the Buck mill pond, has a story. It and the rock should remain with us. Panther rock has gone, but the legend remains.

Well, the Pope is chosen, and the papers are describing the splendor of the ceremonies. They are grand indeed, but with all the splendor and glitter, it will be hard to replace Leo XIII. At best it is only an experiment. There was something grand and wonderful in the man whom Bismarck would honor by saying that he was "the greatest statesman of his age." Leo's work and life counts for good in this world. Our religion is not the same, but the manhood, the ability and the holy, consistent life, must be admired by everybody who loves the truth. MORE ANON.

Caution Notice.

The traveling public is hereby notified that extreme caution must be exercised in crossing the river bridge at Tionesta for the next three weeks, or while repairs are being made. But one rig or team will be allowed to cross the bridge at a time, and heavy loads will be prohibited altogether until work is completed.

L. J. Hopkins. It Never Fails.

Thompson's Barosma has never been known to fail to cure any disease of the Kidneys, Liver and Bladder; also Rheumatism, Sciatica, Palpitation of the Heart, Nervous Debility, and Female Weakness. Thompson's Barosma carries off all the inflammation, neutralizes the acid and dissolves gravel, reducing off all matter that is poisonous to the blood, stomach, heart, kidneys and liver. It is purely vegetable and pleasant to take. No opiate in any form is used in its manufacture. It can be taken by all ages and has cured many children of non-retention or bedwetting. "I had been troubled with rheumatism ever since I was eighteen years old, and when I went into the drug store I had little faith in Thompson's Barosma. I have taken six bottles of Barosma and am better than I have been in twelve years. I can work every day, something I had not done in ten years. Thompson's Barosma regulates my whole system and I am stronger and better in every way, and am glad to hear this testimony. Thanks to Thompson's Barosma."—JOHNSON N. DURN, Troy Center, Penn'a. If costive, Thompson's Dandelion and Mandrake Pills should be taken with Barosma. They are purely vegetable and do not gripe.
